INTRODUCTION
The University of Arizona’s Mel and Enid Zuckerman College of Public Health (MEZCOPH) was established in January 2000 and accredited by the Council on Education for Public Health in 2003. Under its administrative roof are academic programs that lead to seven degrees - the Bachelor of Science (BS), with a major in public health; the Bachelor of Arts (BA) with a major in Wellness and Health Promotion Practice, the Master of Public Health (MPH), with concentration areas in Biostatistics, Environmental and Occupational Health, Epidemiology, Family and Child Health, Health Behavior Health Promotion, Health Services Administration, One Health, Public Health Policy and Management, and Public Health Practice; the Master of Science (MS) degrees in Biostatistics, Environmental Health Sciences, and Epidemiology; the Master of Science in Public Health (MSPH) degree in Health Behavior Health Promotion, Doctor of Philosophy (PhD) degrees in Biostatistics, Environmental Health Sciences, Epidemiology, and Health Behavior Health Promotion; and a Doctor of Public Health (DrPH) degree with concentration areas in Maternal and Child Health and Public Health Policy and Management.

The Bachelor of Science and the Master of Public Health degree programs are offered via campus based, as well as online, formats. Comprehensive information about all of the College’s academic programs can be found in the College of Public Health Curriculum Guide.

Our graduates have established careers locally, nationally, and internationally. Of note, they include health department directors, CDC program managers, industrial hygienists, health promotion and wellness specialists, public health faculty, pharmaceutical industry biostatisticians, directors of community outreach programs, epidemiologists, clinical research coordinators, chief executive officers of health centers and community programs, as well as the 17th Surgeon General of the United States, Dr. Richard Carmona, to name just a very few. We are proud of the contribution we are making to build and maintain a competent public health workforce!

MEZCOPH MISSION STATEMENT
The Mel and Enid Zuckerman College of Public Health is dedicated to promoting the health and wellness of individuals and communities in the southwest and globally with an emphasis on achieving health equity through excellence in education, research & service.

MEZCOPH VALUES STATEMENT
MEZCOPH acts with respect and integrity to continuously advance health and well-being for all through knowledge, collaboration, empowerment, advocacy, and sustainability. Our core values are: Fairness, Trust, Equity, Social Justice, Excellence, Innovation, Commitment, Collegiality, Diversity, Open Communication, Participation, Consensus, and Enhancement. We strive to foster an educational community that values innovation and excellence in teaching, creation
and dissemination of knowledge, practice-based research and research-based practice to address the health needs and interests of individuals and communities.
SECTION I GENERAL INFORMATION FOR COLLEGE OF PUBLIC HEALTH GRADUATE STUDENTS

PURPOSE OF THIS HANDBOOK
The objective of this handbook is to provide straightforward guidance to campus-based MEZCOPH students about how to navigate through the academic programs of the College. The handbook is divided into two sections. The first section of the handbook includes general information for graduate students about MEZCOPH resources and operations, student organizations, events, and financial assistance. University and Graduate College rules are reiterated and linked to as appropriate. The information in this section is applicable to all students in MEZCOPH’s graduate programs. The second section of the handbook outlines information specific to each of the graduate programs (i.e., MPH, MS, DrPH or PhD programs). Students should refer to the handbook often.

While students are held to the program requirements of the Academic Curriculum Guide for the academic year in which they were admitted, University and College of Public Health operational processes and policies do change. These changes in policies and procedures are reflected in the Student Handbook. Please refer to the most recent MEZCOPH Student Handbook (revised annually) for the most current policies. The University of Arizona General Catalog of policies and Graduate College website provide comprehensive details on current policies and procedures that pertain to all graduate students at the university. Much effort goes into communicating changes to students but it is the student’s responsibility to be aware of these policies and to adhere to them. Additionally, it is intended that faculty refer to this handbook when mentoring and advising students. This handbook works to promote expectations that are shared by students, faculty, and staff.

The staff members of the MEZCOPH Office of Student Services and Alumni Affairs look forward to helping students work toward their degrees. If, at any time, you have questions or concerns about specific MEZCOPH issues, do not hesitate to contact the staff member assigned to that area (see the Office of Student Services and Alumni Affairs staff list found on the MEZCOPH Student Hub). Although the Office of Student Services and Alumni Affairs is here to support student progression through our degree programs, keep in mind that completion of all degree requirements and paperwork is ultimately the responsibility of the student seeking the degree.

Again, we welcome you and look forward to working with you during your time at MEZCOPH!
PHYSICAL RESOURCES AND FACILITIES

TUCSON CAMPUS

Campus COVID-19 Protocols
The University of Arizona provides comprehensive information, updates on the institution’s response to the pandemic and plan for classroom instruction on the COVID-19 Response page. A robust list of resources, timely updates and President Robbins’ most recent press conferences on the subject may also be found there.

Health and safety protocols specific to Drachman Hall are maintained on our website.

DRACHMAN HALL

The east wing of Roy P. Drachman Hall, MEZCOPH’s home, opened for classes in January of 2006. MEZCOPH administrative offices are found on the 3rd floor and faculty offices are located primarily on the 2nd floor. Classrooms occupy the 1st floor of both wings of the building and are used primarily by the Colleges of Public Health, Pharmacy and Nursing. The College of Pharmacy occupies the west wing of the building. MEZCOPH students, faculty and staff play a vital role in ensuring that the facilities of Drachman Hall are treated with respect and are asked to report any incidences of vandalism, theft, or questionable activities to the Building Monitor at 520-626-3078 or via the Student Suggestion Box on the Hub if the issue is non-emergent. Building security services are not available in the evening or during weekends; therefore, students should not be in the building after regular business hours (8 a.m.–5 p.m.) or weekends unless they are taking a class or working in an assigned cubicle or office space.

Bicycles, Bicycle Parking, and Bicycle Valet Service
UA students, faculty, and staff who ride their bicycles to school are encouraged to register their bicycles with the University of Arizona Parking and Transportation Services. Bike registration provides the owner with discounts on selected bicycle supplies and services from participating bike shops, free lock cutting service for UA-registered bikes on campus, and a record of ownership and documentation for insurance carriers. Registration facilitates the return of stolen bikes to their owners.

For parking convenience, bicycle racks are located on the south side of both wings of Drachman Hall. Additionally, there is a free bike valet service, open Monday through Friday from 7:45 a.m. – 6 p.m. (excluding University holidays and summer break), located on the north side of Helen Street just east of the Warren bike path and southwest of Drachman Hall. Check-in your bike with one of our friendly Bike Valet attendants who will give you a key tag. Your bicycle will be watched and monitored while it is parked. When you return to the valet station, hand the attendant the key tag to receive your bike. For more information, please visit the Bicycle
Programs website. Bicycles brought into the building or locked to stairwells or other architectural features will be impounded.

**MEZCOPH and U of A Information Technology Resources**

**General Tech Support**

- **MEZCOPH IT Resources:** Send a detailed email with your issue to coph-help@arizona.edu, or call 520-626-7417. MEZCOPH IT FAQs can be found at: https://hub.coph.arizona.edu/it-support
- **UA IT Resources:** Call 520-626-TECH (8324) or 877-522-7929, or chat with them at https://support.arizona.edu. UA IT FAQs can be found at: https://remote-learning.arizona.edu/campus-technology-how-tos/students

**MEZCOPH Computer Lab**

*Location:* Drachman Hall Room A319  
*General availability:* Monday through Friday 8 a.m.-5 p.m. unless the lab has been scheduled for other College activities.

MEZCOPH’s computer lab is equipped with 21 Windows PCs, a printer, and a projector. Information about courses scheduled in the computer lab, for the current week, will be posted outside the lab door. Students can view the computer lab schedule via the [UA Health Sciences Scheduling System](https://new.library.arizona.edu/visit/spaces/computer-study-areas) (search by date for Drachman Hall Room A319).

To use the systems, students must login to the computers with their NetID. **Please make sure to log off from the computer when done.** Stata, SPSS, SAS, ArcGIS, R, EpiInfo, Matlab, Teams, Adobe Acrobat DC, and Microsoft Office are installed on each system.

Do not save your work to the lab computer. The systems are wiped after each reboot. Use a thumb drive or cloud storage (e.g., Google Drive) to save your work. Printing is free, but students must provide their own paper.

**Other Computer Labs Around Campus**

There are several other computer labs available. They may not have the same software titles as the MEZCOPH computer lab.

UAHS Library - All computers have the basics (Office Suite, browsers, media players), plus specialty software for graphics, statistics, engineering, and more. [https://new.library.arizona.edu/visit/spaces/computer-study-areas](https://new.library.arizona.edu/visit/spaces/computer-study-areas)

OSCR - Most labs feature Apple computers that dual boot into your choice of Mac or Windows operating system. [https://oscr.arizona.edu/hours](https://oscr.arizona.edu/hours)
Software via University Licensing
The University Bookstores manages software titles that are available to students for free or at a discount. For a list of these software, please visit: [https://softwarelicense.arizona.edu/students](https://softwarelicense.arizona.edu/students).

VCAT (Virtual Computing Access Technology)
Use a wide variety of software from home. VCAT is a virtual computing system for students and faculty that is accessible from anywhere with a broadband internet connection. You will find much of the same software that is installed in OSCR’s physical computer labs, as well as any that may be provided by your academic department.
[http://vcat.arizona.edu](http://vcat.arizona.edu)

VPN (Virtual Private Network)
The UA VPN provides a secure connection from your home computer, laptop, or mobile device to the UA’s network. It is also a valuable security tool when you are on an unsecured wireless network (e.g., coffee shops, airports).
[https://it.arizona.edu/service/ua-virtual-private-network-vpn](https://it.arizona.edu/service/ua-virtual-private-network-vpn)

Lactation Room
For nursing mothers, the College of Public Health established a Lactation Room, located in Drachman Hall, Room A107, around the corner from A112. To use the room, obtain the access code from the administrative assistant in the Office of Student Services (Room A302), enter the code on the keypad outside of room A107, lock the door using the manual lock while in use and when finished, fill out an evaluation form that assists the college in assessing the usage of the room. The most recent safety protocols for visiting the Lactation Room are posted on the MEZCOPH website.

Lockers
Students may reserve a locker for use while pursuing a degree in the Colleges of Public Health or Nursing. Requests for lockers are processed by the administrative assistant in the Office of Student Services and Alumni Affairs, Room A110 of Drachman Hall. A one-time, non-refundable user fee of $5 is assessed (payment by cash or check only). To reserve a locker, a student should identify the range of locker numbers in the first-floor hallway in which the locker is desired and communicate this information to the administrative assistant, who will assign the locker number and provide the padlock combination to the student. Students may not use their own padlocks on Drachman Hall lockers. Drachman Hall is not accessible in the evening or on the weekend, so needed items stored in lockers should be retrieved prior to the conclusion of classes.

Lost and Found
Items found in the east wing or “A” side of Drachman Hall should be brought to A110, the Office of Student Services and Alumni Affairs, where the Lost and Found repository is located. Individuals who are attempting to locate lost property should check with the Office of Student Services to determine if the item has been turned in. Individuals must provide an adequate
description of the item and in some cases, personal identification before being re-united with lost items.

**Policy for Posting Advertisements in Drachman Hall**
Any paper advertisement, flyer, or announcement to be hung in either of the Drachman Hall buildings shall first be approved by the MEZCOPH Office of Student Services and Alumni Affairs in Drachman A110 (for postings hung in Drachman A) or the College of Pharmacy’s Office of Student Services in Drachman B107 (for postings hung in Drachman B). To gain approval, bring an original copy to the appropriate Office of Student Services. When approval is given, the announcement will be initialed and dated by the administrative assistant in the Office of Student Services. Copies of the announcement showing the initials and date can be made at this time.

Announcements may be hung indoors on plastic, metal, or bulletin boards ONLY, not on painted walls or glass/wooden doors unless special permission is granted by the appropriate Student Services Office. Announcements may not be taped, nailed, screwed, or in any way attached to the outside metal or brick siding of the building. Announcements without approvals or on restricted surfaces will be removed.

Removal of announcements is the responsibility of the organization or individual who hung them. Announcements must be removed no later than two days following the event. Failure to do so may result in denial of future postings.

**Student Cubicle Space**
Each department has a limited number of dedicated graduate student cubicles on the second floor of Drachman Hall. These spaces are assigned in priority order. First priority for cubicle assignments is for courses with teaching assistants. The cubicle space is assigned to the course and cubicle space must be shared if there are multiple TAs in the course. Doctoral students are the next space assignment priority. Students who are participating in a training grant follow in priority and finally, any graduate student who is employed as a research assistant by a Department that has space available may be assigned space. Only those students who have been assigned cubicles will be granted access to the second floor of Drachman Hall after hours.

Teaching assistants may arrange to meet with students in the breakout rooms (the small classrooms on the west side of the first floor). Using these spaces reduces noise on the second floor and provides private space when needed. Teaching assistants may schedule these rooms by accessing the [UA Health Sciences Scheduling System](#). The course number, name and faculty member should be included in the request.

The most recent safety protocols for the student cubicle spaces and using the breakout rooms are posted on the [MEZCOPH website](#).
Student Group Meeting Space
Student groups needing meeting space may request it by submitting a room scheduling request through the [UA Health Sciences Scheduling System](#). The group’s name and faculty advisor name should be included in the request. Advisors are expected to be present when student group meetings occur after hours. While individual students may not reserve a breakout room to study or meet with group members outside of course times, they may use unoccupied, unreserved rooms for these activities. The most recent safety protocols for using the meeting spaces are posted on the [MEZCOPH website](#).

Third Floor Patio
Students are welcome to use the third-floor patio adjacent to the south staircase, outside the Office of Student Services and Alumni Affairs. A room reservation is not required to use the patio.

Wireless Internet Access
Wireless access is available throughout and around Drachman Hall via connection to the UAGuest and UAWiFi networks. UAGuest is for use by visitors to our campus. A temporary user ID and password are texted back to the user for connection to this network. Additional information about UAGuest is available [here](#). UAWiFi, on the other hand, is a secure and fast wireless network that is available across most of our campus. Partially funded by the Student Technology Fee, it brings wireless access for all students, staff and faculty on campus. Connection to UAWiFi requires authentication using your NetID and password. The UAWiFi network, when connected, allows students to access on-campus networked resources that are generally unavailable over the public Internet, such as the libraries and [UAccess Student Center](#). Instructions for setting up UAWiFi wireless access can be found [here](#).

How to get help with UAWiFi
Help can be obtained through the Office of Student Computing Resources (OSCR) Help Desk. Call 626-TECH (8324) to schedule an appointment, or stop by during walk-in hours. Limited support is available at OSCR computer labs and multimedia labs. The [UITS FAQ on UAWiFi](#) is another source of help for UAWiFi. The MEZCOPH Information Technology staff can also help with the setup by contacting them [online](#) or calling 626-7417.

ARIZONA HEALTH SCIENCES CAMPUS RESOURCES
About the Arizona Health Sciences Campus
The Arizona Health Sciences Campus (UAHS) is home to the UA Colleges of Medicine, Nursing, Pharmacy, and Mel and Enid Zuckerman College of Public Health. The main UAHS campus is located in Tucson and is North of Speedway Boulevard. In addition to the UAHS colleges, other units and resources found on the UAHS Tucson campus include The University of Arizona Cancer Center, and Banner – UMC Hospital, the UA Health Sciences Bookstore, and the Arizona Health Sciences Library. UAHS also has a downtown Phoenix location at the Phoenix Biomedical Campus.
Eats, Treats and Meeting Spaces
Opportunities for lunching and meeting with friends exist on and close to the Arizona Health Sciences campus. In addition to the full-service cafeteria within Banner UMC hospital, there is the Catalyst Café which is located inside the Basic Sciences Research Laboratories Building (to the west of Drachman Hall). The Catalyst serves coffee, lattes, cappuccinos, espresso, a variety of teas, Italian sodas and a selection of paninis, sandwiches, pastries, and protein rich snacks. The neighborhood immediately south of AHSC offers convenient options as well, including Subway, Chipotle, Pizza Hut, Bentley’s, Miss Saigon, Brueggers Bagels, 1702 (pizza), Greek House, Taco Bell and McDonald’s.

A popular feature of life on the UAHS campus is the Farmers’ Market, held each Friday on the Plaza immediately north of Drachman Hall. This Farmers’ Market features a variety of food, crafts, products and services.

A number of outdoor seating areas that are conducive to conversation and small group gathering are located throughout the University of Arizona Health Sciences campus.

Health Sciences Innovation Building (HSIB)
The newest addition to the Arizona Health Sciences Campus is the nine story, 220,000 sq. ft. Health Sciences Innovation Building opened in spring 2019. State-of-the-art instructional spaces offer simulated, real-life situations for teams of students, faculty and health professionals in medicine, nursing, pharmacy and public health. The HSIB offers flexible large, medium and small group/team learning areas and clinical labs and simulation centers for a broad spectrum of instructional applications. It also includes a number of multi-use spaces and several student lounges. Student study space is found on floors 3 through 6. The 7th floor is home to the Simulation Center (ASTEC) and the 8th floor houses Clinical and Professional Skills labs. Arizona Health Sciences administrative offices are found on the 9th floor.

HSIB Student Study Space
HSIB is open from 7:00 a.m. to 7:00 p.m., Monday through Friday. (The Health Science Library will be open on weekends and after 7:00 p.m. so students can always find a place to study.) The student study areas are located along the east side of the HSIB on floors 3-6. There is a librarian office on each of the student study floors. Bookable study rooms include 1-person, 4-6 person, and 8-person sizes. All HSIB and library study rooms are bookable via the library reservation system libcal.

HSIB Student Lounge Space
A large student lounge and terrace is located on the 3rd floor of HSIB, as well as a smaller break area and terrace on the 6th floor. There are 2 terraces on the 4th floor. Both lounges have foosball tables, refrigerators, sinks and microwaves for student use.

HSIB Day Use Lockers
There are 500 day-use lockers throughout the HSIB building. The locks reset at midnight each night so articles must be removed prior to the building close at 7:00 p.m.

Further information about HSIB can be found here:
https://uahs.arizona.edu/scheduling/tucson-hsib or through the HSIB building brochure:
https://opa.uahs.arizona.edu/sites/opa.uahs.arizona.edu/files/hsic_tour_brochure.pdf

Arizona Health Sciences Library

The Arizona Health Sciences Library is located within the College of Medicine and is available to all students, faculty and staff associated with the four colleges that comprise Arizona Health Sciences (Public Health, Nursing, Pharmacy and Medicine). The AHS Library is available to students at our Phoenix Campus as well. Students can use the AHS Library for a myriad of services. The computer lab is comprised of desktop computers that are available on a first come first serve basis. These computers have all of the basic applications (Office Suite, browsers, and media players), plus statistical software such as SPSS, STATA and SAS. Students can also utilize the library’s scanners, print on the wireless WEPA printers using CatCard or debit card, or use the self-serve printer (cash only). The UAHS Library also rents out technology equipment like laptops, iPads, and cameras. To reserve a designated place to study alone or with a group, students should access the Online Reservation System. Visit the library’s website to find the current hours of operation. After the doors lock, UA Health Sciences students can enter the library with their CatCards. Learn more about library access on the website. The library is closed on all major holidays. Students also have the capability of accessing the UAHS online resources from off-campus by logging in with your UA NetID and password. A few notes on library access and security:

- Library staff will be available from 8 a.m. to 5 p.m., Monday through Friday. Staff are not usually on site after hours, but student safety aides will monitor the building from 5 to 9 p.m. Monday through Thursday and 12-8 p.m. Saturday and Sunday. The library is under video surveillance at all times.
- If you need assistance with library resources or services after hours, please use the UA Libraries’ chat service. A link is available in the top right of our website. Chat assistance is available whenever the Main Library is open (hours available here).
- If you have a safety concern after hours or observe any suspicious activity or people in or around the building, please contact the UArizona Police Department immediately at 9-1-1 or 621-UAPD (520-621-8273). Emergency call boxes are available on every floor near the elevator; calls go directly to UA Police dispatch.
- Don’t leave belongings unattended. Lockers are available near the service desk on the second floor.
- Don’t prop doors open or allow anyone to tailgate behind you into secured areas.
- When you enter or leave, please make sure the door closes securely behind you. Note that some double doors require one door to shut before the other.
The Arizona Health Sciences Library Liaison to the College of Public Health is Jean McClelland. Ms. McClelland is available to assist students, staff and faculty library needs. She has developed an Information Resources website specifically for students in the College of Public Health to help you be successful throughout your time in the program. Students may also reach out directly to Jean at jmcc@arizona.edu.

Medical Research Building (MRB)
The College of Public Health has research laboratory space in the Medical Research Building (MRB), first floor west. Some environmental health sciences courses use laboratories in the MRB and students receive specific information regarding time and place from the course instructor. Student research efforts are assigned appropriate space by the student’s Research Director depending on the nature and funding of the project. Students employed on faculty projects may be assigned to work in these laboratories.

Safety
The safety and security of our students is of utmost importance. Safety issues of the students, faculty and staff University of Arizona Health Sciences campus are handled by the University of Arizona Police Department (UAPD), located just two blocks to the south of the College of Public Health. The department has 65 state-certified police officers and 49 civilian employees who are here to help and respond to calls 24 hours a day. A number of Emergency Blue Light phones which automatically route calls to UAPD are located throughout the campus and in the parking lots and garages. UAPD can be reached by dialing 520-621-UAPD (8273). In an emergency, dial 9-1-1 for assistance. The hospital, Banner University Medical Center has around the clock security patrol.

Drachman Hall is monitored with the use of security cameras.

UA Alert is a free service that delivers emergency alerts to registered UA students, faculty and staff – as well as their friends and family – via their cell phones, mobile devices and/or email accounts during a campus emergency. To register for this service, please visit this webpage.

Safe Ride provides a safe, night-time method of transportation to all university-affiliated persons on and around the main campus. Learn more.

LiveSafe, an app available for iOS and Android phones, was developed in order to provide real-time interaction for UA students and employees reporting security and safety concerns. All UA students and employees have access to the app’s secure platform for free. Learn more.

A comprehensive list of safety tips for students can be found on the UAPD website.

PHOENIX BIOMEDICAL CAMPUS
The University of Arizona provides comprehensive information, updates on the institution’s response to the pandemic and plan for classroom instruction on the COVID-19 Response page. A robust list of resources, timely updates and the President Robbins’ most recent press conferences on the subject may also be found there.

The city-owned Phoenix Biomedical Campus (PBC) is a 28-acre urban medical and bioscience campus planned for more than six million square feet of biomedical-related research, academic, and clinical facilities. Students have access to the facilities through PBC Access Cards and cards must be displayed at all times when on campus. The MEZCOPH offices are located on the 3rd floor of Building 1 at 550 E Van Buren Street, Phoenix, AZ 85004. Students are also welcomed and encouraged to utilize the facilities in the Health Sciences Education Building (HSEB), and the AHSL Library located on the 3rd and 4th floors of the HSEB building. Student access is limited to when Security is on site.

Building 1, 2, and 3 (The Historics): Daily 7:00 a.m. – 7:00 p.m.

HSEB: Weekdays 5:30 a.m. – Midnight / Weekends 7:00 a.m. – 10:00 p.m. / No Holidays

Security is present on campus and the roving security officer can be reached at 602-827-2368.

Computers
The MEZCOPH Floor in Phoenix has two computers available for student activities. Computers may be used on site and can be checked out with the MEZCOPH administrative assistant in Building 1, 3rd Floor NE corner. Black and white printing is also available in the COPH Suite but students must provide their own paper. Students may also use the computers available in the AHSL Library located in HSEB. The systems revert to their initial state after a reboot, so a thumb drive is required to save any work. Printing is available in the HSEB Library for 10 cents per black and white page.

Phoenix Student Space
MEZCOPH students at the Phoenix Biomedical Campus are encouraged to use the central area on the third floor of Building 1 as a meeting space, along with the student spaces in HSEB. Students may also use the lunchroom located on the 3rd floor of Building 1. This area is equipped with a sink, microwave, and refrigerator. It is expected that students keep the lunch area orderly and clean, and food that is no longer fresh is disposed of in a timely manner.

Wireless Internet Access in Phoenix
Wireless access is available throughout and around the Phoenix Biomedical Campus via connection to the UAWiFi and UAPublic networks. See the How to get help with UAWiFi section on page 6 for assistance with connecting to UAWiFi.
Eats and Treats
There are many local spots near the Phoenix Biomedical Campus that our students, faculty, and staff like to frequent. Coffee shops are numerous, as are local and chain restaurants. For a list of places to eat and things to do in the Downtown Phoenix Area, visit the following websites: Visit Phoenix and Downtown Phoenix.

COMMUNICATING WITH STUDENTS
The Office of Student Services and Alumni Affairs communicates with students primarily through email, student listservs and the College’s student intranet, the MEZCOPH Student Hub. The College hosts Facebook groups for prospective and current graduate students, as well as LinkedIn, Instagram and Facebook groups for Alumni; however, these groups are not used to communicate official business.

Email Accounts
The University of Arizona requires that all students open email accounts through the University of Arizona. Students are required to use these accounts for all University-related correspondence. In turn, official University and College messages are communicated to students via this account. It is imperative, therefore, that all students keep the Office of Student Services and Alumni Affairs notified of any address changes. Failure to read the UA email account is not an acceptable excuse for not knowing important information. While forwarding one email account to another may be advantageous, there may be some risk of loss of information and we do not encourage this.

Listservs
Current information about new policies and procedures, program and college events, and course information is announced via the academic program listservs, Job and internship openings are announced via separate listservs that students must request subscription to and these openings are posted to the Hub. Each academic program or concentration within the College maintains a student listserv, as well, for communicating program or concentration business from its faculty and staff.

General announcements for all students related to academic business, e.g., speakers of interest, conferences, seminars, new courses, etc., should be sent to the Assistant Dean for Student and Alumni Affairs for distribution. Graduate Coordinators also make every effort to reduce e-mail redundancy by compiling and sending out digest e-mails over the listservs.

MEZCOPH undergraduate and graduate students have a listserv, PHAlliance, on which they may communicate information regarding student groups, events, community service activities, public health news, furniture for sale, etc. Listserv users must follow the College’s Social Media Guidelines found below and on the Hub. Use the address phalliance@list.arizona.edu to send a message to all MEZCOPH students.
College of Public Health Social Media Guidelines
The College of Public Health strives to support a vibrant, respectful conversation and expects that all users of the College’s social media platforms treat each other with respect and abide by the rules and responsibilities of each social media platform. **MEZCOPH reserves the right to block or unsubscribe abusive users, and remove comments that:**

- Are hateful, threatening, malicious or discriminatory.
- Are libelous.
- Harass, bully, or intimidate any user.
- Engage in commercial activities not approved by the appropriate authority.
- Contain profanity, nudity, or graphic or gratuitous violence.
- Condone or encourage illegal activity.
- May be considered spam or are irrelevant to the primary contents of the page.
- Are repetitive (multiple identical or substantially similar posts by the same user).
- Cannot be translated into English using free online translation software.
- Could compromise the safety of a member of the public or the individual who created the comment, post or discussion.
- Reveal information in conflict with the Family Educational Rights and Privacy Act (FERPA), the Health Insurance Portability and Accountability Act (HIPAA), or any other applicable laws or regulations.

Student Intranet (Hub)
A student intranet, the Student Hub, on the College’s website, has been developed to assist students in locating information that is relevant to their role in the college. It is important, therefore, to check this site frequently for information regarding events, college developments, and student news. In addition to creating an electronic student community and presenting diverse information, such as student calendars, forms, deadlines, policies and processes, the MEZCOPH Student Hub serves as the access point to a number of required electronic surveys. Currently, these include the Student Annual Progress Report, and the Graduating Student Exit Survey. MPH students must submit their internship abstracts and final reports through the Student Hub. A UA NetID and password are required to access this site.

Website
The MEZCOPH website, [http://publichealth.arizona.edu/](http://publichealth.arizona.edu/), is used as the College’s primary point of information dissemination to the public, potential applicants, and students. Research interests of faculty members, a college directory, and news items are posted on this site. Curriculum requirements, academic and student policies, internship postings, and fellowship announcements are posted on the MEZCOPH Student Hub.
STUDENT SERVICES, RESOURCES & OPPORTUNITIES

Office of Student Services and Alumni Affairs
The MEZCOPH Office of Student Services and Alumni Affairs (frequently referred to as OSSAA) serves as the central point of coordination for student activities/events and provision of services to undergraduate and graduate students in all academic programs of the College. Each OSSAA student services professional has significant experience advising students, participates in numerous university wide taskforces and committees, and meets with MEZCOPH students on a daily basis to help them resolve issues related to their academic careers. These issues include, but are not limited to: admissions questions; course registration; meeting academic paperwork deadlines; college financial aid, scholarships, and fellowship application processes; internship processes; career advising questions; travel requests; and graduation requirements.

Career Advising
An integrated approach to career advising continues to provide appropriate career exploration services and support related to finding a public health career position. These services utilize the expertise of the University of Arizona Student Engagement and Career Development Office, the Graduate Center, professionals within the MEZCOPH Office of Student Services and Alumni Affairs, and public health faculty and practitioners. The University of Arizona Student Engagement and Career Development Office offers a broad range of programs designed to assist students and alumni in developing and implementing career plans, gaining career-related experience while enrolled in school, and pursuing post graduate career goals, whether that means permanent employment or alternate plans. University career resources include large career fairs, employer info sessions, resume workshops and an online job board and interviewing system, called Handshake. The College hosts alumni panels, provides resume/cover letter workshops tailored for public health students, hosts a public health jobs listserv on which alums and college partners advertise positions and through which timely career guidance is provided.

The Office of Student Services and Alumni Affairs consistently shares information regarding public health internships, fellowships, career opportunities through its listservs. College of Public Health students may request to join the internship or jobs listserv by contacting the administrative assistant in the Office of Student Services and Alumni Affairs. The Assistant Dean of Student and Alumni Affairs, the Doctoral/MS Coordinator, and the Phoenix Coordinator provide individual career guidance and résumé review.

Student Problem Resolution
When students encounter problems, it is imperative that resources and solutions are identified to resolve these issues. A table of Common Issues MEZCOPH Students Encounter and Who They Should Contact can be found on the Student Hub.

The Assistant Dean for Student and Alumni Affairs is the designated administrator whose role it is to hear student concerns and determine how these issues should be addressed. Student services professionals within OSSAA often are the first to hear student concerns. These
concerns are discussed with the Assistant Dean, who triages the response to responsible administrators or to the full Dean’s Council.

Students who are experiencing difficulties of a sensitive or confidential nature are encouraged to make an appointment with the Assistant Dean who can provide assistance and guidance or will work with the student to find additional resources to solve the problem. The student and Assistant Dean will work together to find a mutually acceptable “next steps” plan of action. Students may also speak with the Graduate College. Please review the Graduate College’s Summary of Grievances webpage for more information.

**Disability Resource Center**

The UA Disability Resource Center (DRC) is the campus department designated by the University to determine and provide access to University classes, programs and activities for disabled individuals. Through an interactive process, the DRC will facilitate access either through a reasonable accommodation or by redesigning aspects of a University experience. The DRC’s processes are designed to be convenient for students.

When the design of the academic and campus experiences present barriers, accommodations may be necessary. At the DRC, students will find information on accommodations and other important campus resources to increase access on campus and enhance the overall UA experience. Disabilities appear in many forms (visible or invisible) and each pre-qualified student can discuss accommodations with an assigned Disability Access Coordinator.

Accommodations are available to any pre-qualified student (undergraduate or graduate including masters and doctorate). Accommodations may involve flexibility with test taking times, test locations, note taking, or course substitutions. For more information, contact the DRC or visit their website.

**Helpful Student Resources**

In addition to the information presented in the New Student Guide, the College has developed a list of helpful student resources to assist students in navigating their life and time here at the University. The Helpful Student Resources are found on the Student Hub on the Graduate Students tab under the heading Additional Resources.

In addition, the College’s Diversity and Inclusion page has an extensive list of College and University resources for students.

The Graduate College’s New and Current Students webpage also has a number of resources for graduate students across campus including specific links to Graduate College policies and procedures, professional development, child care subsidies, staying safe on campus, and more! They also have a comprehensive Frequently Asked Questions page for all new and continuing graduate students.
Student Input into MEZCOPH Operations
The administration of MEZCOPH is keenly interested in understanding the student perspective of the College and its operations. To that end, numerous avenues for students to provide input and share concerns have been developed. First and foremost, student members are sought for all MEZCOPH committees, with the exception of the Promotion & Tenure Committee and the admissions committees. In addition to the university-administered Student Course Surveys, formerly called the Teacher and Course Evaluations, where students are encouraged to fully assess all aspects of a course, the College or individual faculty often administer a mid-semester online course evaluation to determine if there are ongoing course issues. All graduating students are required to complete a comprehensive Exit Survey.

Ongoing student dialogues with faculty and staff provide a venue for proactive resolution of problems. When there are issues within a particular course, students should first speak with the instructor about their concerns. Course concerns involving multiple students that are not resolved through meeting with the instructor may be addressed at the Student Affairs Committee Meeting where a plan of action for resolution of the issues can be developed.

Student Suggestion Box
MEZCOPH students have great ideas, and we want to hear them! A physical Student Suggestion Box and an Online Student Suggestion Box are available to provide students with an opportunity to share feedback and suggestions. We appreciate the feedback and we take suggestions seriously. A main objective of the Student Suggestion Boxes is to get the suggestion/feedback in front of the appropriate College colleague, office, or committee for consideration. Please remember, however, that not all suggestions and great ideas are implementable. Sometimes a follow-up dialogue about the suggestion brings greater clarity and understanding to the issue for all concerned parties.

The Physical Student Suggestion Box is located on the first floor of Drachman Hall next to the water fountain. This box is checked by the Office of Student Services every week. Students can submit anonymous suggestions to the physical box but must include their contact information if they would like someone to follow-up with them.

Student Participation on MEZCOPH Committees
Membership on MEZCOPH committees provides students opportunities to participate in much of the college’s decision making and governance processes. Students are encouraged to consider committee membership as a means of familiarizing themselves with college operations, faculty, and staff, and as a way to build their own leadership and collaborative skills. Students are invited to complete a Committee Membership Interest Form, on it indicating the committee(s) that they may wish to join. All attempts are made to accommodate as many committee membership requests from interested students as are received.
Student Affairs Committee
The charge of the Student Affairs Committee is to act as a clearinghouse for issues related to students; plan, facilitate, and support student seminars, workshops, etc.; function as lobbying agent/advocate for resolution of student problems; and communicate concerns to college administration. This is an important committee as it supports the role of shared governance in college operations. The Student Affairs Committee meets twice each semester. While student representatives from each program are elected and help lead the committee, all students are welcome to attend and participate in the Student Affairs Committee.

STUDENT AMBASSADORS
To aid MEZCOPH with outreach and recruitment of a diverse student body as well as assist with alumni activities, the Office of Student Services and Alumni Affairs coordinates undergraduate and graduate Ambassador Programs. With a competitive application process, ambassadors proudly represent the College’s student perspective to prospective students and their families, the University of Arizona, the Tucson community, and other groups as called upon. College Ambassadors assist with undergraduate and graduate recruitment, participating in the following activities:

• Communication with prospective and admitted students
• Volunteer for UAHS-sponsored middle school and high school events
• Outreach to campus clubs and organizations
• Manage the College’s Instagram account
• Staff tabling events on campus, as well as at the American Public Health Association, Arizona Public Health Association, and Graduate School Fairs
• Student panels for visit days
• Lots of other fun outreach/recruitment activities
• Planning and facilitating alumni activities

STUDENT ORGANIZATIONS
Public Health Student Alliance (PHSA) – Tucson
The Public Health Student Alliance (PHSA) is the primary student organization of the college. All MEZCOPH students are members of PHSA. Established in 1997 by a group of committed MPH students, the initial charge of the group was to advocate for public health issues and to promote networking of students who work or wish to work in the field of public health. Since that time, the organization has matured and has expanded its scope of interest and activities to include participation in civic health promotion events, social events, intramural sports, and service projects. In addition to fundraisers, students have organized technical assistance workshops, advocacy trainings, and a student-to-student mentorship program. PHSA is open to all University of Arizona students who are interested in public health.
Public Health Student Alliance (PHSA) – Phoenix
The Phoenix Public Health Student Alliance (PPHSA) is one of the student organizations designed to involve the Phoenix-based University of Arizona students in the surrounding community. The organization was founded in 2011 in order to keep all students involved in the public health field who otherwise would not be able to partake in Tucson-based activities. All members in the MPH programs that are Phoenix-based are members of PHSA-Phx, and other MPH students have the option of joining as well. The primary mission of the group is to promote student outreach in Maricopa County. PHSA-Phx has built bonds with the community to promote not only the Phoenix-based University of Arizona programs, but also to establish connections with community members that will ultimately positively impact their health in all aspects.

American Indian and Indigenous Health Alliance (AIHA)
The American Indian and Indigenous Health Alliance (AIHA) is an undergraduate and graduate student organization established in 2012 by a group of MPH and DrPH students. The organization’s goals are to enrich and foster the educational and professional experience of Indigenous students at the University by offering diverse avenues of support that are responsive, adaptive, and efficient to meet the needs of Indigenous students. The organization also hopes to increase the representation of Indigenous students in public health disciplines.

Environmental and Occupational Health/Industrial Hygiene Club
The EOH/IH club at the University of Arizona is a student run organization that aims to enhance student knowledge and involvement. Members share a common interest in the promotion of environmental and occupational health, safety, and industrial hygiene through the reduction of biological, chemical, and physical hazards. Activities include professional networking, community engagement, and educational events that work in conjunction with current course objectives within the master’s program. Educational and networking opportunities for members of the industrial hygiene and environmental and occupational health communities are provided through seminars, training opportunities, local tours, and roundtable discussions developed by the student group. This club also encompasses the student sections of the nationally recognized AIHA and American Society of Safety Engineers (ASSE) organizations.

Graduate and Professional Student Council (GPSC)
The Graduate and Professional Student Council (GPSC) was founded in 1991. In its early years, the GPSC was a branch of the Associated Students of the University of Arizona (ASUA). Now the GPSC is independent from the ASUA and has its own officers, directors, representatives, and budget. The GPSC has played major roles in improving graduate student life by pushing for programs such as health insurance, child care, TA and RA benefits, travel grants, and national advocacy (the latter primarily via the NAGPS). To find out more about the scope of GPSC activities, visit the GPSC website. Each College elects representatives to serve on GPSC.
LUCHA
Learning, Understanding, and Cultivating Health Advocacy (L.U.C.H.A.) is a group collective in the UA Mel and Enid Zuckerman College of Public Health, which promotes health advocacy through policy education, service, and campus engagement amongst Arizona-local community and institutional settings. L.U.C.H.A. is composed of faculty, staff, community members, students, and alumni who are interested in supporting the L.U.C.H.A. mission.

Global Health Alliance (GHA)
As a student driven organization, the Global Health Alliance (GHA) aims to enhance students’ knowledge of how public health functions in a global context. GHA engages in the following activities: providing opportunities for students and faculty to connect to international organizations and community service projects; facilitating discussion of global health and promoting internships that increase student experience in global health and multicultural interaction.

University of Arizona Student Organizations
The University of Arizona has over 600 student clubs and organizations, which play a key role in student life on campus. There are numerous undergraduate, graduate, and professional organizations fulfilling all aspects of student interests. For more information and contact information, follow our list of student clubs! The Associate Students of the University of Arizona (ASUA) website provides information about these student clubs.

STUDENT MANAGED EVENTS
MEZCOPH Poster Forum
The graduate programs of MEZCOPH host an annual research poster forum led by students. This event provides an opportunity for students conducting public health research and community-based work to network with other public health professionals from industry and regional and state governments. The goal is to promote future collaborations such as employment and research partnerships. The student planning group invites keynote speakers, develops promotional literature, maintains a website that provides guidance for poster creation and participant registration, and produces a forum program which includes abstracts. Students throughout the university are encourage to present public health related posters. Posters are judged, and a cash prize is awarded to the best student posters.

MPH Internship Conference
All MPH students must present on their internship experience as part of their degree requirements. This conference consists of a virtual presentation hosted on the College of Public Health website to which public health professionals, university administrators, students and the public are invited to view and provide feedback to student presenters. Student involvement in the planning and implementation of the conference is encouraged. Details on how to be involved will be sent via e-mail by the MPH Coordinators early each semester.
Social Justice Symposium
Students of the Mel and Enid Zuckerman College of Public Health plan and host an Annual Social Justice Symposium in the spring semester. Initiated in 2007 by students in the Center for Health Equity/Project EXPORT Fellows program within the Mel and Enid Zuckerman College of Public Health, objectives of the one-day conference were and continue to be to showcase strategies and encourage activism to effect change in the realm of social justice and public health. Bringing together students, faculty, community activists and health professionals, the Social Justice Symposium aims to expand participants’ awareness and abilities to critically analyze how social injustices affect health outcomes worldwide with the goal of inspiring action at a personal level. Since 2007, the planning committee has included both undergraduate and graduate students from diverse corners of public health study. Beginning with the initial Social Justice Symposium, student planners and attendees have realized a need for a multi-faceted approach to the alleviation of disparities and their underlying issues.

THE UNIVERSITY OF ARIZONA OFFICE OF SCHOLARSHIPS & FINANCIAL AID
To be eligible for any federal loans or scholarship awards, domestic students must file a FAFSA. To qualify for scholarship awards, International Students must complete a Financial Aid Calculation for International Students.

Federal Financial Aid
Federal financial aid (i.e., loans and grants for MEZCOPH students) is awarded through the University of Arizona’s Office of Scholarships and Financial Aid (OFSA). Application requests for financial aid should be made in the semester prior to the anticipated funding needs. Further information can be found on the OFSA website. The Office of Scholarships and Financial Aid can be reached by telephone at (520) 621-1858, or by email at AskAid@email.arizona.edu.

Qualified Tuition Reduction Benefit
Benefits eligible employees of the three state universities, their spouses and dependent children may be eligible for drastically reduced tuition rates. The qualifying employee must be employed on the first day of the semester or term for which the benefit is to be used and must apply through the employee’s hiring department to access this benefit. Detailed information can be found on the Human Resources website.

STUDENT FUNDING MANAGED BY MEZCOPH
The Assistant Dean of Student and Alumni Affairs manages the award process for the MEZCOPH scholarships and avenues of financial assistance listed below. A full listing of the College’s scholarships, complete with criteria, application deadlines and forms can be found on the MEZCOPH Website. The College’s Scholarship Committee meets annually and on an ad hoc basis to select scholarship awardees. Students apply in the spring semester for financial assistance for the following academic year via the College of Public Health Named Scholarship.
Application on Scholarship Universe and via the Teaching Assistant Application found on the Hub. The process and timing will be announced by the Assistant Dean in the spring semester.

**Graduate College Dissertation/Thesis Tuition Scholarship**
A limited number of awards that reduce nonresident tuition to Arizona resident tuition for 1 to 6 units are available. The award excludes the mandatory registration fees and differential tuition charges. This tuition scholarship is designed to reduce the tuition for nonresident students who are within 2 years of completing their degree and are only working on their thesis or dissertation research and writing. Students are eligible to apply if they are nonresident graduate (master or doctoral) degree-seeking students who are enrolled for one to six credits of **900-level units ONLY** (no actual courses). This scholarship is not applicable to summer tuition. Students desiring more information about this scholarship should contact the Assistant Dean early in the semester prior to the one in which they will be requesting this scholarship.

**Graduate College Fellowship Funding**
The University of Arizona Graduate College allots MEZCOPH a limited amount of Graduate College Fellowship funding each academic year. Graduate Fellowships are cash awards that can be applied to tuition, health insurance or any other academic expense, the balance of which is paid directly to the student. MEZCOPH awards Graduate Fellowships to its students based on both financial need and academic merit. Awardees must establish and maintain at least a 3.0 cumulative GPA, be enrolled in six graduate units per semester, and have a current FAFSA on file to be eligible to receive and retain their award.

Additional merit-based scholarships administered through the Graduate College are found on the Graduate College website.

**MEZCOPH SCHOLARSHIPS**
The following monetary awards have been established to assist MEZCOPH students in face-to-face programs in funding their required coursework or research/internship experiences in specific areas of interest. Many of the MEZCOPH Named Scholarships can be applied for through Scholarship Universe, which is the University’s scholarship management system for students and departments. During the spring semester, applications for scholarships for the following academic year will be available. Each student will need to create a profile on Scholarship Universe and will be matched to scholarships for which they are eligible.

**Cliff and Penny Crutchfield Scholarship**
This $8,000 scholarship is for incoming doctorate bound students in the area of Occupational and Environmental Health. Students must demonstrate merit and/or financial need, and a commitment to public health, public service, and leadership.
College of Public Health Community Advisory Board Scholarship
The role of the Community Advisory Board is to support the mission of the College by increasing awareness of health promotion and prevention strategies through community collaboration, fund raising and advocacy activities. This scholarship was established in order to support the boards mission and is intended to recognize meritorious full-time students with a 3.25 or higher grade point average, are making sufficient progress toward completion of their degree, and show the greatest potential to contribute to the overall discipline of public health. Funding amount vary.

Elbridge and Genevieve Morrill Memorial Scholarship
Mr. and Mrs. Elbridge Morrill established this scholarship to support academic related expenses of students in the Environmental and Occupational Health (EOH) Concentration of the MPH or BS Programs. EOH students who are US citizens and have graduated from Arizona high schools are eligible to receive this award. Morrill Scholarship award amounts vary.

Dr. Erlinda Tejada-Rodriquez/ The Victoria Foundation Scholarship
This is a merit-based scholarship for a full-time student with a 3.0 or higher grade point average who demonstrates a commitment to service and leadership experiences within Native American populations in Arizona. Annually, two awards at $2,500 are made.

General Scholarship Fund
MEZCOPH has a limited, but growing, General Scholarship Fund. Students are welcome to apply for funding through the Office of Student Services and Alumni Affairs during the spring semester for the following academic year. Scholarship funds are awarded based on a variety of criteria, including financial need and academic achievement. Students apply for General Scholarship Funding via the College of Public Health Named Scholarship Application on Scholarship Universe.

Helen and Raymond Sarocco Scholarship
The Helen and Raymond Sarocco Scholarship supports MPH students with financial need who have achieved academic excellence. One to two scholarship awards of varying amounts are made each year.

Joel S. Meister Scholarship
Dr. Joel S. Meister, a founding faculty member of the Mel and Enid Zuckerman College of Public Health, was internationally known for his work with community health workers or promotores de salud and the development of comprehensive disease prevention interventions focusing on community mobilization for policy change. A scholarship honoring Dr. Meister’s memory was established for MPH students. This award, which varies in amount, will be made to an incoming MPH student who demonstrates merit, significant financial need, and a commitment to public health, public service and leadership.
Joel Valdez Scholarship/ Zuckerman Family Foundation Student Scholarship
Mr. Barry and Mrs. Janet Lang established this $15,000 scholarship award to support meritorious full-time graduate students.

Maureen Mangotich Scholarship
The family of Maureen Mangotich, MD, MPH, has provided a scholarship for full time public health students. Mangotich awards in the amount of $5,000 are made each year.

Dr. Robert Garcia/ The Victoria Foundation Scholarship
This scholarship recognizes meritorious Phoenix Program students who have earned a 3.0 GPA or higher and who have a commitment to complete 20 hours of community service. Three scholarships of $2,000 are awarded annually.

Russell H. Swanson Public Health Scholarship
Dr. G. Marie Swanson, Founding Dean of MEZOCPH, provides two $2,500 scholarships in memory of her late husband, Dr. Russell Swanson. This scholarship is awarded to meritorious incoming MPH students who intend to pursue careers as public health practitioners.

SueBob Scholars Endowment
This scholarship is awarded to full-time undergraduate students in their junior or senior year or graduate students in the College of Public Health. Preference is given to students who demonstrate a commitment to research and public service, are first generation college students, military students, and/or have previously obtained a bachelor’s in nursing. Several awards of $2,500 are given annually.

Zuckerman Family Foundation Rotating Scholarships
This scholarship is intended to recognize meritorious full-time students with a 3.00 or higher grade point average who show commitment to public health, public service and leadership within Native American, Hispanic, and African American Communities on a rotating basis. Annually, eight awards at $6,250 are made.

Zuckerman Family Foundation Scholarship Endowment
This scholarship is awarded to students pursuing degree in the College of Public Health who demonstrated merit and/or financial need and demonstrate a commitment to public health, public service, and leadership. Funding amount vary.

MEZCOPH INTERNSHIP AWARDS
Carlos “Kent” and Elizabeth “Liz” Campbell International Internship Endowment
Dr. Carlos C. (Kent) Campbell, former Interim Dean of the College of Public Health and his wife, Liz, have provided an endowment that supports international (preference is Africa) internship of a full-time MPH student who has demonstrated a commitment to public health and global health.
Drachman Prevention Fellowship
The Drachman Prevention Fund was established to honor Mr. Roy P. Drachman, the founding Chairman of the College of Public Health Advisory Board and for whom the College of Public Health building is named. Mr. Drachman was involved in all aspects of community life and community building, and had a particular passion for healthy children and schools. The Drachman Fund provides fellowships to support students of public health who will further this work. A competitive award of $2,000 is made up to three times a year to MEZCOPH interns and student researchers who best outline an internship or research experience designed to promote healthy behaviors, sound nutrition, and physical activity in children and/or to mentor at-risk children and youth.

Nichols Initiative Scholars Fund Awards
The Andrew W. Nichols Initiative provides funding to support internships, research experiences, and preceptorships for MPH students currently enrolled in MEZCOPH. Andrew Nichols, MD, MPH, sponsored and inspired significant positive changes to health care programs and public health policy. As a physician working in public health and as a teacher and as a member of the Arizona Legislature, Dr. Nichols spent his entire career instigating the development of programs to benefit populations living in rural and border areas of the Southwest. This fund helps support students of public health and medicine who will further this work. Awards of varying amounts are made to MEZCOPH interns, student researchers, or student preceptors whose proposals best outline an internship, research, or preceptorship experience designed to promote policy, advocacy, or innovative service delivery in rural or border health.

MEZCOPH RESEARCH AWARDS
Graduate students in the MS/PhD Epidemiology and Environmental Health Sciences, PhD Biostatistics, PhD Health Behavior Health Promotion, and DrPH Programs are also eligible for available research funds. No more than one MEZCOPH research award can be awarded to the same student in a given academic year. These awards are designed to assist graduate students in the completion of their thesis or doctoral research and to provide them funds to purchase supplies, equipment, or laboratory tests that are not funded by other resources. Announcement of these award opportunities will be distributed to graduate students via student listservs.

MEZCOPH TRAVEL AWARDS/POSTER PRINTING
Limited funding for student travel to scientific and public health meetings, conference registration, and for poster printing is available. Priority is given to applications of students who 1) are presenting their work (e.g., posters, abstracts) at a meeting, 2) have completed a significant portion of core curriculum, and 3) have not received previous travel funding. Travel awards will not exceed $500 and poster printing awards will not exceed $100. The Application for Student Travel/Conference Funds is found on the MEZCOPH Student Hub. Applications are
accepted by the Office of Student Services year-round and are reviewed on a rolling basis. Students also are encouraged to apply for travel funding through the Graduate and Professional Student Council (GPSC).

MEZCOPH GRADUATE, RESEARCH, & TEACHING ASSISTANTSHIPS

Graduate Research Assistantships
Research assistantships are often available through the research grants of MEZCOPH faculty members or from other departments on the University campus. When the Office of Student Services and Alumni Affairs is notified of research assistantship opportunities, information about those positions will be shared with students via student listservs. However, these opportunities are best sought by speaking with individual faculty members who are conducting research. In general, these positions are awarded based on a competitive application that exhibits excellence in academic and/or professional endeavors and a strong indication that the candidate has the talents or abilities that the assistantship requires. In addition to a salary, these assistantships typically provide the recipient with a waiver of out-of-state tuition, partial remission of in-state tuition, student health insurance, and a 10% discount at the UA bookstores. Students are responsible for university fees and College of Public Health program fees.

Graduate Teaching Assistantships
Based on class size and format, a limited number of MEZCOPH courses utilize teaching assistants (TAs). TAs serve in mentoring, instruction, and administrative roles working with course instructor(s) in the classroom. TA job duties may include taking attendance, grading homework, quizzes, and papers, preparing course materials, developing and holding study sessions, scheduling guest speakers, monitoring academic integrity, holding office hours and lecturing.

In addition to a salary, these assistantships provide the recipient with a waiver of out-of-state tuition, partial remission of in-state tuition, student health insurance, and a 10% discount at the UA bookstores. Students are responsible for university fees and College of Public Health program fees.

The Assistant Dean for Student and Alumni Affairs together with department heads and program directors, manages the TA assignment process, utilizing an equitable process that considers three important factors: 1) instructor and department preferences, 2) the placement priorities established by the College, and 3) information regarding students’ employment, scholarship status, and financial need.

Graduate students will be considered for placement as teaching assistants in the following order of priority: 1) MEZCOPH doctoral students who are required, as part of the degree curriculum, to TA a course; 2) MEZCOPH doctoral students who have already met the TA requirement or do not have the requirement; 3) MEZCOPH master’s level concentration or
program students who have taken the undergraduate or graduate course offered by their program that needs a TA; 4) students who have content area expertise in the course subject matter; 5) non concentration or program students who have taken the course. All TAs are required to complete two mandatory pieces of online training, as well as participate in the in person Graduate Assistant Teaching Orientation presented by the College of Public Health before they are eligible for employment: FERPA Training and TATOInternational students who serve as TAs must take a speaking assessment test administered by the Graduate College. For detailed information, please see the Graduate College’s English Speaking Proficiency Evaluation webpage.

The course instructor serves as the TA’s supervisor, and it is the instructor's responsibility to communicate job expectations to the TA. It is also the instructor's responsibility to hold the TA accountable for meeting these expectations. At the end of the semester, the instructor is expected to evaluate the TA through a university established process.

To be considered for a teaching assistantship, students must have completed the College’s Scholarship and Teaching Assistant Application, speak with the course instructor early in the semester prior to the course offering, and notify the Assistant Dean of Student and Alumni Affairs of their interest in a particular assistantship.

Because of the limited number of assistantships and the growing number of graduate students, the demand for teaching assistantships far outweighs the positions available within the College. Efforts to equitably distribute the TA positions to qualified students require a limit to the number of times a student may serve as a teaching assistant in the College. Presently, master’s students (MPH and MS) may only hold a maximum of 3 TA positions through the College of Public Health. This policy does not apply to MEZCOPH graduate students who obtain assistantships outside of the College of Public Health. Successful completion of duties as a TA does not guarantee future assignments. Students are encouraged to seek graduate research and teaching assistantships in other departments and units at the university. The salary and benefits available to graduate assistants are comparable throughout the university campus.

In addition to the requirements of assistantships through the College, all students should familiarize themselves with the Graduate Assistant Manual. It is the student’s responsibility to read the GA Manual and abide by all policies outlined through the Graduate College.

The Graduate College also offers resources designed to help students balance family, work and school including GA Parental Leave and Temporary Alternative Duty Assignments (TADA).
STUDENT HONORS & AWARDS

Outstanding Senior Award
This College award is awarded to a graduating senior who has demonstrated outstanding achievements in 1) academic performance, 2) internship performance, 3) commitment to the College of Public Health and/or 4) community service.

Delta Omega Public Health Honorary Society
The Alpha Nu Chapter of Delta Omega, the public health honorary society for graduate students, was established at MEZCOPH in 2002. Since then, 326 members have been inducted into the chapter. Graduating graduate students who are academically in the top 25% of their graduating class are eligible for nomination by college faculty, students or they may nominate themselves.

Graduate and Professional Student Council (GPSC) Achievement Awards
Each year, during Graduate and Professional Student Appreciation Week, the GPSC recognizes graduate and professional students, staff, and faculty that have made outstanding contributions to the campus and, in particular, to graduate education. See the GPSC website for more information.

MEZCOPH Poster Forum Prize
Scholarship prizes for the best student posters presented at the Graduate Poster Forum are awarded at the conclusion of the Forum.

Outstanding MPH Student Award
The Outstanding MPH Student Award recognizes a graduating student from the MPH Program who exhibits 1) outstanding academic performance, 2) outstanding internship performance, 3) commitment to MEZCOPH, and/or 4) commitment to community service. Faculty and staff members may nominate students for this award.

Student Life Award
The College of Public Health Student Life Award was instituted by the Office of Student Services and Alumni Affairs to acknowledge and recognize a graduating student who has made significant contributions to initiating, promoting and facilitating student activities and events across the entire college. Faculty and staff may nominate students for this award.

DEGREE COMPLETION INFORMATION

MEZCOPH Exit Survey
The MEZCOPH Graduating Student Exit Survey provides a mechanism for obtaining anonymous, continuous student feedback which is used by MEZCOPH to refine and adjust its operations. The perceptions of our graduating students provide valuable feedback to MEZCOPH faculty and administration.
All students are required to complete the Exit Survey as part of their graduation requirements. Final degree paperwork will be processed after the student has responded to the survey. The link to complete the Exit Survey will be sent directly to the student via e-mail in the weeks leading up to their graduation.

Please note that the MEZCOPH Graduating Student Exit Survey is in addition to and separate from the Graduate College Exit Survey that is requested of graduating students across the University.

**Graduate Information Sheet**

As part of the degree completion process, students are required to complete a Graduate Information Sheet, which provides the College with the student’s forwarding address and future plans, if known. This information is needed by the college to maintain its accreditation by the Council on Education for Public Health and is collected using the same link as the Exit Survey.

**MEZCOPH Convocation**

**Traditional Semester (Fall and Spring) Completion**

Students who finish all degree requirements in spring may participate in the May convocation ceremony. Students who finish all degree requirements in the fall semester may participate in the December convocation.

All students must notify the Office of Student Services and Alumni Affairs of their intent to participate in the MEZCOPH ceremony by April 1 for the May convocation or November 1 for the December convocation.

**Non-Traditional Semester (Summer or Winter) Completion**

Bachelor’s students who are planning to complete their degree requirements by the summer graduation deadline may participate in the May convocation ceremony if they have no more than 6 (total) outstanding credits of upper division units remaining in the following categories of instruction: internship, track, or public health elective coursework. If any other degree requirements are outstanding, bachelor students may participate in the following semester ceremony only. Students must be enrolled in these outstanding units for summer at the time of convocation.

Master’s students and doctoral level candidates who are planning to complete their degree requirements by the summer graduation deadline may participate in the May convocation ceremony if they have no more than 6 outstanding credits at the time of convocation. Students must be enrolled in these outstanding units for summer at the time of convocation.

Additionally, doctoral candidates with outstanding graduation requirements must secure their Chair’s approval to participate in Convocation and present documentation of approval to OSSAA by April 1 for the May ceremony or November 1 for December.
All students must notify the Office of Student Services and Alumni Affairs of their intent to participate in the MEZCOPH ceremony by April 1 for the May convocation or November 1 for the December convocation. Prior to these dates via the college listservs, the Office of Student Services and Alumni Affairs communicates with students outlining specific convocation information and the procedure for submitting their RSVP. It is the responsibility of the student to read these emails and follow any directions provided.

**University of Arizona Commencement**

The UA university-wide commencement ceremony happens only once each year in May. December graduates are welcome to attend the Commencement ceremony either before or after their graduation date. Note, however, that a student’s name will only appear in the commencement program after the student’s degree has conferred.

Per university rules ([https://commencement.arizona.edu](https://commencement.arizona.edu)), August graduates, on the other hand, are welcome to participate only in the preceding May commencement and will have their names listed in that commencement program.

To view the university-wide commencement ceremony schedule, please see the University of Arizona academic calendar page: [http://catalog.arizona.edu/acadcals.html](http://catalog.arizona.edu/acadcals.html)

**UNIVERSITY OF ARIZONA POLICIES**

**Academic Policies**

MEZCOPH students are expected to adhere to all registration, enrollment, grading and academic policies outlined in the [University of Arizona General Catalog](http://catalog.arizona.edu/) and [Graduate College Website](http://catalog.arizona.edu/).

**Residency Classification**

Residency classification standards and procedures at The University of Arizona are based on the Arizona Board of Regents Policy on Tuition Classification. Each student must be classified as a resident student or a non-resident student for tuition purposes. It is the responsibility of each student to provide the information necessary to obtain a correct residency classification and raise the issue of a disputed classification in a timely manner. For more information, please see the [UA Residency Classification Office website](http://catalog.arizona.edu/).

**UA Smoking and Tobacco Policy:**

The University's "Smoking and Tobacco Policy" is designed to promote the health and wellness of all members of the University community, including visitors to campus, and it prohibits the use of tobacco and nicotine-containing products on property owned or controlled by the UA. This includes the main campus, the Arizona Health Sciences Center, the Phoenix Biomedical Campus, UA South, all satellite campuses, University vehicles, and any property leased by the UA. Smoking cessation aids, such as nicotine gum, patches, and nasal sprays, will be permitted,
but all other forms of tobacco or nicotine - including pipes, cigars, cigarettes and e-cigarettes, all types of smokeless tobacco, and water pipes - will be prohibited. The latest version of the policy is available [here](#).

**Weapons Policy**

Arizona Board of Regents policies 5-303 and 5-308 prohibit the use, possession, display or storage of any Weapons, Dangerous Instruments, Explosive Devices, or Fireworks, among other things, on The University of Arizona campus and on all land and in all buildings owned or under the control of The University of Arizona on behalf of the Arizona Board of Regents, except as provided in Section 12-781 of the Arizona Revised Statutes. No concealed carry permit exempts a person from these policies. These policies apply to all University of Arizona students, employees, visitors and guests.

**UNIVERSITY POLICIES GOVERNING ACADEMIC INTEGRITY, CONDUCT & NON-DISCRIMINATION**

**Academic Integrity Code**

Integrity and ethical behavior are expected of every University of Arizona student in all academic work. This academic integrity principle stands for honesty in all class work, and ethical conduct in all labs and clinical assignments. This principle is furthered by the student Code of Conduct and disciplinary procedures established by ABOR Policies 5-308 through 5-404, all provisions of which apply to all University of Arizona students.

The procedures for reviewing a suspected violation are found in the complete [Code of Academic Integrity](#), administered through the UA Dean of Students Office.

MEZCOPH students are provided with a number of online resources to assist them in understanding the concept of plagiarism and tools to build citation skills and strategies for avoiding plagiarism. University sanctions may be imposed on a student following an academic integrity infraction. In addition, MEZCOPH financial support (scholarships and assistantships) will be withdrawn and future awards prohibited.

**Student Code of Conduct**

The University of Arizona Student Code of Conduct sets forth the standards of conduct expected of students who choose to join the university community. Students who violate these standards will be subject to disciplinary sanctions in order to promote their own personal development, to protect the university community, and to maintain order and stability on campus. [The UA Student Code of Conduct](#) outlines these standards and sanctions.

**Disruptive Behavior in an Instructional Setting Policy**

The University seeks to promote a teaching and learning environment free from material and substantial classroom disruptions. Faculty members and teaching staff have the authority and responsibility to effectively manage their classroom environments. Instructors may determine the time and manner for student questions and expression of points of view in the instructional
setting. Accordingly, instructors should establish, communicate and enforce reasonable rules of classroom behavior and decorum via the syllabus and classroom discussion. This policy is not intended to discourage appropriate classroom expression, discussion or disagreement, but to promote respectful interactions. Please review the full description of the Disruptive Behavior in an Instructional Setting Policy.

Non-Discrimination and Anti-Harassment Policy
The University of Arizona is committed to creating and maintaining an environment free of discrimination. In support of this commitment, the University prohibits discrimination, including harassment and retaliation, based on a protected classification, including race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, gender identity, or genetic information. The University encourages all who believe themselves to have been the subject of discrimination to report the matter immediately as described in the link below on Reporting Complaints to University Offices. All members of the University community are responsible for participating in creating a campus environment free from all forms of prohibited discrimination and for cooperating with University officials who investigate allegations of policy violations. Please review the full description of the UA Non-Discrimination and Anti-Harassment Policy.

Threatening Behavior by Students Policy
The University seeks to promote a safe environment where students and employees may participate in the educational process without compromising their health, safety or welfare. The Arizona Board of Regents’ Student Code of Conduct, ABOR Policy 5-308, prohibits threats of physical harm to any member of the University community, including to one’s self. Threatening behavior can harm and disrupt the University, its community and its families. Please review the full description of the UA Policy on Threatening Behavior.

COLLEGE OF PUBLIC HEALTH MATRICULATION STANDARDS
The College has developed matriculation standards to identify the skills and behaviors that are expected of students admitted to the MEZCOPH academic or certificate programs. During the period of enrollment, should the student’s performance in any of the areas outlined drop below the acceptable standards, the student may be dismissed from the program to which the student has been admitted. A student’s performance compared to these standards will be assessed during annual academic progress reporting or at any time during the student’s enrollment in the College should unsatisfactory performance be reported. Please review the full description of the College of Public Health Matriculation and Progress Standards, found on the MEZCOPH Student Hub under Student Forms.
GRADUATE COLLEGE & MEZCOPH POLICIES

Academic Deficiencies Noted at Admission
A deficiency is a lack of coursework or knowledge in a basic area that may be critical to graduate and professional work. Deficiencies in a student’s past academic work may be identified by program faculty during the admissions process. The program faculty has the authority to require completion of additional coursework prior to entry into the program or at the onset of the student’s graduate study. The coursework required must be taken at the undergraduate level, can be transferred from another accredited institution, and must be graded “A”, “B”, or “C”. Students should take steps immediately to address any deficiencies noted in communications from the College of Public Health. No student with academic deficiencies may hold a Graduate College fellowship, or graduate teaching/research assistantship.

Academic Probation at the Graduate Level
Students who have a cumulative grade point average of less than 3.00 will be placed on academic probation. Graduate College policy requires students who are on probation to meet with their Faculty Mentor/Advisor, discuss the steps to be taken to remedy the circumstances that caused the probationary status, and devise a written plan of action. Per College of Public Health policy, students on Academic Probation must complete a Retention Plan. Graduate students who are on probation for two consecutive semesters will be disqualified by the Graduate College. Students can apply for readmission to a degree program as early as the semester after their disqualification if they achieve a cumulative grade point average of at least 3.0 through additional graduate coursework. A re-admission request must be supported by the head of the major department and approved by the Graduate College. There is no guarantee of re-admission. The program can request termination of graduate studies for a student on academic probation. No student on academic probation may hold a Graduate College scholarship, fellowship, or graduate teaching or research assistantship.

GradPath
GradPath is the Graduate College’s electronic degree audit process that makes tracking and monitoring student progress transparent to all involved. Students fill in and submit forms online through their UAccess Student Center. Forms have some automatic checking built in that will prevent common errors (e.g., typos in course numbers, illegible faculty names, etc.). There is also some built-in logic to notify students when there is a problem with their form, such as courses outside our time limit. Such messages include links to policy. The automated workflow engine then routes the electronic forms to the faculty and Graduate College for their approval.

It is the student’s responsibility to monitor the faculty members’ and Graduate College’s approval of all forms submitted through GradPath. Students can monitor the approvals by tracking the approval path at the bottom of any form in GradPath.
Incomplete Grades
The grade of I (for Incomplete) may be awarded with the instructor’s agreement only near the end of a term, when all but a minor portion of the coursework has been satisfactorily completed. The incomplete grade will not be awarded in place of a failing grade or when the student is expected to repeat the course; in such a case, a grade other than Incomplete must be assigned. Students must consult and reach agreement with the instructor to be granted an Incomplete grade before the end of the term and will not automatically receive an Incomplete simply because all course requirements were not met.

The course instructor will determine the conditions of the Incomplete grade and set a date for completion of all required assignments at any point within the year following the end of the course. Those conditions will be outlined on a Report of Incomplete Grade form, which serves as a contract between the student and the instructor. The Report of Incomplete Grade form will be kept on file in the Office of Student Services and Alumni Affairs until the conditions for completion have been met. When the instructor notifies the Office of Student Services and Alumni Affairs that the work has been completed, a Change of Grade form will be submitted for the course. If assignments are not completed, Incomplete grades convert to “E” (Failure) on the last day of classes of the same semester, one year after the Incomplete grade was awarded. Students will not be permitted to graduate until all Incomplete grades are cleared.

Lapse in Enrollment
Students who have an interruption in their enrollment of one semester or more in the program and have not been approved for a Leave of Absence will be required to apply for readmission upon resumption of coursework. Students should contact their Graduate Coordinator and the Director of Admissions to determine a plan for readmission. At a minimum, a Graduate College Application must be completed online, and additional application materials may be required. When a student leaves their graduate program and does not take a leave of absence, readmission is not guaranteed.

Leaves of Absence

Academic Leave of Absence
Academic Leave of Absence (i.e., leaves to take coursework at another university, for research, field work, internships, professional development, etc.) are handled on a case-by-case basis by the student’s department and the Graduate College.

Medical Leave of Absence
Graduate students in degree programs may be granted a Medical Leave of Absence by the Dean of the Graduate College. Under extraordinary circumstances, LOAs may be granted retroactively for up to one year. Students will be readmitted without reapplying to the department and the Graduate College. Only when the LOA is approved prior to the beginning of the semester for which the LOA is being sought will students be exempted from fees for that semester. Only academic services or facilities available to

2021-2022 Biostatistics Program Student Handbook
Page 34
the general public can be used during the LOA.

**Personal Leave of Absence**
Graduate students in degree programs may be granted a Leave of Absence for a maximum of one year throughout the course of their degree program by the Dean of the Graduate College. Under extraordinary circumstances, LOAs may be granted retroactively for up to one year. LOAs are granted on a case-by-case basis for compelling reasons including birth or adoption of a child, personal or family reasons, medical reasons, military duty, or financial hardship. Students will be readmitted without reapplying to the department and the Graduate College at the expiration of the LOA. Only when the LOA is approved prior to the beginning of the semester for which the LOA is being sought will students be exempted from fees for that semester. Only academic services or facilities available to the general public can be used during the LOA.

Leaves of Absence (LOAs) may affect the status of a graduate student’s financial aid. Students are responsible for determining the requirements of their funding agency and/or academic unit prior to applying for a Leave of Absence. A Leave of Absence does not pause or stop the clock on the allowed time to completion. Master’s students have 6 years to complete their degree program starting with the first course that is applied to their degree. Doctoral students have five years from the time they past the comprehensive exam to complete their degree. Some doctoral programs may have additional maximum time to completion requirements found in the program-specific information of the handbook.

Failure to obtain a Leave of Absence or remain in continuous enrollment will result in penalties, as described in the Continuous Enrollment policy requirements. The Leave of Absence form is found on the UAccess Student Center under the GradPath option, petition forms.

**Graduate College Petitions**
Students may petition the Graduate College if extenuating circumstances have prevented their compliance with any University or Graduate College policies and procedures or to request a leave of absence. The student must complete the Petition Form online through GradPath. The petition should explain all relevant facts. With some exception for leave of absence requests, petitions must be accompanied by supporting documents and a letter of support from the Faculty Mentor/Advisor and/or the Director of the Program. If medical expertise is needed, Campus Health will be consulted. Petitions related to a course issue must have the instructor’s approval as well.

**Responsible Conduct of Research Statement**
Every graduate student must complete the Graduate College’s Responsible Conduct of Research Statement. This statement verifies that the student agrees to follow responsible
conduct of research compliance regulations and academic integrity requirements and will adhere to them in their research. This statement is electronically signed on the UAccess Student Center under the GradPath option. Students must sign the statement before they are able to access their Plan of Study and other Graduate College forms.

Exceptions to Policy and Grievance Processes
There are many different types of policies that govern your time with us. When a student experiences an unusual situation, typically outside of their own control, that the student believes merits an exception to a policy, it is important that the appropriate appeals process is followed. We highly encourage students to discuss and identify the appropriate process in consultation with their Graduate Coordinator. Some examples include:

- Program Specific policies should be addressed initially with the Faculty Mentor/Advisor. If necessary, the Program Director and/or the full Program Faculty may need to be consulted.
- Exceptions to MEZCOPH-specific policies include structured process and form designed for that process that must be completed. The document allows the student to explain the reason for requesting an exception to a MEZCOPH-specific policy and requires the student’s request to be reviewed by multiple College administrative channels. Graduate students, please see your Graduate Coordinator. Undergraduates, please see your Academic Advisor.
- Grade Appeals have specific timelines and processes.
- Graduate College policies have their own petition process.
- Issues related to the Registrar’s Office or the Bursar’s Office should be directed to those offices.
- For a listing of different grievance categories, please see the Graduate College’s Summary of Grievance Types and Responsible Parties.

All appeals require a clear explanation of relevant facts and are strengthened by supporting documentation. In some cases, a letter of support from key faculty or staff may also be requested. Again, your Graduate Coordinator is available to help you identify the most appropriate process for your particular situation.

SATISFACTORY ACADEMIC PROGRESS
To be considered as maintaining Satisfactory Academic Progress, a student must:

- Maintain continuous enrollment
- Maintain a GPA of 3.0 or greater
- Meet Program Milestones in a timely manner
- Complete and receive a satisfactory faculty review of Student Annual Progress Report
- Complete required courses satisfactorily – no grades of D, E or F
Continuous Enrollment
According to Graduate College Policy, graduate students must be continuously enrolled each fall and spring semesters in a minimum number of graduate units from original matriculation until all degree requirements are met. (See table below.)

Unless excused by an official Leave of Absence (which may not exceed one year throughout the student’s degree program), all graduate students are subject to the Continuous Enrollment Policy and must pay tuition and fees in order to remain in the program. If the student fails to maintain continuous enrollment or obtain a Leave of Absence, the student will be required to apply for re-admission (including submitting application materials as determined by the program), to pay the Graduate College application fee, and pay all overdue tuition and fees. Tuition or registration waivers cannot be applied retroactively.

See the table below for the minimum number of units required.

</tbody>
</table>

*International students need to work with the International Student Office to get special endorsement for this minimum number of units.

**Doctoral or master’s students who are making good progress toward their degrees and who are not hired as Graduate Assistants/Associates or on student wages may qualify to enroll for only one credit to maintain full-time status to defer/receive educational loans (federal/private),
some institutional support (contact unit to verify), or to maintain F or J visa status. For the Office of the Registrar to determine qualification, the graduate student must complete the Application for Advanced Status each semester (for up to four semesters), be registered for the term requested and submit the form three weeks before the term to have full time status reported (the UA only reports enrollment status to the Clearinghouse beginning one week before a term begins).

Additionally, MPH students planning to complete degree requirements in the summer must be registered in a minimum of 1 unit of graduate credit in either Summer I or Summer II. If not graduating in the summer term, master’s students do not have to register for graduate units during summer sessions unless they plan to make use of faculty time. If they do plan to use faculty time, they must enroll for a minimum of 1 unit of graduate credit in the summer term(s) in which they are using faculty time. If the student is working at the internship site during the summer, the student must be registered in a minimum of 1 unit of 909 in Summer 10-wk or Summer II.

If an MPH student has completed all course requirements and is only finishing the internship or final, the student must be enrolled in at least 1 unit of 909, Master’s Report, during their final semester(s) in the program. Similarly, MS students who have completed all course requirements and are only completing the thesis requirement, must enroll in at least 1 unit of 910, Master’s Thesis, during their final semester(s).

For doctoral students, if the program degree requirements such as the comprehensive exams or final oral dissertation defense are to be completed in the summer, they do not have to register for graduate units during the summer session. However, they must contact the Doctoral Programs Coordinator so that the Graduate College can be notified that the milestones will be occurring.

Once a doctoral candidate has completed the minimum 18 dissertation units, they may consider enrolling in 1 unit of 920, Dissertation, during their final semester(s) in the program. See the table above for information on maintaining full time status.

Part-time students need to be aware that there are implications for financial assistance, loan repayment, and/or visa status. It is the responsibility of the student to verify this with the Office of Financial Aid and Scholarships before requesting/finalizing enrollment with their Graduate Coordinator.

**Deferment/Forbearance of Student Loans**

Please visit the Federal Student Aid website to educate yourself on the federal requirements to defer or forebear your student loan payments. The “Continuous Enrollment” section of this handbook defines part-time and full-time status.
Minimum GPA
In accordance with Graduate College standards, all degree program students must take at least 3 credits or more per semester and maintain a B (3.00) grade point average (GPA). Failure to maintain a 3.0 GPA for two consecutive semesters will result in dismissal from the program, as outlined by the Graduate College’s Academic Probation policy. If a student is in danger of falling below a 3.0 GPA, the student should contact the MPH or Doctoral/MS Programs Coordinator to create a plan of action.

Students can earn a C in a course and still complete the graduate Program. However, to maintain a 3.0 GPA, the student would need to earn an A in another course to balance out the C. Additionally, all courses required for your program (i.e. those on your plan of study), must be passed with a grade of C or better.

Grades of D, E or F
Only courses in which the student has earned a grade of A, B, C, S or P may be counted on the Graduate Plan of Study. A course may be repeated for inclusion on the Plan of Study or to improve the GPA; however, the original grade will be included in the GPA calculation and remain on the student’s transcript. Please be aware that students must have a cumulative GPA of 3.0 to graduate. Students who fail required coursework are at risk for dismissal from the program.

Program Steps and Milestones to Completion
A student’s progress toward meeting the Program Steps and Milestones to Degree is assessed at the time of students’ Annual Progress Report in conjunction with their Faculty Mentor/Advisor and Program Faculty. When it is determined that a student is not making timely progress, the student and Faculty Mentor/Advisor will meet to create a Retention Plan using the MEZCO Eph form, Graduate Student Retention Plan for Failing to Meet Satisfactory Academic Progress. Please see the Steps and Milestones for your degree in the second portion of this handbook below.

Continued Program Progress and Annual Progress Report
Of major importance to program faculty and to the College is the student’s successful progression toward fulfilling all degree requirements. The process of monitoring student progress is outlined below.

Students are required to complete an Annual Progress Report that describes their progress and accomplishments for the previous academic year. This report is completed early in the spring semester of each year; the Office of Student Services and Alumni Affairs notifies students of the process and deadlines related to the Annual Progress Report. In a timely manner, students are responsible for completing the report, printing a copy, and making an appointment to review the report with their Faculty Mentor/Advisor. After this meeting, the student should take the signed report to the Graduate Coordinator. The Graduate Coordinator forwards these reports to the appropriate Program Director. The student is also asked to attach a résumé and a copy of
the current Plan of Study (either draft or final version). Students who do not comply with the requirement for filing the Annual Progress Reports will be notified in writing of their failure to document satisfactory progress with a copy also sent to their Faculty Mentor/Advisor. These students are at risk for potential dismissal from the program.

The program faculty will review the reports, completion of required coursework, course grades, and timeliness of progress. When academic progress issues are identified, the program faculty, in consultation with Student Services, will provide the student with a retention plan.

A copy of the Annual Progress Report with faculty recommendations will be kept in the student’s file in the Office of Student Services and Alumni Affairs. If issues were identified, the original Annual Progress Report, with official recommendations, will be returned to the student for review with the recommendation that the student consults with the Faculty Mentor/Advisor.

**Failure to Meet Satisfactory Academic Progress – Retention Planning**

When a student has been identified as not making progress due to the following bulleted conditions, the student will be notified in writing via the student’s official UA email account using the College’s Graduate Student Retention Plan Form.

- Failing to complete and receive a satisfactory review of the student’s Annual Progress Report
- Received a grade of D, E or F in a required course
- Placement on University Academic Probation for failing to maintain a GPA of 3.0 or greater
- Failure to maintain continuous enrollment
- Failure to meet program milestones in timely fashion
- Failure to meet other Academic Guidelines

The student’s Faculty Mentor/Advisor and the appropriate Graduate Coordinator should be copied on that communication, as well. According to [Graduate College guidelines](#), students must be given an opportunity to appeal or rebut items of unsatisfactory progress. The Graduate Student Retention Plan Form will outline the means by which the student is not meeting satisfactory academic progress, provide the student with the opportunity to explain the situation, and allow the student and the Faculty Mentor/Advisor to determine an agreed upon retention plan and timeline of completion. Signatures of agreement from the student, Faculty Mentor/Advisor and Program Director are required.

Students who do not fulfill their retention plan requirements by the agreed upon timeline, may be dismissed from the program. In this eventuality, the program may send a formal request to the Associate Dean of the Graduate College requesting the student’s dismissal from the program and the Graduate career. The Graduate College then decides whether or not to dismiss the student.
REGISTRATION, ENROLLMENT, & CREDIT REQUIREMENTS

Only 500 level courses or higher will receive graduate credit, and only 500 level (or higher) courses count toward the minimum enrollment.

Registration and Payment Deadlines
Registration for UA courses can be accomplished using the UAccess Student Center. Please be aware that it is the student’s responsibility to be informed of the payment deadlines. The student must pay in advance of these deadlines to avoid late penalties. The Office of Student Services and Alumni Affairs cannot negotiate the removal of late fees. It is advisable that initially, a student should pay for the number of units that the student anticipates taking, even though the schedule may change later.

ENROLLMENT IN FIELDWORK

Many students undertake field work in support of independent study, internship, thesis or dissertation efforts. While in the field working on any class or research projects for course credit, the student must be registered for appropriate credit hours. When working in the field, students may encounter risk. University of Arizona course enrollment ensures liability coverage by the University. Students may not travel to countries for which the U.S. State Department has issued a Travel Warning to complete academic requirements.

UNIVERSITY OF ARIZONA INTERNATIONAL TRAVEL PROCEDURES

All students planning an internship or research project or completing a course outside of the United States must register their travel with the university via UA Study Abroad Independent Global Experience (IGE) application. Students traveling abroad must also register for GeoBlue Insurance coverage at $3 per day. Per UA Study Abroad policy, students are also required to provide proof of a medical appointment with a Health Travel Clinic as part of the IGE application. Campus Health Travel Clinic (https://health.arizona.edu/immunizations-travel-clinic) or Find a Clinic Near You (https://wwwnc.cdc.gov/travel/page/find-clinic/).

The IGE application can be found here:

Before planning any international travel for internships or research, always communicate with your Graduate Coordinator to ensure the correct process is being followed.

CAMPUS HEALTH SERVICE AND STUDENT HEALTH INSURANCE

University of Arizona Campus Health is committed to promoting health, wellness and safety at the University of Arizona and in the surrounding community by providing quality medical and mental health care, outstanding health education, while assisting the institution in health-
related policy development. Campus Health is fully accredited by the Accreditation Association for Ambulatory Health Care, Inc.

The University offers one major medical health insurance policy, which meets the Affordable Care Act requirements and is rated as a gold level plan. Coverage extends nationwide and has an emergency benefit worldwide. All three State of Arizona university health centers serve as primary care providers for the main subscriber and it is available to: UA Students, Graduate Assistant and Associates, Post-Doctoral Fellows, J1 Visiting Scholars and J1 Student Interns.

Campus Health Service sends out three “Open Enrollment” notices each major semester (fall & spring) through the student’s official University of Arizona email address. The Student Health Insurance is ordered, canceled, or changed through UAccess Student Center only during an “Open Enrollment” period, unless one qualifies for a prorate through a qualifying life event. When the insurance is ordered, you are ordering a specific amount of time.

ATTENTION INTERNATIONAL STUDENTS
The University of Arizona requires that all international students on non-immigrant visas, regardless of classification or number of units, carry the Student Health Insurance unless one qualifies for an exemption. Exemptions must be requested each semester. Enrollment for Post-Doctoral Fellows, J1 Visiting Scholars and J1 Student Interns are handled directly through the Campus Health Service Insurance Office.

READMISSION POLICY
Occasionally, students encounter life events that lead them to discontinue their graduate studies for a number of reasons. In the event that you discontinue your graduate program while in good academic standing and wish to return to complete your degree, you will need to comply with the College of Public Health readmission policy.

Any student who requests readmission to their graduate program must submit an internal application. The readmissions policy and application process are outlined at https://publichealth.arizona.edu/graduate-students/admissions/how-to-apply
SECTION II – PROGRAM SPECIFIC INFORMATION AND POLICIES

INTRODUCTION TO THE BIOSTATISTICS PhD & MS PROGRAMS

The Discipline of Biostatistics
Biostatistics is the application of statistical methods to research in biology, public health, and medicine. Biostatisticians collaborate with scientists and investigators in nearly every area related to health, and have made major contributions to our understanding of chronic diseases such as cardiovascular disease, cancer, and AIDS; environmental monitoring and impact; description of human growth and development; and the relationship between genetics and the environment. Biostatisticians also contribute to the design of scientific studies to ensure that the conclusions are appropriate for the scientific hypotheses.

Biostatistics differs from statistics in that it is typically more application oriented, whereas statistics is typically more focused on statistical theory. Epidemiology (another discipline of public health) relies heavily on biostatistics and biostatisticians to aid in the assessment of disease determinants and their distribution in the population. The field of Biostatistics continues to grow as a result of the increasing demand for qualified experts in biostatistical methodology and the increasing capacity of computers.

Degree Programs
Currently, MEZCOPH offers the following degrees with a focus in biostatistics: Doctorate (PhD) in Biostatistics; PhD Minor in Biostatistics (for University of Arizona doctoral students); Master of Science (MS) in Biostatistics; and the Master of Public Health (MPH) with a concentration in Biostatistics. Descriptions are in the MEZCOPH Academic Curriculum Guide.

The PhD and MS programs in Biostatistics are designed for individuals having strong quantitative skills, with background or interest in the biological, medical, or health sciences. Students typically enter the PhD program with a master's degree. The doctoral program develops competency in the theory of statistics and probability, in introductory and advanced biostatistical methods and theory, and in fundamentals of study design. The PhD program will produce graduates who can develop biostatistical methodology that can be utilized to solve problems in public health and the biomedical sciences. In addition, graduates of the PhD program will be prepared to apply biostatistical methodology for the design and analysis of public health and biomedical research investigations. Finally, graduates of the PhD program will be well suited to function as collaborators or team leaders on research projects in the biomedical and public health sciences.
The MS Biostatistics program prepares individuals to work effectively as applied Biostatisticians in a variety of public health, epidemiological and clinical research settings. The MS in Biostatistics provides training in applied biostatistical analysis and interpretation. The difference between the MS in Biostatistics and the MPH concentration in Biostatistics is that the MS provides training in probability and statistical theory with an applied focus, while the MPH provides a broader background in public health.

How to Use this Handbook for PhD and MS Students
The objective of this portion of the handbook is to provide straightforward guidance to our students about how to navigate through the Biostatistics PhD and MS programs. This section is designed to help students create a degree plan with incremental goals (e.g., coursework, comprehensive exams, and culminating experience or dissertation). All of the Graduate College and MEZCOPH policies and procedures discussed in the first part of the handbook apply as well. It is the student’s responsibility to be aware of the policies and to adhere to them. Keep in mind that operational processes and policies change, and students are subject to the requirements described in the most recent handbook. Additionally, it is intended that faculty refer to the handbook when mentoring and advising students. The handbook works to promote expectations that are shared by students and faculty.

Questions or suggestions regarding the information provided in this handbook should be directed to MEZCOPH’s Office of Student Services and Alumni Affairs at 520-626-2112.

Welcome to the Biostatistics program at MEZCOPH!
GENERAL ACADEMIC AND RESEARCH POLICIES

Student Commitment
Upon entering the graduate program in Biostatistics, students are committing themselves to the completion of an applied master’s culminating experience or research-based doctoral dissertation that contributes important, original research to the field. This will require the student to become an expert in the subject matter, which takes time. Therefore, students can expect to spend a minimum of 2-3 years working toward the PhD degree (after MS completion). MS students should expect to spend 2 years working toward their degree. This time span varies based on a number of factors, but students should not plan to graduate any sooner.

During graduate studies, students learn to work both independently and with faculty mentors. Good students tend to have the following traits:

1. Excitement for learning,
2. Self-motivation expressed as an effective written plan or timeline to degree,
3. Initiates contact, by making scheduled appointments,
4. Clarifies needs prior to visiting the mentor/comes prepared,
5. Ability to listen to advice and feedback and use these in a positive manner,
6. Respect for the mentor (they have been down this road, too!),
7. Willing to think independently and take responsibility for the learning experience, &

One of the hallmarks of a student who is ready to launch their independent research effort is the ability to effectively solve problems and perform independently. A demonstration of initiative and intellectual curiosity is expected and encouraged in graduate students. Students should attempt to find answers independently using all available resources. The faculty will recognize this academic maturity, and the student will have taken another step toward career independence.

Faculty Commitment
Faculty members are dedicated to ensuring that individuals develop from a “student” to a MS or PhD level “investigator” during the course of graduate studies. The faculty have many responsibilities including: teaching classes, guiding (and checking) research, providing collaborative statistical support, serving on local and national review committees, and performing service to MEZCOPH and the University of Arizona. Faculty will treat students with respect, and expect the same in return.

A good mentor tends to have the following traits:

1. Time to dedicate to mentoring,
2. Ability to facilitate problem solving without solving the problem for the student,
3. Experience and ability to provide opportunities for the student’s career advancement,
4. Encourages the student to identify the student’s own professional path,
5. Excellent communication skills,
6. Advertises the student’s work with full attribution,
7. Commits to plan work-load management with the student, and
8. Supports the student’s academic career.

Advising
Upon admission to the program, a Faculty Advisor is appointed for each incoming student to assist in the initial development of the study plan. We encourage students to recognize the benefit of frequent communication with the Faculty Advisor. As a graduate student, it is the student’s responsibility to initiate these meetings. If you cannot meet with this appointed Faculty Advisor, please contact the Biostatistics Program Director; the Director can work with you to identify an eligible advisor that fits your interests and career goals. If the student wishes to change Faculty Advisors, the student should follow the process outlined in the MEZCOPH Notification of Advisor/Mentor Change form, found on the MEZCOPH Student Hub, and submit it to the Doctoral/MS Programs Coordinator in the Office of Student Services and Alumni Affairs.

During the first semester in the Biostatistics program, students are encouraged to acquaint themselves with Biostatistics faculty members and their research interests. By doing this, the student will be able to select a faculty person appropriate for each stage of the student’s graduate career. As the student advances through the program, and more precisely defines a direction, the student may ask a different faculty member to serve as Committee Chair, Thesis or Dissertation Research Director.

The list of Biostatistics faculty and their research profile can be found on the MEZCOPH website. Students should visit the faculty directory at the beginning of each academic year.

The responsibilities and roles for faculty in the Biostatistics program are listed below:

**Faculty Advisor:** Serves as the student’s initial academic advisor. This person may also become the student’s Chair, Thesis or Dissertation Research Director if an appropriate relationship exists between the student’s topic and the Faculty Advisor’s area of interest. The student and Faculty Advisor plan the course work for the degree program with final approval from the Graduate Committee. A Faculty Advisor must be a primary faculty member within the Biostatistics program.

**Graduate Committee Chair:** Is a primary or joint Biostatistics faculty member who meets the Graduate College requirements. This person is usually a full or associate professor and must be tenured, tenure-equivalent, or tenure-track. This person’s responsibility is to assure that the student meets the requirements of the Biostatistics program and the University. For the PhD students, the Chair also oversees the comprehensive examination and dissertation defense. Typically, the Thesis or Dissertation Research
Director and the Graduate Committee Chair will be the same person, but this is not required, and sometimes is not allowed. For example, if the Thesis or Dissertation Research Director does not have a tenured, tenure-equivalent, or tenure-track position, then another Biostatistics faculty member must be identified to serve as the Chair of the Graduate Committee.

**Thesis or Dissertation Research Director:** Is a primary or joint faculty member within the Biostatistics program who has agreed to direct the student in the completion of the thesis/dissertation requirements. This person will work closely with the student during the research and writing of the thesis/dissertation. This person is typically, but not necessarily, the same person as the Committee Chair. For instance, the Dissertation Director may have a primary appointment in Biostatistics but not have the appropriate tenure status to serve as Chair.

**Mentor(s):** Can be any faculty member who mentors the student regarding scientific or professional development. The student is responsible for seeking out mentors and developing those relationships. This person may also be the Faculty Advisor or become a Committee Chair, Thesis or Dissertation Research Director if an appropriate relationship exists between the student’s research topic and the faculty’s areas of interest.

Additionally, the MS/Doctoral Programs Coordinator is the student’s point of contact in the Office of Student Services and Alumni Affairs. The Coordinator conveys MEZCOPH and Graduate College policies and procedures to students, receives student paperwork for processing with the College and Graduate College, and coordinates MS and doctoral program activities with the Program Directors and the Assistant Dean of Student and Alumni Affairs.

Keep in mind that completion of all degree requirements and paperwork is ultimately the responsibility of the student seeking the degree.

**Composition of Graduate Committees for Biostatistics Students**
There are several types of Graduate Committees that serve different advisory and educational functions for the students. Students select these graduate committees to maximize mentoring and practical project-related advice. In certain cases, committee membership can be changed by the student at any time until the committee function is underway. For instance, the Comprehensive Examination Committee can be changed right up until the written exam is started. Once the written exam begins, however, the same committee must be used by that student throughout the entire process of both the written and oral portions of the comprehensive exams. The only exceptions include death of a committee member or departure from the University.

**PhD Committees:** Most PhD students have at least two committees during the course of their studies:
(1) An initial advisory Graduate Committee that, with some potential changes, becomes the Comprehensive Examination Committee, and
(2) The Dissertation Committee (Note: see the hyperlinks for Graduate College policy regarding committee composition.)

During the second year in the PhD program, the student selects Graduate Committee members in consultation with the Faculty Advisor. The roles of this committee are to advise the student, help plan and approve the Plan of Study, and evaluate the student's progress during all phases of the student's training. This Graduate Committee can serve as both the Comprehensive Examination Committee and the Dissertation Committee. The Comprehensive Examination and Dissertation Committees must be approved by the Biostatistics faculty and by the Graduate College.

After consulting with the Faculty Advisor, the student is responsible for inviting faculty members to serve on the Graduate Committee. This Graduate Committee consists of at least three faculty members from the major field of study and at least one faculty member representing each of the minor fields. The number of minor faculty members is determined by the requirements of the selected minor. The Graduate Committee Chair must be a primary or joint Biostatistics program faculty who meets all Graduate College requirements. At least one of the other two committee members representing the major must be from the primary Biostatistics faculty. The third member can be from the primary or joint Biostatistics faculty or an outside member approved by the Biostatistics program faculty. Briefly:

**BIOS PhD Comprehensive Exam Committees:**
- Minimum 3 members representing the major, 1 representing the minor (Grad College requirement)
- 3 of 4 members must be TE* (Grad College requirement)
- Chair is primary or joint BIOS faculty, TE*
- 1 other major member must be primary BIOS faculty
- Third major member may be primary or joint BIOS faculty or approved by BIOS faculty

**BIOS PhD Dissertation Committees:**
- Minimum 3 members representing the major (Grad College requirement)
- Minor Advisor may or may not serve depending upon policy of minor program
- 3 members must be TE* (Grad College requirement)
- Chair is primary or joint BIOS faculty, TE*
- 1 other major member must be primary BIOS faculty
- Third major member may be primary or joint BIOS faculty or approved by BIOS faculty

(*TE = Tenured, tenure-track, tenure-equivalent, emeritus)
At least three months before sitting for the written portion of the comprehensive examination, the student must complete the MEZCOPH Declaration of Committee Membership form (found on the MEZCOPH Student HUB) with all committee members’ signatures and file the form with the Doctoral/MS Programs Coordinator. In addition, the student must notify the Graduate College of the committee membership by filing a Comprehensive Exam Committee Appointment Form (found on the UAccess Student Center under the GradPath option). (Please note that these forms are separate from the Dissertation Committee Appointment Form, which the Graduate College requires after the student has passed comprehensive exams.)

MS Committee: After selection of a topic for the culminating experience, the student selects faculty members for a Master’s Committee, in consultation with the Faculty Advisor. The Committee Chair must be a primary or joint Biostatistics program faculty member. There must be at least two other members on the committee who are either primary or joint Biostatistics faculty. If the student and Chair believe an outside member can contribute to the student’s project, the person can serve once approved by the Biostatistics program faculty and the Graduate College. Briefly:

BIOS MS Committee:
• Minimum 3 members, two must be TE (Grad College requirement)
• Chair must be primary or joint BIOS faculty
• 2 other members must be primary or joint BIOS faculty
• Additional, outside members may serve if approved by BIOS faculty and Grad College

(TE = Tenured, tenure-track, tenure-equivalent, emeritus)

Each Master’s Committee must be approved by the Biostatistics Program Director and the Graduate College. The student must complete the MEZCOPH Declaration of Committee Membership form (found on the MEZCOPH Student Hub) with all committee members’ signatures and file the form with the Doctoral/MS Programs Coordinator. The student then gets electronic approval by completing the MS Committee Appointment Form found on the UAccess Student Center under the GradPath option. Information about the Graduate College policy can be found here.

Human Subjects Protection Program Information
The Human Subjects Protection Program (HSPP) will launch a new system, eIRB, designed to make submitting human research protocols easier and faster. For more information about the implementation process, please visit RII’s New Systems Information Webpage.
THE PhD IN BIOSTATISTICS PROGRAM
The PhD in Biostatistics emphasizes the foundations of statistical reasoning and requires its graduates to complete rigorous training in applied probability, mathematical statistics and biostatistical methodology and analysis. This program prepares students who have demonstrated excellence in mathematics and the sciences to become research biostatisticians in academia, industry, or government. The PhD program in Biostatistics is designed for individuals having strong quantitative skills with background or interest in the biological, medical, or health sciences, and potential to become effective researchers in biostatistics. A competitive applicant to the PhD in Biostatistics will have a strong quantitative background; at least three semesters of college-level calculus through multivariable/vector calculus and one semester of linear algebra are required. In addition, documented experience with a computer programming language (C/C++, Fortran, Java, Python, R or equivalent) is strongly recommended. To the extent possible, the curriculum of each student will be tailored to the student’s background and interests.

For complete information about University of Arizona Graduate College policies for PhD students, please see the Graduate College website.

New Student Activities
All new students are expected to participate in the Doctoral and MS Student Orientation, scheduled in August prior to the beginning of fall coursework.

All new doctoral students must enroll in the one-unit course HPS 609, Evaluating Public Health Literature in their first semester. This one credit course is team-taught and designed to enhance the student’s critical thinking skills, especially as related to public health research.

Competencies
A set of competencies specific to the PhD Biostatistics degree have been developed which will allow students and the faculty to determine progress. It is recommended that this list be used by students to help assess training needs and progress.

Program Steps and Milestones to Degree

Typical time to completion: 3-5 years (2-3 years for coursework, 1-2 years for dissertation work) for full-time students. 5-8 years for part-time students.

Average time to completion: 6.70 years

Program Steps to Completion (Full-time student timeline):

- Attend mandatory new student orientation
- First year is devoted to course work
- Work with Faculty Advisor to develop a tentative Plan of Study
• Each Spring, complete an Annual Progress Report with Faculty Advisor
• End of first Spring, take and pass the Qualifying Exam
• Second year is devoted to course work and forming Comprehensive Exam Committee
• Formalize Plan of Study by end of second year
• Second/third year formalize Committee Chair and Comprehensive Exam Committee
• Develop a Dissertation Research Proposal and gain Committee approval
• If necessary, begin process for Human Subjects approval for dissertation
• Take and pass Comprehensive Exams (written and oral) within one year of course work completion (for students who entered in Fall 2016 and thereafter)
• Form and formalize Dissertation Committee
• Third/fourth year, research, develop and write dissertation
• Fourth/fifth year, successfully defend dissertation and finalize revisions

Progress of the Program Steps and Milestones to Degree is assessed at the time of students’ annual progress report in conjunction with their Faculty Advisor and Program Faculty. When it is determined that a student is not making timely progress, the student and Faculty Advisor will meet to create a Retention Plan using the MEZCOPH form, “Graduate Student Retention Plan for Failing to Make Satisfactory Academic Progress.”

Degree Requirements
The PhD course requirements are determined by the Biostatistics program. Please see the Academic Curriculum Guide for the year you were admitted to your current program found on the MEZCOPH Student Hub. The overall course of study will be developed by the student and the Faculty Advisor and approved by the student's Graduate Committee and Biostatistics Program Director.

Doctoral Plan of Study
In collaboration with the Faculty Advisor, each student is responsible for developing a Doctoral Plan of Study during the first year in residence. The Plan of Study should be held in the student’s file as an advising tool, until the second to the last semester of coursework, at which point it should be formalized with required electronic approvals. The Plan of Study form is completed on UAccess Student Center, under the GradPath option.

The Plan of Study identifies (1) courses the student intends to transfer from other institutions; (2) courses already completed at the University of Arizona which the student intends to apply toward the graduate degree; and (3) additional course work to be completed to fulfill degree requirements, including 18 units of dissertation. The Plan of Study must have the approval of the Faculty Advisor, the Biostatistics Program Director, and the Minor Faculty Advisor and Chair of the minor program or department. The Plan of Study is usually the basis for the initial Graduate Committee meeting. A copy of the Plan of Study, either in draft or final form depending on the progress, should also be attached to each Annual Progress Report.
Once a student has completed about 85% of the major coursework and all, or almost all, of the minor coursework as specified in the Plan of Study, completion of the dissertation research proposal and comprehensive exam begins. For students who began the program in Fall 2016 or thereafter, comprehensive exams must be successfully completed within one year of the completion of all course requirements.

Prior to scheduling their oral comprehensive examination, the student is required to have an approved Plan of Study on file with the Graduate College. As stated under the GradPath description (see “GradPath” section above), it is the student’s responsibility to monitor the faculty members’ and Graduate College’s approval of all forms submitted through GradPath. Students can monitor the approvals by tracking the approval path at the bottom of any form in GradPath.

**Transfer of Credits from a Master’s Program to the Doctoral Plan of Study**

Graduate credit earned at other approved institutions may be counted toward the requirements of the PhD degree, if accepted by the student’s Graduate Committee and approved by the Biostatistics program.

Per Graduate College policy, transfer credit must have been earned at the University of Arizona or other accredited institution and may be considered if the grade earned was A or B. Grades of transfer work will not be used in computing the student's UA grade-point average. Per the Biostatistics Program’s policy, the coursework being considered should be less than 10 years old at the time the student starts the program.

Students who enter the Biostatistics PhD program after completion of an MPH/MS/MA may use 23 units of Biostatistics related courses towards the Doctorate in Biostatistics (PhD). Thus, students with an MPH/MS/MA must complete a minimum of 22 additional units of coursework, 2 units of seminar, 9 units or more in a minor subject, and 18 dissertation units. They will be allowed to substitute more advanced courses for any required courses already completed.

The student must apply to transfer course credit during the first semester of the PhD program. The student’s first step is to make an appointment with their Faculty Advisor to have the transfer request reviewed. The student should bring a transcript highlighting the classes to be transferred and a syllabus for each class. The student and Faculty Advisor generate a proposal of transfer that will be reviewed by the student’s Graduate Committee for incorporation (or not) in the Plan of Study. This transfer of credits requires approval by the faculty teaching the course to be substituted and the Biostatistics Program Director.

Two forms must be completed in addition to the ultimate incorporation on the Plan of Study: The MEZCOPH Course Substitution form (see below for information about this form) is used to evaluate the course for content and appropriateness within the Plan of Study. For approved transfer coursework taken at an accredited institution outside of the University of Arizona, the student must also complete the Graduate College’s Transfer Credit form (found on the UAccess platform).
Student Center under the GradPath option). The purpose of the Graduate College evaluation is to verify that the requested transfer credit is graduate level and is from an approved and accredited institution. The Graduate College defers to the Biostatistics program as to whether the courses are actually suitable for substitution or elective credit.

The final decision for transfer of credits for non-University of Arizona courses, whether used as a substitution for a required course or as an elective, is made when the Plan of Study is submitted to the Graduate College.

**Course Substitutions**
If a student has already completed a course similar to a program required course, then the student can apply to have the earlier course substituted for the required course. A course substitution can only be approved by the university professor/instructor of the required course. The course professor/instructor will review documentation from the student (i.e., course syllabus) for comparability to the required course and the student’s grade. If approved for substitution, the course professor/instructor signs the Course Substitution Form that the student provides (found on the MEZCOPH Student Hub). The Faculty Advisor must concur, and sign on the appropriate line. The student then submits the form to the Doctoral/MS Programs Coordinator. The substituted course fulfills the content requirement, but the student must take another course of equivalent credit-hours toward the degree requirement, unless the course is approved for transfer credits.

**Independent Study Registration Policy**
A student who wishes to enroll in independent study (BIOS 599/699) must complete the Independent Study Registration form found on the MEZCOPH Student Hub before being registered for the units. The form serves to establish the scope and focus of the independent, provide a permanent record for the student’s academic file, and facilitate the assignment of final grades at the end of each semester. After the student has completed the form, and received approval from the faculty member serving as Instructor (person responsible for overseeing the student’s work and assigning credit) and Faculty Advisor, the student submits the signed document to the MS/Doctoral Programs Coordinator who registers the student for the units.

**Research and Dissertation Registration Policy**
A student who wishes to enroll in research units (BIOS 900) or dissertation units (BIOS 920) and have met all program requirements to do so (see “Dissertation Unit Enrollment” section below), must complete the 900-Level Course Registration form found on the MEZCOPH Student Hub before being registered for the units. The form serves to establish the scope and focus of the work to be completed that term, provide a permanent record for the student’s academic file, and facilitate the assignment of final grades at the end of each semester. After the student has completed the form, and received approval from the faculty member serving as Research Instructor or Dissertation Director (person responsible for overseeing the student’s work and
assigning credit), the student submits the signed document to the MS/Doctoral Programs Coordinator who registers the student for the units.

**Minors for the PhD Degree**

According to Graduate College policy, PhD students must choose at least one supporting minor subject, in addition to the major subject. The selection of a minor subject area is the responsibility of the student, in consultation with their Faculty Advisor and Graduate Committee Chair. At least one faculty member from the minor serves on the student’s Comprehensive Exam Committee, although this number may be increased by the graduate faculty responsible for the oversight of the minor and by the student’s Graduate Committee. Typically, a Minor Advisor also serves on the Dissertation Committee but is not strictly required. Declaration of the minor(s) will be made on the Doctoral Plan of Study.

With Faculty Advisor approval, a minor may be selected from any program of study at the University of Arizona that offers a doctoral degree, and the academic requirements for the minor are determined by the selected academic department. The student is responsible for knowing and meeting the requirements of the chosen minor area of study.

It is possible for students to customize a minor area (with committee approval) when no formal minor exists. These “focus-area minors” will be listed on the Plan of Study as a “Multidisciplinary Minor” and not with the specific focus area name. Students interested in this minor option should discuss it with the Faculty Advisor and Graduate Committee Chair before taking the courses that they hope to include. Furthermore, these focus area minors must meet the following criteria and be approved by the Biostatistics program faculty: the proposed minor is not available at the University of Arizona through an official major program, the minor must contain at least 9 credits that would not be taken by the student as part of the major, courses must be chosen from at least two disciplines, and all coursework must be outside the Biostatistics program. In addition, the student needs to identify a Minor Faculty Advisor who has expertise in the focus area. The student may also need to pass or complete a culminating experience as identified by the Minor Faculty Advisor (i.e., examination, research project, or internship).

**PhD Qualifying Exam**

All PhD students must pass a written PhD Qualifying Exam (commonly referred to as the “QE”) after their first year of study. The exam is designed to ensure that students have the necessary background to continue with more advanced doctoral level courses. The exam includes both Theory and Application sections. The exam is offered early in summer at a time announced at the beginning of the preceding spring semester.

The material covered on the exam is based on the following courses:

- Theory of Probability (STAT 564/MATH 564)
- Theory of Statistics (STAT 566/MATH 566)
- Biostatistics in Public Health (BIOS 576A)
• Biostatistics for Research (BIOS 576B)

Students must have completed each of these courses with a grade of A or B to be eligible for the exam. Additionally, students are encouraged to consult the following texts as background for the exam content:

The exam is administered in two parts over two consecutive days. The first day centers on the Theory section and is closed-book (no notes). The second day centers on the Application section; one page of notes (two-sided) is allowed.

Students who do not pass the Qualifying Exam are allowed to re-take the exam when it is offered the next year. These students are encouraged to meet with their Faculty Advisor and the Biostatistics Program Director to determine appropriate steps to improve their performance. Students who do not pass the Qualifying Exam after two attempts may not continue in the PhD program.

**Residence Requirement**
To meet the minimum Graduate College residence requirement, the student must complete a minimum of 12 units of regular grades (A, B or C) taken in residence at the University of Arizona. “In residence” is defined as taking credits offered by the University of Arizona, whether or not they are offered on campus.

**Teaching Experience**
All Biostatistics PhD students are encouraged to serve as a Graduate Teaching Assistant for at least one biostatistics course. The student arranges this experience with the Biostatistics Program Director in collaboration with the Assistant Dean for Student and Alumni Affairs. There are limited teaching assistantship opportunities within MEZCOPH. The student is encouraged to seek other opportunities to gain experience with teaching biostatistics and related fields.

Students serving as Graduate Teaching Assistants are required to participate in the University’s Graduate Assistant and Teaching Assistant Orientations (GATO and TATO) at least once, and in the MEZCOPH Teaching Assistant Orientation, held each semester.
The UA Office of Instruction and Assessment offers a ‘Certificate in College Teaching’ program that you may be interested in taking advantage of while completing the teaching assistantship assignment.

See “Graduate Teaching Assistantships” section above for additional information.

Dissertation Research Proposal
The dissertation research proposal requires the student to identify a dissertation topic, provide an initial description of the relevant background and preliminary studies, and summarize potential solutions. It is prepared by the student in consultation with the Dissertation Research Director and submitted for review and approval by the Graduate Committee. The entire document is expected to be at least 10 pages but no more than 20 double spaced pages. The proposed format is as follows:

- Statement of the problem (1 page)
- Background and preliminary studies (up to 15 pages)
- Potential solutions (up to 3 pages)

Per Graduate College policy, after the proposal is approved by the Graduate Committee, the student should send an email (copying the Dissertation Research Director) to the Doctoral/MS Programs Coordinator with an electronic copy of the proposal attached. The Doctoral/MS Programs Coordinator notifies the Graduate College that this requirement was met. The student should note that the Graduate College needs to be notified of this milestone concurrently with the student’s successful passing of the comprehensive exams.

Comprehensive Examination
The comprehensive examination consists of a written and oral portion. Students must pass the written examination before the oral examination takes place. Both written and oral comprehensive examinations must take place within two consecutive semesters. The student’s Graduate Committee requests the student to prepare for a comprehensive examination when approximately 85% of the major course requirements are met including all, or almost all, of minor course work, the student has written and filed an approved dissertation research proposal, and the student is in good academic standing. It is recommended that the comprehensive examination be taken within 3 years from the date of admission to the Biostatistics doctoral program. However, for students who started in Fall 2016 or thereafter, the exam must be successfully completed within one year of the completion of all course requirements. This milestone will be reviewed by the Student Progress Committee for evidence of academic progress. Students who do not make this deadline will meet with their Faculty Advisor to create a Retention Plan using the MEZCOPH form, “Graduate Student Retention Plan for Failing to Make Satisfactory Academic Progress.”

Written Portion of Comprehensive Examination: The written portion of the comprehensive examination must occur prior to the oral examination. The dissertation research proposal must be written and approved prior to sitting for the written comprehensive exam.
Comprehensive exam questions will be written specifically for the student and will come from Comprehensive Examination Committee members representing the Biostatistics major and the student’s minor, coordinated by the student’s Graduate Committee Chair. In addition to questions related to the dissertation research proposal and student coursework, the student may be expected to perform an appropriate statistical analysis based on a provided data set and scientific questions. The written exam will be graded (pass/fail) as a whole, with responses to all questions reviewed by all members of the Comprehensive Examination Committee. The student will be notified within two weeks of receipt of the examination responses, whether the examination is ‘pass’ or ‘fail’. The written examination can be repeated once if it is failed the first time. It is expected that the exam will be repeated within one academic year if it is failed the first time. If the reexamination is not successfully passed, the program will recommend dismissal of the student to the Graduate College.

**Oral Portion of the Comprehensive Examination:**
The oral portion of the comprehensive examination (commonly referred to as the “oral comps”) consists of a presentation and defense of the dissertation research proposal, in addition to examination of the student’s breadth of knowledge of the literature and methodology of the field of Biostatistics.

The [Graduate College](#) summarizes the goal of the examination:

> “Before admission to candidacy for the doctoral degree, the student must pass a written and an oral Doctoral Comprehensive Examination. This examination is intended to test the student's comprehensive knowledge of the major and minor subjects of study, both in breadth across the general field of study and in depth within the area of specialization... This is the occasion when faculty committee members have both the opportunity and obligation to require the student to display a broad knowledge of the chosen field of study and sufficient depth of understanding in areas of specialization. Discussion of proposed dissertation research may be included. The examining committee must attest that the student has demonstrated the professional level of knowledge expected of a junior academic colleague.”

In addition, MEZCOPH has the following ‘Recommended Best Practices for Oral Examinations’:

- No more than 30 minutes should be spent on the formal presentation by the student, with no more than 30 minutes for questions on the presentation. The remaining period should be general questions to test whether the student has “a broad knowledge of the chosen field of study.” Students should expect this later portion to last at least an hour.
- Students should be encouraged to meet with each committee member individually before the exam to determine potential topics.
- Students should be encouraged to “practice” both the presentation and answering general questions with other students.
• Presence of a senior faculty member who is not on the committee to manage the exam. Each doctoral program will have a list of faculty members who are available to serve in this role.

The student or Faculty Chair may request the Biostatistics program assign a faculty member, who is not part of the student’s Comprehensive Examination Committee, to serve as an outside representative at the oral examination. The Biostatistics Program Director will make the assignment and assure that the person is present at the examination.

The student is responsible for scheduling the oral comprehensive examination with the members of the Comprehensive Examination Committee and must inform the Biostatistics Program Director and the Associate Dean for Academic Affairs. Committee members’ schedules must accommodate the entire scheduled exam period. The student also needs to notify the Doctoral/MS Programs Coordinator. If needed, the Doctoral/MS Programs Coordinator will assist the student in scheduling a room for the examination.

The student is responsible for completing the Announcement of Doctoral Comprehensive Exam form found on the UAccess Student Center under the GradPath option. This form completion notifies the Graduate College of the date and time of the exam and should be submitted a minimum of two weeks prior to the exam date.

The Comprehensive Examination Committee Chair (aka the Graduate Committee Chair) is responsible for submitting the results of the exam to the Graduate College, via the GradPath form, Results of Comprehensive Exam.

The student may retake the oral portion of the comprehensive examination once if necessary. It is expected that the exam will be repeated within one academic year if it is failed the first time. If the reexamination is not successfully passed, the program will recommend dismissal of the student to the Graduate College.

Once the student has successfully passed their comprehensive exams and completed all course work listed on their approved plan of study, they transition from a doctoral ‘student’ designation to a doctoral ‘candidate’ designation. In light of this status change, a degree candidacy fee will be added to the student’s Bursar’s account. A copyrighting fee is optional. Check the Graduate College website prior to your anticipated completion to determine the charge amount.

**Time Limitation**
Per Graduate College policy, all requirements for the degree of Doctor of Philosophy must be completed within five years of passing the comprehensive exam. Should a student not finish within that time period, the student may be allowed to re-take the comprehensive exam with permission of the program, and then proceed to complete other requirements, e.g., the dissertation.
**Dissertation Committee Appointment**

After successful completion of all coursework and passing the written and oral portions of the comprehensive examination, the student must complete the Graduate College Dissertation Committee Appointment Form. The completion of this form indicates the candidate has identified committee members for the next stage of their graduate career. The final Dissertation Committee must be composed of at least the three faculty members representing the major. The student should check with their Minor Advisor’s program to determine whether or not the Minor Advisor is required to be included on this committee. See the “Composition of the Graduate Committees for Biostatistics Students” section above for more details.

The Dissertation Committee Appointment form is found on the [UAccess Student Center](https://uaccess.gatech.edu) under the GradPath option. The Dissertation Director reviews and approves the electronic form on behalf of the Committee. In addition, the Program Director reviews and approves the form on behalf of the Biostatistics faculty. This form must be submitted and approved by the Graduate College prior to the Final Oral Dissertation Defense.

**Dissertation Unit Enrollment**

PhD students in Biostatistics need to complete their Doctoral Plan of Study and pass both their written and oral comprehensive exams before they are able to enroll in BIOS 920 dissertation units.

All students who wish to enroll in dissertation units (BIOS 920) must complete a 900-Level Course Registration Form (found on the [MEZCOPH Student Hub](https://mezcoph.gatech.edu)) before they can be registered for the units. The form serves to establish the scope and focus of the work to be completed, provides a permanent record for the student’s academic file, and facilitates the assignment of final grades at the end of each semester. After the student has completed the form, and received approval from the Dissertation Director who serves as the “Instructor”, the student turns it in to the Doctoral Programs Coordinator who registers the student for the units.

**Dissertation**

The PhD dissertation should involve original research in biostatistics methodology and should represent a substantial contribution to the field of biostatistics. If the research involves human subjects, even if it involves secondary data analysis, the student must have IRB approval before starting on this work. It is the responsibility of the student in consultation with the Dissertation Research Director to obtain the approvals. See the “Human Subjects Protection Program” section above for more details of the approval process.

The Biostatistics program faculty currently approves two dissertation formats: a standard dissertation or a three-paper format. The Dissertation Committee must approve the format of the dissertation prior to the student beginning the work. Actual preparation of the written dissertation follows the Graduate College [guidelines](https://gradcollege.gatech.edu).
It is recommended that the student work with the Dissertation Committee to determine a dissertation format, a communication plan and timetable for reviewing dissertation work. When the student and Dissertation Research Director consider the dissertation sufficiently complete, the student submits a complete copy of the penultimate draft to each Dissertation Committee member and negotiates a date for the oral defense with the Dissertation Committee members. This document should be submitted to the dissertation committee members at least one month prior to the agreed upon date of the final examination.

Many past dissertations may be accessed for review using the UA Thesis & Dissertation Repository.

**Final Oral Dissertation Defense Examination**

It is recommended that no later than 15 working days before the proposed date of the defense, the student work with the Doctoral/MS Programs Coordinator to schedule the examination in a MEZCOPH classroom and to publicize the open portion of the examination. The exact time, date, and place of this examination must also be scheduled with the Graduate College. The Graduate College notification occurs when the student submits the Doctoral Announcement of Final Oral Defense form. This form is found on the [UAccess Student Center](#) under the GradPath option. Be aware that for each semester there are official Graduate College deadlines related to the dissertation defense and eligibility for that same semester graduation. Visit the Graduate College website for specific semester deadlines.

Formal oral defense of the dissertation research constitutes the final examination. This consists of a public seminar by the candidate of no more than one hour, followed by an oral examination by the candidate's Dissertation Committee. The entire exam must be completed within three hours. It is expected that the student will meet with the Dissertation Director to discuss the content of the public seminar prior to the scheduled presentation. The student may take a printed Approval Page downloaded from the Graduate College website to the final defense or may request the Doctoral Coordinator initiate an electronic version via Adobe Sign prior to the defense.

The student needs to assure that all Dissertation Committee members can attend the final examination. The student also must inform the Biostatistics Program Director and the Associate Dean for Academic Affairs. The Graduate Committee Chair presides over the examination. The initial seminar portion is open to the public; the remaining examination portion is closed to the public.

**Possible Outcomes:**

There are four potential outcomes to the Final Oral Dissertation Defense that are determined by the Dissertation Committee.

- **Pass, no revisions of the dissertation required.** This option is rarely awarded in the experience of the Biostatistics faculty.
• Pass, with revisions that must be approved by the Graduate Committee Chair and/or Dissertation Research Director. This option is used most often in the experience of the Biostatistics faculty.
• Pass, with revisions that must be approved by all Dissertation Committee members.
• Fail. In this instance, the Dissertation Committee will determine if a request for re-examination will be submitted to the Graduate College. The Graduate College Dean decides whether to approve such a request.

The Graduate Committee Chair is responsible for submitting the results of the defense to the Graduate College. Faculty instructions for conducting a dissertation defense are provided by the Graduate College.

When revisions are required, the student is responsible for meeting with the Graduate Committee Chair and/or Dissertation Director to work out a timeline for completion and review of the revisions.

Completion of Doctoral Requirements
Following the successful completion of the Final Oral Dissertation Defense Examination and completion of any revisions required by the Dissertation Committee, the final dissertation must be submitted via the electronic submission site at the Graduate College website and must meet all Graduate College requirements. The Graduate College publishes deadlines for the completion of all degree requirements on their website. Because of instances of self-plagiarization, it is highly recommended that the student embargoes the dissertation for an extended period of time or permanently at the time of submission.”

Bound or electronic copies may be requested by the Biostatistics Program Director, Dissertation Director and Dissertation Committee members. Additionally, if the student chooses to embargo the dissertation, the Office of Student Services would appreciate an electronic copy.

The UA Dean of the Graduate College certifies that the candidate has fulfilled all requirements for the Doctorate of Philosophy and will recommend conferral of the doctoral degree by the Arizona Board of Regents. At that time, the Graduate College will post the degree completion date on the student’s transcript and the diploma will be mailed to the student.
THE PhD MINOR IN BIOSTATISTICS

Minor Requirements
The PhD minor in Biostatistics (for majors outside of Biostatistics) is administered by the Biostatistics program in MEZCOPH. A total of 15 course credits are required, as well as the successful completion of written (at the discretion of the major) and oral questions during the PhD comprehensive exam. See the MEZCOPH Academic Curriculum Guide found on the College’s website for further details of the specific course requirements and schedule.

Declaration of Minor
The student should meet with the Biostatistics Program Director to discuss the minor. After identifying a Biostatistics Minor Faculty Advisor and receiving guidance regarding minor coursework, the student needs to complete the MEZCOPH Declaration of Biostatistics Minor Form (found on the MEZCOPH Student Hub or by contacting the Doctoral/MS Programs Coordinator to request the form). The form is reviewed and approved by the Biostatistics Program Director. The form must be filed with the MEZCOPH Doctoral/MS Programs Coordinator in the Office of Student Services and Alumni Affairs (Drachman Hall Room A302). The Minor Faculty Advisor will then also serve as the Chair of the Minor for the student’s Graduate Committees (i.e., Comprehensive Exam and Dissertation Committees).

Composition of Committee
The composition of the Biostatistics Minor portion of the student’s graduate committee shall consist of at least one primary faculty member from the Biostatistics program. Biostatistics Minor Advisor/Committee Members may formulate questions for the written (at the discretion of the major) and oral comprehensive examinations.

Transfer of Credits
Graduate credit earned at other approved institutions may be counted towards fulfilling the requirements of the PhD minor in Biostatistics, if approved by the Minor Faculty Advisor, the faculty member teaching the course to be substituted and the Biostatistics Program Director. Two forms must be completed in addition to the ultimate incorporation in the Plan of Study: The MEZCOPH Course Substitution form is used to evaluate the course for content and appropriateness within the Plan of Study. For approved transfer coursework taken at an accredited institution outside of the University of Arizona, the student must also complete the Graduate College’s Transfer Credit form.
THE MS IN BIOSTATISTICS PROGRAM

The Masters of Science degree in Biostatistics prepares individuals to work effectively as applied biostatisticians in a variety of public health, epidemiological and clinical research settings. The MS in Biostatistics provides training in statistical theory, study design, biostatistical methodology, analysis and interpretation.

On average, the MS program requires approximately two years for completion. The first year is usually devoted to core coursework. The second year is focused on remaining coursework and development of the master’s project and portfolio.

For complete information about the University of Arizona Graduate College policy for MS students please see the Graduate College website.

New Student Activities
All new students are expected to participate in the Doctoral and MS Student Orientation, scheduled in August prior to the beginning of fall coursework. Topics include: research and academic ethics, College and University policies and procedures, and an introduction to College faculty and their research. Orientation provides an opportunity to meet the other students.

Competencies
A set of competencies specific to the MS Biostatistics degree have been developed which will allow students and the faculty to determine progress. It is recommended that this list be used by students to help assess training needs and progress.

Program Steps and Milestones to Degree

Typical time to completion: 2 years full-time students, 3-4 years part-time students.

Average time to completion: 2.88 years

Program Steps to Completion (Full-time student timeline):

- Attend mandatory new student orientation
- First year is devoted to course work
- Each Spring, complete an Annual Progress Report with Faculty Advisor
- Second semester, identify Committee Chair
- End of first Spring, take the Qualifying Exam
- Second year is devoted to course work and capstone project or thesis
- If necessary, begin process for Human Subjects approval for thesis
- Third semester, form committee
• Fourth semester, successfully defend thesis or present capstone project, and then finalize any revisions and portfolio

Progress of the Program Steps and Milestones to Degree is assessed at the time of students’ annual progress report in conjunction with their Faculty Advisor and Program Faculty. When it is determined that a student is not making timely progress, the student and Faculty Advisor will meet to create a Retention Plan using the MEZCOPH form, “Graduate Student Retention Plan for Failing to Make Satisfactory Academic Progress.”

Degree Requirements
The MS course requirements are determined by the Biostatistics program. Please see the Academic Curriculum Guide for the year you were admitted to your current program found on MEZCOPH Student Hub. The overall course of study will be developed by the student and the Faculty Advisor and approved by the student's Graduate Committee and Biostatistics Program Director.

Master’s Plan of Study
In conjunction with the Faculty Advisor, each student is responsible for developing a Master’s Plan of Study as early as possible during the first few months in residence, to be submitted to the Graduate College in the second to last semester of the program. The Plan of Study identifies (1) courses the student intends to transfer from other institutions; (2) courses already completed at the University of Arizona which the student intends to apply toward the graduate degree; and (3) additional course work to be completed to fulfill degree requirements. The Plan of Study form is completed on UAccess Student Center, under the GradPath option. The Plan of Study must have the approval of the Faculty Advisor and the Biostatistics Program Director. As stated under the GradPath description (see “GradPath” section above), it is the student’s responsibility to monitor the faculty members’ and Graduate College’s approval of all forms submitted through GradPath. Students can monitor the approvals by tracking the approval path at the bottom of any form in GradPath.

Transfer of Credits
Per Graduate College policy, transfer of credit toward an advanced degree may be considered if the grade earned was A or B, and if it was awarded graduate credit at an approved and accredited university. Grades of transfer work will not be used in computing the student's UA grade-point average.

In the MS program, a total of 12 units of graduate credit may be transferred. These include credits earned as an undergraduate senior (if not used toward the undergraduate degree), graduate credits with non-degree status, or credits transferred from an accredited institution. No more than 20% of the total coursework required for the master’s degree can be transferred from other institutions. Non-degree seeking credits plus transfer credits may not total more than 12 credits.
The student must transfer credit during the first semester of the MS program. Transfer of credit must be approved by the Faculty Advisor. The process starts by making an appointment with the Faculty Advisor. The student brings a transcript highlighting the classes to be transferred and a syllabus for each class.

Two forms must be completed in addition to the ultimate incorporation in the Plan of Study: The MEZCOPH Course Substitution form is used to evaluate the course for content and appropriateness within the Plan of Study. For approved transfer coursework taken at an accredited institution outside of the University of Arizona, the student must also complete the Graduate College’s Transfer Credit form.

The final decision for transfer of credits for non-University of Arizona courses, whether used as substitutions for a required course or as electives, is made when the formal Plan of Study is submitted to the Graduate College.

Course Substitutions
If a student has already completed a course similar to a program required course, then the student can apply to have the earlier course substituted for the required course. A course substitution can only be approved by the university professor/instructor of the required course. The course professor/instructor will review documentation from the student (i.e., course syllabus) for comparability to the required course and the student’s grade. If approved for substitution, the course professor/instructor signs the Course Substitution Form that the student provides (found on the MEZCOPH Student Hub). The Faculty Advisor must concur, and sign on the appropriate line. The student then submits the form to the Doctoral/MS Programs Coordinator. The substituted course fulfills the content requirement, but the student must take another course of equivalent credit-hours toward the degree requirement, unless the course is approved for transfer credits.

Independent Study Registration Policy
A student who wishes to enroll in independent study (BIOS 599/699) must complete the Independent Study Registration form found on the MEZCOPH Student Hub before being registered for the units. The form serves to establish the scope and focus of the independent, provide a permanent record for the student’s academic file, and facilitate the assignment of final grades at the end of each semester. After the student has completed the form, and received approval from the faculty member serving as Instructor (person responsible for overseeing the student’s work and assigning credit) and Faculty Advisor, the student submits the signed document to the MS/Doctoral Programs Coordinator who registers the student for the units.

Research and Thesis Registration Policy
A student who wishes to enroll in research units (BIOS 900) or thesis units (BIOS 910) must complete the 900-Level Course Registration form found on the MEZCOPH Student Hub before being registered for the units. The form serves to establish the scope and focus of the work to
be completed that term, provide a permanent record for the student’s academic file, and facilitate the assignment of final grades at the end of each semester. After the student has completed the form, and received approval from the faculty member serving as Research Instructor or Thesis Director (person responsible for overseeing the student’s work and assigning credit), the student submits the signed document to the MS/Doctoral Programs Coordinator who registers the student for the units.

**MS Qualifying Exam**

All MS students must pass a written MS Qualifying Exam (commonly referred to as the “QE”) after their first year of study. The exam is designed to ensure that students have the necessary background to continue with more advanced courses. The exam includes both Theory and Application sections. The exam is offered early in summer at a time announced at the beginning of the preceding spring semester.

The material covered on the exam is based on the following courses:

- Theory of Probability (STAT 564/MATH 564)
- Theory of Statistics (STAT 566/MATH 566)
- Biostatistics in Public Health (BIOS 576A)
- Biostatistics for Research (BIOS 576B)

Students must have completed each of these courses with a grade of A or B to be eligible for the exam. Additionally, students are encouraged to consult the following texts as background for the exam content:

The exam is administered in two parts over two consecutive days. The first day centers on the Theory section and is closed-book (no notes). The second day centers on the Application section; one page of notes (two-sided) is allowed.

Students who pass the Biostatistics Qualifying Exam after their first year of coursework in the MS program may apply directly to the PhD program without completing the MS degree. If admitted to the PhD program, all of the coursework taken in the first year would then count towards the PhD degree.
Students who do not pass the Qualifying Exam are allowed to re-take the exam when it is offered the next year. These students are encouraged to meet with their Faculty Advisor and the Biostatistics Program Director to determine appropriate steps to improve their performance. Students who do not pass the Qualifying Exam after two attempts may not continue in the MS program.

Culminating Experience
A culminating experience is required for the MS degree and may take the form of a Master’s Thesis (6 units), or a capstone experience in the form of a Master’s Project (3 units of either Research or Independent Study). Students are advised to work with their Faculty Advisor to determine the type of experience that aligns best with their educational and career goals.

MS Committee
After selection of a topic for the thesis or capstone experience, the student selects faculty members for a Master’s Committee, in consultation with the Faculty Advisor. See the “Composition of the Graduate Committees for Biostatistics Students” section above for more information on the composition of the MS Committee.

Master’s Thesis Option
The content of the MS thesis is flexible, but it must be more substantial than a standard statistical analysis. Examples of possible topics include: a simulation study to investigate a statistical method; a complex data analysis involving a comparison of different approaches; or an extension or novel use of an existing statistical method. It cannot be an analysis performed for a class, although this might serve as a minor portion of the thesis. Prior to initiating the research for the thesis, the student must submit a "prospectus" to their Thesis Committee, outlining the student’s academic progress to date, studies to be completed prior to writing the thesis and an outline of the research to be included in the thesis. The student then meets with the Thesis Committee to discuss the prospectus and to formulate any new plans deemed appropriate.

If the research involves human subjects, even if it involves secondary data analysis, the student must have IRB approval before starting on this work. It is the responsibility of the student in consultation with the Thesis Research Director to obtain the approvals. See the “Human Subjects Approval for Dissertation/Thesis Projects” section above for more information on the Human Subjects approval process.

Preparation of the written thesis follows the Graduate College guidelines.

The student should be working closely with the Thesis Research Director throughout the research and writing of the thesis. When the Thesis Research Director considers the thesis sufficiently completed, the student submits a draft copy to the Thesis Committee at least one month prior to their proposed formal defense date.
Some past theses may be accessed for review using the [UA Thesis & Dissertation Repository](https://repository.uah.edu).

### Capstone Experience: Master's Project (either Research or Independent Study Option)

The intent of the Master’s Project is to provide students with an introduction to biostatistical research. The content of the MS Project is flexible, but is meant to be less extensive than the MS Thesis (see above). The MS Project is developed in consultation with a Biostatistics faculty member who will serve as the Instructor for the 3 credit Research or Independent Study course. The MS Project option is particularly suited for students who intend to earn a terminal MS degree whereas the MS Thesis option is recommended for students who ultimately wish to continue towards a PhD degree.

### Oral Defense of Thesis Research/Oral Presentation of Capstone Experience

The MS student is required to complete a formal public presentation of the culminating experience in a public seminar, followed by an oral examination by the candidate's Committee. The presentation, inclusive of questions from attendees, is a maximum of one hour followed by the committee’s examination which can be no more than one additional hour.

At least fifteen working days before the defense, the student should be in touch with the Doctoral/MS Programs Coordinator to schedule a MEZCOPH classroom and to publicize the open portion of the presentation. Students completing the Thesis option may take a printed Approval Page downloaded from the Graduate College website to the final defense or may request the MS Coordinator initiate an electronic version via Adobe Sign prior to the defense.

[Faculty instructions](https://repository.uah.edu) for conducting a thesis defense, including voting procedures, are provided by the Graduate College.

### Professional Portfolio

All students are required to complete a professional portfolio. The student works with the Faculty Advisor to determine appropriate documents to include. At a minimum, the portfolio consists of a resume, at least two data analysis reports, copy of thesis or MS project report, documentation of computing proficiency, and pdf or PowerPoint of oral presentation.

After the public presentation of the student’s culminating experience, the student addresses any comments or concerns regarding the written thesis/project and oral presentation from the MS Committee and obtains final approval.

The student emails the contents of the portfolio to the MS Coordinator, copying the faculty advisor. The MS Coordinator checks for completeness. The final approval for the portfolio is given by the student’s faculty advisor. The Graduate College publishes [deadlines for the completion of all degree requirements](https://repository.uah.edu) on their website and the fully approved and completed portfolio must be received in the MS Coordinator’s email by the appropriate date. Students who pursue the Thesis option, must also fulfill the requirements in the following section.
Completion of Thesis Requirements
After addressing comments on the thesis from the MS Committee and obtaining final approval for the written thesis, the student prepares the final copies of the thesis. The student makes any format corrections required by the program and submits an electronic copy to the Graduate College via the electronic submission site and must meet all Graduate College requirements. The Graduate College publishes deadlines for the completion of all degree requirements on their website.

Bound or electronic copies may be requested by the Biostatistics Program Director, Thesis Research Director and Thesis Committee members. Additionally, if the student chooses to embargo the dissertation, the Office of Student Services would appreciate an electronic copy.

Time Limitation
Per Graduate College policy, all requirements for the master’s degree must be completed within six years. Time-to-degree begins with the earliest course to be applied toward the degree, including credits transferred from other institutions or credits taken under non-degree seeking/certificate status.

MS Degree Completion
Per Graduate College policy, after all requirements are met by the student and the student has emailed all appropriate documents to the MS Coordinator (copying the MS Committee and Faculty Advisor), the MS Coordinator will notify the Graduate College that all final requirements have been met. The student should note that the Graduate College needs to be notified of this milestone before the student is considered for degree conferral.

Be aware that for each semester there are official Graduate College deadlines related to completing the MS degree requirements and eligibility for that same semester graduation.

The UA Dean of the Graduate College certifies that the student has fulfilled all requirements for the degree and will recommend conferral of the Master of Science degree by the Arizona Board of Regents. At that time, the Graduate College will post the degree completion date on the student’s transcript and the diploma will be mailed to the student.
