

PhD Minor in Indigenous Health

The PhD Minor in Indigenous Health is designed for University of Arizona doctoral students who desire to obtain doctoral level training in Indigenous Health. This doctoral minor will provide students with knowledge and skills necessary to engage and collaborate with Native Nations and Indigenous peoples locally and globally, and to conduct health research that is culturally responsive to community needs and honors tribal sovereignty.

A minimum of 12 units are required for the minor. Students must be enrolled in a doctoral program. Consult the UA catalog for further details on the current course schedule and specific course requirements.

PhD Minor in Indigenous Health requirements:

- PHPM 517 Indigenous Public Health (3)
- PHPM 521 Administrative Dimensions of Indigenous Health (3)
- PHPM 568 American Indian Health Care Policy (3)
- HPS 556 A Circular Approach to Global Indigenous Research (3)

A list of applicable courses can be obtained from the Program Director, Dr. Felina Cordova-Marks (felina@arizona.edu), and are listed in the UA course catalog under Public Health Policy and Management (PHPM) and Health Promotion Sciences (HPS).
