INTRODUCTION
The University of Arizona’s Mel and Enid Zuckerman College of Public Health (MEZCOPH) was established in January 2000 and accredited by the Council on Education for Public Health in 2003. Under its administrative roof are academic programs that lead to five degrees - the Bachelor of Science (BS), with a major in public health; the Master of Public Health (MPH), with concentration areas in Biostatistics, Environmental and Occupational Health, Epidemiology, Family and Child Health, Health Behavior Health Promotion, Health Services Administration, One Health, Public Health Policy and Management, and Public Health Practice; the Master of Science (MS) degrees in Biostatistics, Environmental Health Sciences, and Epidemiology; Doctor of Philosophy (PhD) degrees in Biostatistics, Environmental Health Sciences, Epidemiology, and Health Behavior Health Promotion; and a Doctor of Public Health (DrPH) degree with concentration areas in Maternal and Child Health and Public Health Policy and Management.

The Bachelor of Science and the Master of Public Health degree programs are offered via campus based, as well as online, formats.

Comprehensive information about all of the College’s academic programs can be found in the College of Public Health Curriculum Guide.

Our graduates have established careers locally, nationally, and internationally. Of note, they include the 17th Surgeon General of the United States, Dr. Richard Carmona, as well as a state public health veterinarian, an assistant commissioner of the Chicago Department of Health, a program manager for an intertribal council, a Fellow in the Centers for Disease Control, a research director for violence-prevention program, and a health educator for a local AIDS program, to name just a very few. We are proud of the contribution we are making to build and maintain a competent public health workforce!

MEZCOPH MISSION STATEMENT
The Mel and Enid Zuckerman College of Public Health is dedicated to promoting the health and wellness of individuals and communities in the southwest and globally with an emphasis on achieving health equity through excellence in education, research & service.

MEZCOPH VALUES STATEMENT
MEZCOPH acts with respect and integrity to continuously advance health and well-being for all through knowledge, collaboration, empowerment, advocacy, and sustainability. Our core values are: Fairness, Trust, Equity, Social Justice, Excellence, Innovation, Commitment, Collegiality, Diversity, Open Communication, Participation, Consensus, and Enhancement. We strive to foster an educational community that values innovation and excellence in teaching, creation and dissemination of knowledge, practice-based research and research-based practice to address the health needs and interests of individuals and communities.
SECTION I GENERAL INFORMATION FOR COLLEGE OF PUBLIC HEALTH GRADUATE STUDENTS

PURPOSE OF THIS HANDBOOK
The objective of this handbook is to provide straightforward guidance to campus-based MEZCOPH students about how to navigate through the academic programs of the College. The handbook is divided into two sections. The first section of the handbook includes general information for graduate students about MEZCOPH resources and operations, student organizations, events, and financial assistance. University and Graduate College rules are reiterated and linked to as appropriate. The information in this section is applicable to all students in MEZCOPH’s graduate programs. The second section of the handbook outlines information specific to each of the graduate programs (i.e., MPH, MS, DrPH or PhD programs). Students should refer to the handbook often.

While students are held to the program requirements of the Academic Curriculum Guide for the academic year in which they were admitted, University and College of Public Health operational processes and policies do change. These changes in policies and procedures are reflected in the Student Handbook. Please refer to the most recent MEZCOPH Student Handbook (revised annually) for the most current policies. The University of Arizona General Catalog of policies and Graduate College website provide comprehensive details on current policies and procedures that pertain to all graduate students. Much effort goes into communicating changes to students but it is the student’s responsibility to be aware of these policies and to adhere to them. Additionally, it is intended that faculty refer to this handbook when mentoring and advising students. This handbook works to promote expectations that are shared by students, faculty, and staff.

The staff members of the MEZCOPH Office of Student Services and Alumni Affairs look forward to helping students work toward their degrees. If, at any time, you have questions or concerns about specific MEZCOPH issues, do not hesitate to contact the staff member assigned to that area (see the Office of Student Services and Alumni Affairs staff list found in the orientation folder and on the MEZCOPH Student Hub). Although the Office of Student Services and Alumni Affairs is here to support student progression through our degree programs, keep in mind that completion of all degree requirements and paperwork is ultimately the responsibility of the student seeking the degree.

Again, we welcome you and look forward to working with you during your time at MEZCOPH!
PHYSICAL RESOURCES AND FACILITIES

TUCSON CAMPUS

DRACHMAN HALL
The east wing of Roy P. Drachman Hall, MEZCOPH’s home, opened for classes in January of 2006. MEZCOPH administrative offices are found on the 3rd floor and faculty offices are located primarily on the 2nd floor. Classrooms occupy the 1st floor of both wings of the building and are used primarily by the Colleges of Public Health, Pharmacy and Nursing. The College of Pharmacy occupies the west wing of the building. MEZCOPH students, faculty and staff play a vital role in ensuring that the facilities of Drachman Hall are treated with respect and are asked to report any incidences of vandalism, theft, or questionable activities to the Assistant Dean of Financial Affairs and Physical Resources at 520-626-4596 or via the Student Suggestion Box on the Hub if the issue is non-emergent. Building security services are not available in the evening or during weekends; therefore, students should not be in the building after regular business hours (8 AM - 5 PM) or weekends unless they are taking a class or working in an assigned cubicle or office space.

Bicycles, Bicycle Parking, and Bicycle Valet Service
UA students, faculty, and staff who ride their bicycles to school are encouraged to register their bicycles with the University of Arizona Parking and Transportation Services. Bike registration provides the owner with discounts on selected bicycle supplies and services from participating bike shops, free lock cutting service for UA-registered bikes on campus, and a record of ownership and documentation for insurance carriers. Registration facilitates the return of stolen bikes to their owners.

For parking convenience, bicycle racks are located on the south side of both wings of Drachman Hall. Additionally, there is a free bike valet service, open Monday through Friday from 7:45 AM – 6 PM (excluding University holidays and summer break), located on the north side of Helen Street just east of the Warren bike path and southwest of Drachman Hall. Check-in your bike with one of our friendly Bike Valet attendants who will give you a key tag. Your bicycle will be watched and monitored while it is parked. When you return to the valet station, hand the attendant the key tag to receive your bike. For more information, please visit the Bicycle Programs website. Bicycles brought into the building or locked to stairwells or other architectural features will be impounded.

Computer Lab
MEZCOPH’s computer lab, equipped with 21 Windows personal computers, a printer, and projection equipment, is located on the third floor of Drachman Hall in Room A319. The computer lab is available for general use, Monday through Friday from 8 AM -5 PM, unless the lab has been scheduled for a class, study session, or other College activity. Information about courses scheduled in the computer lab, for the current week, will be posted outside the lab.
Students can also view the computer lab schedule via the UA Health Sciences Scheduling System (search by date for Drachman Hall Room A319).

Stata, SPSS, SAS, ArcGIS, R, EpilInfo, Matlab, Skype, Adobe Acrobat Pro and Microsoft Office are installed on each system. nVivo is available on lab computers in the first and half of the second rows. The systems revert back to an initial state after a reboot, so a thumb drive, cloud storage (e.g. Google Drive) or CD/DVD is required to save any work. To use the systems, students must login to the computers with their NetID. Please make sure to log off from the computer when done. Printing is free in the computer lab, although students must provide their own paper for printing.

**Other Computer Labs**

Other computer labs are available on campus though they won’t have the same software titles available in the Drachman Lab. The Office of Student Computing Resources operates these labs and that information is available here, [https://oscr.arizona.edu/](https://oscr.arizona.edu/). Additionally, the libraries offer access to computers in labs and study areas. That information is here, [https://new.library.arizona.edu/visit/spaces/computer-study-areas](https://new.library.arizona.edu/visit/spaces/computer-study-areas).

**Software Available through University Licensing**

The University Bookstores manages software titles that are available to students for free or at a discount. For a list of these software, please visit [https://softwarelicense.arizona.edu/students](https://softwarelicense.arizona.edu/students).

**Lactation Room**

For nursing mothers, the College of Public Health established a Lactation Room, located in Drachman Hall, Room A107, around the corner from A112. To use the room, obtain the access code from the administrative assistant in the Office of Student Services (Room A302), enter the code on the keypad outside of room A107, lock the door using the manual lock while in use and when finished, fill out an evaluation form that assists the college in assessing the usage of the room.

**Lockers**

Students may reserve a locker for use while pursuing a degree in the Colleges of Public Health or Nursing. Requests for lockers are processed by the administrative assistant in the Office of Student Services and Alumni Affairs, Room A302 of Drachman Hall. A one-time, non-refundable user fee of $5 is assessed (payment by cash or check only). To reserve a locker, a student should identify the range of locker numbers in the first-floor hallway in which the locker is desired and communicate this information to the administrative assistant, who will assign the locker number and provide the padlock combination to the student. Students may not use their own padlocks on Drachman Hall lockers. Drachman Hall is not accessible in the evening or on the weekend, so needed items stored in lockers should be retrieved prior to the conclusion of classes.
Lost and Found
Items found in the east wing or “A” side of Drachman Hall should be brought to A302, the Office of Student Services and Alumni Affairs, where the Lost and Found repository is located. Individuals who are attempting to locate lost property should check with the Office of Student Services to determine if the item has been turned in. Individuals must provide an adequate description of the item and in some cases, personal identification before being re-united with lost items.

Policy for Posting Advertisements in Drachman Hall
Any paper advertisement, flyer, or announcement to be hung in either of the Drachman Hall buildings shall first be approved by the MEZCOPH Office of Student Services and Alumni Affairs in Drachman A302 (for postings hung in Drachman A) or the College of Pharmacy’s Office of Student Services in Drachman B107 (for postings hung in Drachman B). To gain approval, bring an original copy to the appropriate Office of Student Services. When approval is given, the announcement will be initialed and dated by the administrative assistant in the Office of Student Services. Copies of the announcement showing the initials and date can be made at this time.

Announcements may be hung indoors on plastic, metal, or bulletin boards ONLY, not on painted walls or glass/wooden doors unless special permission is granted by the appropriate Student Services Office. Announcements may not be taped, nailed, screwed, or in any way attached to the outside metal or brick siding of the building. Announcements without approvals or on restricted surfaces will be removed.

Removal of announcements is the responsibility of the organization or individual who hung them. Announcements must be removed no later than two days following the event. Failure to do so may result in denial of future postings.

Student Cubicle Space
Each department has a limited number of dedicated graduate student cubicles on the second floor of Drachman Hall. These spaces are assigned in priority order. First priority for cubicle assignments is for courses with teaching assistants. The cubicle space is assigned to the course and cubicle space must be shared if there are multiple TAs in the course. Doctoral students are the next space assignment priority. Students who are participating in a training grant follow in priority and finally, any graduate student who is employed as a research assistant by a Department that has space available may be assigned space. Only those students who have been assigned cubicles will be granted access to the second floor of Drachman Hall after hours.

Teaching assistants may arrange to meet with students in the breakout rooms (the small classrooms on the west side of the first floor). Using these spaces reduces noise on the second floor and provides private space when needed. Teaching assistants may schedule these rooms by accessing the UA Health Sciences Scheduling System. The course number, name and faculty member should be included in the request.
Student Group Meeting Space
Student groups needing meeting space may request it by submitting a room scheduling request through the UA Health Sciences Scheduling System. The group’s name and faculty advisor name should be included in the request. Advisors are expected to be present when student group meetings occur after hours. While individual students may not reserve a breakout room to study or meet with group members outside of course times, they may use unoccupied, unreserved rooms for these activities.

Student Lounge/Wellness Activity Room
A Student Lounge/Wellness Activity Room is located in Drachman Hall A110. The room is equipped with a refrigerator, sink, and microwave oven, as well as with exercise mats, and small exercise equipment. While the primary purpose of this room is to serve as a lounge and lunch room for College of Public Health students, a complementary objective is for the room to be used as space for wellness activities. College of Public Health students are encouraged to seek out and promote wellness activity programming that can be held in the room. Examples of this type of programming might include such activities as yoga, tai chi, exercise, or meditation classes. A room reservation form for the purposes of scheduling wellness activities is managed by the administrative assistant in the Office of Student Services.

Access to the Student Lounge is via CatCard. Those wishing to access the room are required to complete a Drachman Hall Access Application which outlines the guidelines for use and if involved in physical activity, sign a waiver (medical release form). These forms are found on the student Hub. The completed form must be turned in to the administrative assistant in the Office of Student Services. It is then submitted to the Business Office for access approval.

It is expected that students keep the lunch area orderly and clean, and food that is no longer fresh is disposed of in a timely manner. Students from other colleges should use the student lounge facilities in their respective colleges.

Student Lounge/Quiet Room
An additional Student Lounge/Quiet Room is located on the first floor of Drachman Hall in Room A102. Equipped with comfortable furniture, several study tables, multiple computers and printer, MEZCOPH students are encouraged to use the Student Lounge on a regular and frequent basis to utilize the computers, study quietly, or meditate. The room may not be reserved. Students desiring to use the Student Lounge/Quiet Room must complete a Drachman Hall Access Application found on the Student Hub. The completed form must be turned in to the administrative assistant in the Office of Student Services. It is then submitted to the Business Office for access approval.

Third Floor Patio
Students are welcome to use the third-floor patio adjacent to the south staircase, outside the Office of Student Services and Alumni Affairs. A room reservation is not required to use the patio.
**Wireless Internet Access**

Wireless access is available throughout and around Drachman Hall via connection to the UAGuest and UAWiFi networks. UAGuest is for use by visitors to our campus. A temporary user ID and password are texted back to the user for connection to this network. Additional information about UAGuest is available [here](#). UAWiFi, on the other hand, is a secure and fast wireless network that is available across most of our campus. Partially funded by the Student Technology Fee, it brings wireless access for all students, staff and faculty on campus. Connection to UAWiFi requires authentication using your NetID and password. The UAWiFi network, when connected, allows students to access on-campus networked resources that are generally unavailable over the public Internet, such as the libraries and [UAccess Student Center](#). Instructions for setting up UAWifi wireless access can be found [here](#).

**How to get help with UAWiFi**

Help can be obtained through the Office of Student Computing Resources (OSCR) Help Desk. Call 626-TECH (8324) to schedule an appointment, or stop by during walk-in hours. Limited support is available at OSCR computer labs and multimedia labs. The UITS FAQ on UAWifi is another source of help for UAWiFi. The MEZCOPH Information Technology staff can also help with the setup by contacting them [online](#) or calling 626-7417.

**ARIZONA HEALTH SCIENCES CAMPUS RESOURCES**

**About the Arizona Health Sciences Campus**

The Arizona Health Sciences Campus (UAHS) is home to the UA Colleges of Medicine, Nursing, Pharmacy, and Mel and Enid Zuckerman College of Public Health. The main UAHS campus is located in Tucson and is North of Speedway Boulevard. In addition to the UAHS colleges, other units and resources found on the UAHS Tucson campus include The University of Arizona Cancer Center, and Banner – UMC Hospital, the UA Health Sciences Bookstore, and the Arizona Health Sciences Library. UAHS also has a downtown Phoenix location at the Phoenix Biomedical Campus.

**Eats, Treats and Meeting Spaces**

Opportunities for lunching and meeting with friends exist on and close to the Arizona Health Sciences campus. In addition to the full-service cafeteria within Banner UMC hospital, there is the Catalyst Café which is located inside the Basic Sciences Research Laboratories Building (to the west of Drachman Hall). The Catalyst serves coffee, lattes, cappuccinos, espresso, a variety of teas, Italian sodas and a selection of paninis, sandwiches, pastries, and protein rich snacks. The neighborhood immediately south of AHSC offers convenient options as well, including Subway, Bentley’s, Miss Saigon, Brueggers Bagels, 1702 (pizza), Greek House, Taco Bell and McDonald’s.

A popular feature of life on the AHS campus is the Farmers’ Market, held each Friday on the Plaza immediately north of Drachman Hall. This Farmers’ Market features a variety of food, crafts, products and services.
A number of outdoor seating areas that are conducive to conversation and small group gathering are located throughout the University of Arizona Health Sciences campus.

**Health Sciences Innovation Building (HSIB)**
The newest addition to the Arizona Health Sciences Campus is the nine story, 220,000 sq. ft. Health Sciences Innovation Building opened in spring 2019. State-of-the-art instructional spaces offer simulated, real-life situations for teams of students, faculty and health professionals in medicine, nursing, pharmacy and public health. The HSIB offers flexible, large, medium and small group/team learning areas and clinical labs and simulation centers for a broad spectrum of instructional applications. It also includes a number of multi-use spaces and several student lounges.

**Arizona Health Sciences Library**

The [Arizona Health Sciences Library](#) is located within the College of Medicine and is available to all students, faculty and staff associated with the 4 colleges that comprise Arizona Health Sciences (Public Health, Nursing, Pharmacy and Medicine). The AHS Library is available to students at our Phoenix Campus as well. Students can use the AHS Library for a myriad of services. The computer lab is comprised of desktop computers that are available on a first come first serve basis. These computers have all of the basic applications (Office Suite, browsers, and media players), plus statistical software such as SPSS, STATA and SAS. Students can also utilize the library’s scanners, print on the wireless WEPA printers using CatCard or debit card, or use the self-serve printer (cash only). The UAHS Library also rents out technology equipment like laptops, iPads, and cameras. To reserve a designated place to study alone or with a group, students should access the [Online Reservation System](#). [Regular library hours](#) are Monday-Friday 7:00 am – 7:00 pm and Saturday/Sunday 9:00 am – 7:00 pm. After the doors lock, UA Health Sciences students can enter the library with their CatCards. Learn how to [access the library 24/7](#). The library is closed on all major holidays. Students also have the capability of accessing the UAHS online resources from off-campus by logging in with your UA NetID and password.

The Arizona Health Sciences Library Liaison to the College of Public Health is Jean McClelland. Ms. McClelland is available to assist students, staff and faculty library needs. She has developed an [Information Resources website](#) specifically for students in the College of Public Health to help you be successful throughout your time in the program. Students may also reach out directly to Jean at jmcc@email.arizona.edu.

**Medical Research Building (MRB)**
The College of Public Health has research laboratory space in the Medical Research Building (MRB, first floor west) and teaching/research laboratory space in the Biological Research Laboratories (BRL) at the north end of the Arizona Health Sciences Center campus. Some environmental health sciences courses use laboratories in these buildings and students receive specific information regarding time and place from the course instructor. Student research efforts are assigned appropriate space by the student’s Research Director depending on the
nature and funding of the project. Students employed on faculty projects may be assigned to work in these laboratories.

Safety
The safety and security of our students is of utmost importance. Safety issues of the students, faculty and staff University of Arizona Health Sciences campus are handled by the University of Arizona Police Department (UAPD), located just two blocks to the south of the College of Public Health. The department has 65 state-certified police officers and 49 civilian employees who are here to help and respond to calls 24 hours a day. A number of Emergency Blue Light phones which automatically route calls to UAPD are located throughout the campus and in the parking lots and garages. UAPD can be reached by dialing 520-621-UAPD (8273). In an emergency, dial 9-1-1 for assistance. The hospital, Banner University Medical Center has around the clock security patrol.

Drachman Hall is monitored with the use of security cameras.

UA Alert is a free service that delivers emergency alerts to registered UA students, faculty and staff – as well as their friends and family – via their cell phones, mobile devices and/or email accounts during a campus emergency. To register for this service, please visit this webpage.

Safe Ride provides a safe, night-time method of transportation to all university-affiliated persons on and around the main campus. Learn more.

LiveSafe, an app available for iOS and Android phones, was developed in order to provide real-time interaction for UA students and employees reporting security and safety concerns. All UA students and employees have access to the app's secure platform for free. Learn more.

A comprehensive list of safety tips for students can be found on the UAPD website.

PHOENIX BIOMEDICAL CAMPUS
The city-owned Phoenix Biomedical Campus (PBC) is a 28-acre urban medical and bioscience campus planned for more than six million square feet of biomedical-related research, academic, and clinical facilities. Students have access to the facilities through PBC Access Cards and cards must be displayed at all times when on campus. The MEZCOPH offices are located on the 3rd floor of Building 1 at 550 E Van Buren Street, Phoenix, AZ 85004. Students are also welcomed and encouraged to utilize the facilities in the Health Sciences Education Building (HSEB), and the AHSL Library located on the 3rd and 4th floors of the HSEB building. Student access is limited to when Security is on site.

Building 1, 2, 3, and 4 (The Historics): Weekdays 8:00 AM – 5:00 PM / No Weekends / No Holidays

HSEB: Weekdays 6:30 AM – Midnight / Weekends 9:00 AM – 5:00 PM / No Holidays
Security is present on campus and the roving security officer can be reached at 602-827-2368.

**Computers**
The MEZCOPH Floor in Phoenix has two computers available for student activities. Computers may be used on site and can be checked out with the MEZCOPH administrative assistant in Building 1, 3rd Floor NE corner. Black and white printing is also available in the COPH Suite but students must provide their own paper. Students may also use the computers available in the Library located in HSEB. The systems revert to their initial state after a reboot, so a thumb drive is required to save any work. Printing is available in the HSEB Library for 10 cents per black and white page.

**Phoenix Student Space**
MEZCOPH students at the Phoenix Biomedical Campus are encouraged to use the central area on the third floor of Building 1 as a meeting space, along with the student spaces in HSEB. Students may also use the lunchroom located on the 3rd floor of Building 1. This area is equipped with a sink, microwave, and refrigerator. It is expected that students keep the lunch area orderly and clean, and food that is no longer fresh is disposed of in a timely manner.

**Wireless Internet Access in Phoenix**
Wireless access is available throughout and around the Phoenix Biomedical Campus via connection to the UAWiFi and UAPublic networks. See the *How to get help with UAWifi* section on page 6 for assistance with connecting to UAWiFi.

**Eats and Treats**
There are many local spots near the Phoenix Biomedical Campus that our students, faculty, and staff like to frequent. Coffee shops are numerous, as are local and chain restaurants. For a list of places to eat and things to do in the Downtown Phoenix Area, visit the following websites: [Visit Phoenix](#) and [Downtown Phoenix](#).

**COMMUNICATING WITH STUDENTS**
The Office of Student Services and Alumni Affairs communicates with students primarily through email, student listservs and the College's student intranet, the MEZCOPH Student Hub. The College hosts Facebook groups for prospective and current graduate students, as well as LinkedIn and Facebook groups for Alumni; however, these groups are not used to communicate official business.

**Email Accounts**
The University of Arizona requires that all students open email accounts through the University of Arizona. Students are required to use these accounts for all University-related correspondence. In turn, official University and College messages are communicated to students via this account. It is imperative, therefore, that all students keep the Office of Student Services and Alumni Affairs notified of any address changes. Failure to read the UA email account is not an acceptable excuse for not knowing important information. While forwarding
one email account to another may be advantageous, there may be some risk of loss of information.

**Listservs**

Current information about new policies and procedures, program and college events, and course information is announced via the academic program listservs, Job and internship openings are announced via separate listservs that students must request subscription to and these openings are posted to the Hub. Each academic program or concentration within the College maintains a student listserv, as well, for communicating program or concentration business from its faculty and staff.

General announcements for all students related to academic business, e.g., speakers of interest, conferences, seminars, new courses, etc., should be sent to the Assistant Dean for Student and Alumni Affairs for distribution. Graduate Coordinators also make every effort to reduce e-mail redundancy by compiling and sending out digest e-mails over the listservs.

MEZCOPH undergraduate and graduate students have a listserv, PHAlliance, on which they may communicate information regarding student groups, events, community service activities, public health news, furniture for sale, etc. Listserv users must follow the College’s Social Media Guidelines found below and on the Hub. Use the address phalliance@list.arizona.edu to send a message to all MEZCOPH students.

**College of Public Health Social Media Guidelines**

The College of Public Health strives to support a vibrant, respectful conversation and expects that all users of the College's social media platforms treat each other with respect and abide by the rules and responsibilities of each social media platform. **MEZCOPH reserves the right to block or unsubscribe abusive users, and remove comments that:**

- Are hateful, threatening, malicious or discriminatory.
- Are libelous.
- Harass, bully, or intimidate any user.
- Engage in commercial activities not approved by the appropriate authority.
- Contain profanity, nudity, or graphic or gratuitous violence.
- Condone or encourage illegal activity.
- May be considered spam or are irrelevant to the primary contents of the page.
- Are repetitive (multiple identical or substantially similar posts by the same user).
- Cannot be translated into English using free online translation software.
- Could compromise the safety of a member of the public or the individual who created the comment, post or discussion.
- Reveal information in conflict with the Family Educational Rights and Privacy Act (FERPA), the Health Insurance Portability and Accountability Act (HIPAA), or any other applicable laws or regulations.
Student Intranet (Hub)
A student intranet, the Student Hub, on the College’s website, has been developed to assist students in locating information that is relevant to their role in the college. It is important, therefore, to check this site frequently for information regarding events, college developments, and student news. In addition to creating an electronic student community and presenting diverse information, such as student calendars, forms, deadlines, policies and processes, the MEZCOPH Student Hub serves as the access point to a number of required electronic surveys. Currently, these include the Midcourse Evaluation, the Student Annual Progress Report, and the Graduating Student Exit Survey. MPH students must submit their internship abstracts and final reports through the Student Hub. A UA NetID and password are required to access this site.

Website
The MEZCOPH website, http://publichealth.arizona.edu/, is used as the College’s primary point of information dissemination to the public, potential applicants, and students. Research interests of faculty members, a college directory, and news items are posted on this site. Curriculum requirements, academic and student policies, internship postings, and fellowship announcements are posted on the MEZCOPH Student Hub.

STUDENT SERVICES, RESOURCES & OPPORTUNITIES
Office of Student Services and Alumni Affairs
The MEZCOPH Office of Student Services and Alumni Affairs (frequently referred to as OSSAA) serves as the central point of coordination for student activities/events and provision of services to undergraduate and graduate students in all academic programs of the College. Each OSSAA student services professional has significant experience advising students, participates in numerous university wide taskforces and committees, and meets with MEZCOPH students on a daily basis to help them resolve issues related to their academic careers. These issues include, but are not limited to: admissions questions; course registration; meeting academic paperwork deadlines; college financial aid, scholarships, and fellowship application processes; internship processes; career advising questions; travel requests; and graduation requirements.

Career Advising
An integrated approach to career advising continues to provide appropriate career exploration services and support related to finding a public health career position. These services utilize the expertise of the University of Arizona Student Engagement and Career Development Office, professionals within the MEZCOPH Office of Student Services and Alumni Affairs, and public health faculty and practitioners. The University of Arizona Student Engagement and Career Development Office offers a broad range of programs designed to assist students and alumni in developing and implementing career plans, gaining career-related experience while enrolled in school, and pursuing post graduate career goals, whether that means permanent employment or alternate plans. University career resources include large career fairs, employer info sessions, resume workshops and an online job board and interviewing system, called Handshake. The College hosts alumni panels, provides resume/cover letter workshops tailored
for public health students, hosts a public health jobs listserv on which alums and college partners advertise positions and through which timely career guidance is provided.

Various events and services occur on an ongoing basis. Most recently, these events have included résumé writing workshops at both the undergraduate and graduate levels, and the establishment of an Alumni Panel each semester that introduces students to alumni working in various areas of public health. The Office of Student Services and Alumni Affairs consistently shares information regarding public health internships, fellowships, career opportunities through its listservs. College of Public Health students may request to join the internship or jobs listserv by contacting the administrative assistant in the Office of Student Services and Alumni Affairs. The Assistant Dean of Student and Alumni Affairs, the Doctoral/MS Coordinator, and the Phoenix Coordinator provide individual career guidance and résumé review.

**Student Problem Resolution**

When students encounter problems, it is imperative that resources and solutions are identified to resolve these issues. A table of Common Issues MEZCOPH Students Encounter and Who They Should Contact can be found on the Student Hub.

The Assistant Dean for Student and Alumni Affairs is the designated administrator whose role it is to hear student concerns and determine how these issues should be addressed. Student services professionals within OSSAA often are the first to hear student concerns. These concerns are discussed with the Assistant Dean, who triages the response to responsible administrators or to the full Dean’s Council.

Students who are experiencing difficulties of a sensitive or confidential nature are encouraged to make an appointment with the Assistant Dean who can provide assistance and guidance or will work with the student to find additional resources to solve the problem. The student and Assistant Dean will work together to find a mutually acceptable “next steps” plan of action. Students may also speak with the Graduate College. Please review the Graduate College’s Summary of Grievances webpage for more information.

**Disability Resource Center**

The UA Disability Resource Center (DRC) is the campus department designated by the University to determine and provide access to University classes, programs and activities for disabled individuals. Through an interactive process, the DRC will facilitate access either through a reasonable accommodation or by redesigning aspects of a University experience. The DRC’s processes are designed to be convenient for students.

When the design of the academic and campus experiences present barriers, accommodations may be necessary. At the DRC, students will find information on accommodations and other important campus resources to increase access on campus and enhance the overall UA experience. Disabilities appear in many forms (visible or invisible) and each pre-qualified student can discuss accommodations with an assigned Disability Access Coordinator.
Accommodations are available to any pre-qualified student (undergraduate or graduate including masters and doctorate). Accommodations may involve flexibility with test taking times, test locations, note taking, or course substitutions. For more information, contact the DRC or visit their website.

**Helpful Student Resources**
In addition to the information presented in the *New Student Guide*, distributed at New Student Orientation, the College has developed a list of Helpful Student Resources to assist students in navigating their life and time here at the University. Both the *New Student Guide* and the Helpful Student Resources are found on the *Student Hub*.

In addition, the College’s *Diversity and Inclusion page* has an extensive list of College and University resources for students.

The Graduate College’s *New and Current Students webpage* also has a number of resources for graduate students across campus including specific links to Graduate College policies and procedures, professional development, child care subsidies, staying safe on campus, and more! They also have a comprehensive *Frequently Asked Questions* page for all new and continuing graduate students.

**Student Input into MEZCOPH Operations**
The administration of MEZCOPH is keenly interested in understanding the student perspective of the College and its operations. To that end, numerous avenues for students to provide input and share concerns have been developed. First and foremost, student members are sought for all MEZCOPH committees, with the exception of the Promotion & Tenure Committee and the admissions committees. In addition to the university-administered Teacher and Course Evaluations, where students are encouraged to fully access all aspects of a course, the College also administers a mid-semester online course evaluation to determine if there are ongoing course issues. All graduating students are required to complete a comprehensive Exit Survey.

Ongoing student dialogues with faculty and staff provide a venue for proactive resolution of problems. When there are issues within a particular course, students should first speak with the instructor about their concerns. Course concerns involving multiple students that are not resolved through meeting with the instructor may be addressed at the Student Affairs Committee Meeting where a plan of action for resolution of the issues can be developed.

**Student Suggestion Box**
MEZCOPH students have great ideas, and we want to hear them! A physical Student Suggestion Box and an *Online Student Suggestion Box* are available to provide students with an opportunity to share feedback and suggestions. We appreciate the feedback and we take suggestions seriously. A main objective of the Student Suggestion Boxes is to get the suggestion/feedback in front of the appropriate College colleague, office, or committee for consideration. Please remember, however, that not all suggestions and great ideas are
implementable. Sometimes a follow-up dialogue about the suggestion brings greater clarity and understanding to the issue for all concerned parties.

The **Physical Student Suggestion Box** is located on the first floor of Drachman Hall next to the water fountain. This box is checked by the Office of Student Services every week. Students can submit anonymous suggestions to the physical box but must include their contact information if they would like someone to follow-up with them.

**Student Participation on MEZCOPH Committees**

Membership on MEZCOPH committees provides students opportunities to participate in much of the college’s decision making and governance processes. Students are encouraged to consider committee membership as a means of familiarizing themselves with college operations, faculty, and staff, and as a way to build their own leadership and collaborative skills. Students are invited to complete a Committee Membership Interest Form, on it indicating the committee(s) that they may wish to join. All attempts are made to accommodate as many committee membership requests from interested students as are received.

**Student Affairs Committee**

The charge of the Student Affairs Committee is to act as a clearinghouse for issues related to students; plan, facilitate, and support student seminars, workshops, etc.; function as lobbying agent/advocate for resolution of student problems; and communicate concerns to administration. This is an important committee as it supports the role of shared governance in college operations. The Student Affairs Committee meets twice each semester. While student representatives from each program are elected and help lead the committee, all students are welcome to attend and participate in the Student Affairs Committee.

**STUDENT AMBASSADORS**

To aid MEZCOPH with outreach and recruitment of a diverse student body as well as assist with alumni activities, the Office of Student Services and Alumni Affairs coordinates undergraduate and graduate Ambassador Programs. With a competitive application process, ambassadors proudly represent the College’s student perspective to prospective students and their families, the University of Arizona, the Tucson community, and other groups as called upon. College Ambassadors assist with undergraduate and graduate recruitment, participating in the following activities:

- Communication with prospective and admitted students
- Volunteer for UAHS-sponsored middle school and high school events
- Outreach to campus clubs and organizations
- Manage the College’s Instagram account and the student blog, **COPHee Break: Students Chime in from the Desert**
- Staff tabling events on campus, as well as at the American Public Health Association, Arizona Public Health Association, and Graduate School Fairs
- Student panels for visit days
• Lots of other fun outreach/recruitment activities
• Planning and facilitating alumni activities

STUDENT ORGANIZATIONS

Public Health Student Alliance (PHSA) – Tucson
The Public Health Student Alliance (PHSA) is the primary student organization of the college. All MEZCOPH students are members of PHSA. Established in 1997 by a group of committed MPH students, the initial charge of the group was to advocate for public health issues and to promote networking of students who work or wish to work in the field of public health. Since that time, the organization has matured and has expanded its scope of interest and activities to include participation in civic health promotion events, social events, intramural sports, and service projects. In addition to fundraisers, students have organized technical assistance workshops, advocacy trainings, and a student-to-student mentorship program. PHSA is open to all University of Arizona students who are interested in public health.

Public Health Student Alliance (PHSA) – Phoenix
The Phoenix Public Health Student Alliance (PPHSA) is one of the student organizations designed to involve the Phoenix-based University of Arizona students in the surrounding community. The organization was founded in 2011 in order to keep all students involved in the public health field who otherwise would not be able to partake in Tucson-based activities. All members in the MPH programs that are Phoenix-based are members of PHSA-Phx, and other MPH students have the option of joining as well. The primary mission of the group is to promote student outreach in Maricopa County. PHSA-Phx has built bonds with the community to promote not only the Phoenix-based University of Arizona programs, but also to establish connections with community members that will ultimately positively impact their health in all aspects.

American Indian and Indigenous Health Alliance (AIHA)
The American Indian and Indigenous Health Alliance (AIHA) is an undergraduate and graduate student organization established in 2012 by a group of MPH and DrPH students. The organization’s goals are to enrich and foster the educational and professional experience of Indigenous students at the University by offering diverse avenues of support that are responsive, adaptive, and efficient to meet the needs of Indigenous students. The organization also hopes to increase the representation of Indigenous students in public health disciplines.

Environmental and Occupational Health/Industrial Hygiene Club
The EOH/IH club at the University of Arizona is a student run organization that aims to enhance student knowledge and involvement. Members share a common interest in the promotion of environmental and occupational health, safety, and industrial hygiene through the reduction of biological, chemical, and physical hazards. Activities include professional networking, community engagement, and educational events that work in conjunction with current course objectives within the master’s program. Educational and networking opportunities for members of the industrial hygiene and environmental and occupational health communities
are provided through seminars, training opportunities, local tours, and roundtable discussions developed by the student group. This club also encompasses the student sections of the nationally recognized AIHA and American Society of Safety Engineers (ASSE) organizations.

**Graduate and Professional Student Council (GPSC)**
The Graduate and Professional Student Council (GPSC) was founded in 1991. In its early years, the GPSC was a branch of the Associated Students of the University of Arizona (ASUA). Now the GPSC is independent from the ASUA and has its own officers, directors, representatives, and budget. The GPSC has played major roles in improving graduate student life by pushing for programs such as health insurance, child care, TA and RA benefits, travel grants, and national advocacy (the latter primarily via the NAGPS). To find out more about the scope of GPSC activities, visit the [GPSC website](http://www.gpsc.org). Each College elects representatives to serve on GPSC.

**LUCHA**
Learning, Understanding, and Cultivating Health Advocacy (L.U.C.H.A.) is a group collective in the UA Mel and Enid Zuckerman College of Public Health, which promotes health advocacy through policy education, service, and campus engagement amongst Arizona-local community and institutional settings. L.U.C.H.A. is composed of faculty, staff, community members, students, and alumni who are interested in supporting the L.U.C.H.A. mission.

**University of Arizona Student Organizations**
The University of Arizona has over 600 student clubs and organizations, which play a key role in student life on campus. There are numerous undergraduate, graduate, and professional organizations fulfilling all aspects of student interests. For more information and contact information, follow our list of student clubs! The [Associate Students of the University of Arizona (ASUA) website](http://www.asua.arizona.edu) provides information about these student clubs.

**STUDENT MANAGED EVENTS**

**MEZCOPH Poster Forum**
The graduate programs of MEZCOPH host an annual research poster forum led by students. This event provides an opportunity for students conducting research and community-based work within MEZCOPH to network with public health professionals from industry and regional and state governments. The goal is to promote future collaborations such as employment and research partnerships. The student planning group invites keynote speakers, develops promotional literature, maintains a website that provides guidance for poster creation and participant registration, and produces a forum program which includes abstracts. Both students and faculty are encouraged to present posters. Posters are judged, and a cash prize is awarded to the best student poster.

**MPH Internship Conference**
With minimal faculty and administrator guidance, MPH program student volunteers are responsible for planning and facilitating the college’s MPH Internship Conference, held in the spring and fall semesters. This conference, to which public health professionals, university
administrators, undergraduate students and the public are invited, showcases the outstanding accomplishments of MPH students in their internships and functions as an outreach event. The format of the Internship Conference is similar to that of a scientific meeting, with multiple sessions occurring at the same time. A good deal of event coordination and collaboration skills on the part of the student planning committee ensures that all details are effectively managed.

Students on the planning committee assist with event coordination efforts such as disseminating promotional materials, coordinating and attending presentation rehearsals, formatting and printing a conference program, and recruiting and coordinating student volunteers for the day of the event.

**Social Justice Symposium**

Students of the Mel and Enid Zuckerman College of Public Health plan and host an Annual Social Justice Symposium in the spring semester. Initiated in 2007 by students in the Center for Health Equity/Project EXPORT Fellows program within the Mel and Enid Zuckerman College of Public Health, objectives of the one-day conference were and continue to be to showcase strategies and encourage activism to effect change in the realm of social justice and public health. Bringing together students, faculty, community activists and health professionals, the Social Justice Symposium aims to expand participants’ awareness and abilities to critically analyze how social injustices affect health outcomes worldwide with the goal of inspiring action at a personal level. Since 2007, the planning committee has included both undergraduate and graduate students from diverse corners of public health study. Beginning with the initial Social Justice Symposium, student planners and attendees have realized a need for a multi-faceted approach to the alleviation of disparities and their underlying issues.

**THE UNIVERSITY OF ARIZONA OFFICE OF SCHOLARSHIPS & FINANCIAL AID**

To be eligible for any federal loans or scholarship awards, domestic students must file a FAFSA. To qualify for scholarship awards, International Students must complete a [Financial Aid Calculation for International Students](#).

**Federal Financial Aid**

Federal financial aid (i.e., loans and grants for MEZCOPH students) is awarded through the University of Arizona’s Office of Scholarships and Financial Aid (OFSA). Application requests for financial aid should be made in the semester prior to the anticipated funding needs. Further information can be found on the [OFSA website](#). The Office of Scholarships and Financial Aid can be reached by telephone at (520) 621-1858, or by email at AskAid@email.arizona.edu.

**Qualified Tuition Reduction Benefit**

Benefits eligible employees of the three state universities, their spouses and dependent children may be eligible for drastically reduced tuition rates. The qualifying employee must be employed on the first day of the semester or term for which the benefit is to be used and must apply through the employee’s hiring department to access this benefit. Detailed information can be found on the [Human Resources website](#).
STUDENT FUNDING MANAGED BY MEZCOPH
The Assistant Dean of Student and Alumni Affairs manages the award process for the MEZCOPH scholarships and avenues of financial assistance listed below. A full listing of the College’s scholarships, complete with criteria, application deadlines and forms can be found on the MEZCOPH Student Hub. The College’s Scholarship Committee meets annually and on an ad hoc basis to select scholarship awardees. Students apply in the spring semester for financial assistance for the following academic year via a Scholarship and Teaching Assistant Application, also found on the Hub. The process and timing will be announced by the Assistant Dean in the spring semester.

Graduate College Dissertation/Thesis Tuition Scholarship
A limited number of awards that reduce nonresident tuition to what Arizona residents pay for tuition for 1 to 6 units are available. The award excludes the mandatory registration fees and differential tuition charges. This tuition scholarship is designed to reduce the tuition for nonresident students who are within 2 years of completing their degree and are only working on their thesis or dissertation research and writing. Students are eligible to apply if they are nonresident graduate (master or doctoral) degree-seeking students who are enrolled for one to six credits of 900-level units ONLY (no actual courses). This scholarship is not applicable to summer tuition. Students desiring more information about this scholarship should contact the Assistant Dean early in the semester prior to the one in which they will be requesting this scholarship.

Graduate College Fellowship Funding
The University of Arizona Graduate College allots MEZCOPH a limited amount of Graduate College Fellowship funding each academic year. Graduate Fellowships are cash awards that can be applied to tuition, health insurance or any other academic expense, the balance of which is paid directly to the student. MEZCOPH awards Graduate Fellowships to its students based on both financial need and academic merit. Awardees must establish and maintain at least a 3.0 cumulative GPA, be enrolled in six graduate units per semester, and have a current FAFSA on file to be eligible to receive and retain their award.

Additional merit-based scholarships administered through the Graduate College are found on the Graduate College website.

MEZCOPH SCHOLARSHIPS
The following monetary awards have been established to assist MEZCOPH students in face-to-face programs in funding their required coursework or research/internship experiences in specific areas of interest. Many of the MEZCOPH Named Scholarships can be applied for through Scholarship Universe, which is the University’s scholarship management system for students and departments. During the spring semester, applications for scholarships for the following academic year will be available. Each student will need to create a profile on Scholarship Universe and will be matched to scholarships for which they are eligible.
Cliff and Penny Crutchfield Scholarship Endowment
This $8,000 scholarship is for incoming doctorate bound students in the area of Occupational and Environmental Health. Students must demonstrate merit and/or financial need, and a commitment to public health, public service, and leadership.

Reva T. Frankle Scholarship
Need based scholarship for students who focus on diabetes and/or Native American populations. Funding amounts vary.

Dr. Robert Garcia/ The Victoria Foundation Scholarship
This scholarship recognizes meritorious Phoenix Program students who have earned a 3.0 GPA or higher and who have a commitment to complete 20 hours of community service. Three scholarships of $2,000 are awarded annually.

General Scholarship Fund
MEZCOPH has a limited, but growing, General Scholarship Fund. Students are welcome to apply for funding through the Office of Student Services and Alumni Affairs during the spring semester for the following academic year. Scholarship funds are awarded based on a variety of criteria, including financial need and academic achievement. Students apply for General Scholarship Funding on the Scholarship and Teaching Assistant Application.

Hispanic Women's Corporation/Zuckerman Family Foundation/Victoria Foundation Scholarship
The Hispanic Women’s Corporation, Zuckerman Family Foundation, and the Victoria Foundation have partnered to provide scholarship funding to MEZCOPH students who demonstrate an interest and commitment to serving our Hispanic populations, and whose professional goals include continuing service to those populations. Several scholarships are awarded annually.

Maureen Mangotich Scholarship
The family of Maureen Mangotich, MD, MPH, has provided a scholarship for full time public health students. Mangotich awards in the amount of $1,000 are made each year.

Joel Meister Scholarship
Dr. Joel S. Meister, a founding faculty member of the Mel and Enid Zuckerman College of Public Health, was internationally known for his work with community health workers or promotores de salud and the development of comprehensive disease prevention interventions focusing on community mobilization for policy change. A scholarship honoring Dr. Meister’s memory was established for MPH students. This award, in the amount of $5,000, will be made to an incoming MPH student who demonstrates merit, significant financial need, and a commitment to public health, public service and leadership.

Elbridge and Genevieve Morrill Memorial Scholarship
Mr. and Mrs. Elbridge Morrill established this scholarship to support academic related expenses of students in the Environmental and Occupational Health (EOH) Concentration of the MPH or
BS Programs. EOH students who are US citizens and have graduated from Arizona high schools are eligible to receive this award. Morrill Scholarship award amounts vary.

**Helen and Raymond Sarocco Scholarship**
The Helen and Raymond Sarocco Scholarship supports MPH students with financial need who have achieved academic excellence. One to two scholarship awards are made each year.

**SueBob Scholars Endowment**
This scholarship is awarded to full-time undergraduate students in their junior or senior year or graduate students in the College of Public Health. Preference is given to students who demonstrate a commitment to research and public service, are first generation college students, military students, and/or have previously obtained a bachelor’s in nursing. Several awards of $2,000 are given annually.

**Russell H. Swanson Scholarship**
Dr. G. Marie Swanson, Founding Dean of MEZOCPH, provides two $2,500 scholarships in memory of her late husband, Dr. Russell Swanson. This scholarship is awarded to meritorious incoming MPH students who intend to pursue careers as public health practitioners.

**Victoria Foundation/George H. Dean Scholarship**
This scholarship recognizes full time students committed to serving African American communities of Arizona, who exhibit leadership experience and social awareness within African American populations. Two awards at $2,500 are made annually.

**Victoria Foundation/Dr. Erlinda Tejada-Rodriquez Scholarship**
This is a merit-based scholarship for a full-time student with a 3.0 or higher grade point average who demonstrates a commitment to service and leadership experiences within Native American populations in Arizona. Annually, two awards at $2,500 are made.

**Zuckerman Family Foundation Scholarships**
This scholarship is intended to recognize meritorious full-time students with a 3.00 or higher grade point average who show commitment to public health, public service and leadership within Native American, Hispanic, and African American Communities. Funding amount vary.

**MEZOCPH INTERNSHIP AWARDS**

**Kent and Liz Campbell International Public Health Internship Endowment**
Dr. Carlos C. (Kent) Campbell, former Interim Dean of the College of Public Health and his wife, Liz, have provided an endowment that supports international (preference is Africa) internship of a full-time MPH student who has demonstrated a commitment to public health and global health.
Drachman Prevention Fellowship
The Drachman Prevention Fund was established to honor Mr. Roy P. Drachman, the founding Chairman of the College of Public Health Advisory Board and for whom the College of Public Health building is named. Mr. Drachman was involved in all aspects of community life and community building, and had a particular passion for healthy children and schools. The Drachman Fund provides fellowships to support students of public health who will further this work. A competitive award of $2,000 is made up to three times a year to MEZCOPH interns and student researchers who best outline an internship or research experience designed to promote healthy behaviors, sound nutrition, and physical activity in children and/or to mentor at-risk children and youth.

Nichols Initiative Scholars Fund Awards
The Andrew W. Nichols Initiative provides funding to support internships, research experiences, and preceptorships for MPH students currently enrolled in MEZCOPH. Andrew Nichols, MD, MPH, sponsored and inspired significant positive changes to health care programs and public health policy. As a physician working in public health and as a teacher and as a member of the Arizona Legislature, Dr. Nichols spent his entire career instigating the development of programs to benefit populations living in rural and border areas of the Southwest. This fund helps support students of public health and medicine who will further this work. Awards of varying amounts are made to MEZCOPH interns, student researchers, or student preceptors whose proposals best outline an internship, research, or preceptorship experience designed to promote policy, advocacy, or innovative service delivery in rural or border health.

MEZCOPH Research Awards
Graduate students in the MS/PhD Epidemiology and Environmental Health Sciences, PhD Biostatistics, PhD Health Behavior Health Promotion, and DrPH Programs are also eligible for available research funds. No more than one MEZCOPH research award can be awarded to the same student in a given academic year. These awards are designed to assist graduate students in the completion of their thesis or doctoral research and to provide them funds to purchase supplies, equipment, or laboratory tests that are not funded by other resources. Announcement of these award opportunities will be distributed to graduate students via student listservs.

MEZCOPH Travel Awards/Poster Printing
Limited funding for student travel to scientific and public health meetings and for poster printing is available. Priority is given to applications of students who 1) are presenting their work (e.g., posters, abstracts) at a meeting, 2) have completed a significant portion of core curriculum, and 3) have not received previous travel funding. Travel awards will not exceed $500 and poster printing awards will not exceed $100. The Application for Student Travel/Conference Funds is found on the MEZCOPH Student Hub. Applications are accepted by the Office of Student Services year-round and are reviewed on a rolling basis. Students also are
encouraged to apply for travel funding through the Graduate and Professional Student Council (GPSC).

MEZCOPH GRADUATE, RESEARCH, & TEACHING ASSISTANTSHIPS

Graduate Research Assistantships
Research assistantships are often available through the research grants of MEZCOPH faculty members or from other departments on the University campus. When the Office of Student Services and Alumni Affairs is notified of research assistantship opportunities, info about those positions will be shared with students via student listservs. However, these opportunities are best sought by speaking with individual faculty members who are conducting research. In general, these positions are awarded based on a competitive application that exhibits excellence in academic and/or professional endeavors and a strong indication that the candidate has the talents or abilities that the assistantship requires. In addition to a salary, these assistantships typically provide the recipient with a waiver of out-of-state tuition, partial remission of in-state tuition, student health insurance, and a 10% discount at the UA bookstores. Students are responsible for university fees and College of Public Health program fees.

Graduate Teaching Assistantships
Based on class size and format, a limited number of MEZCOPH courses utilize teaching assistants (TAs). TAs serve in mentoring, instruction, and administrative roles working with course instructor(s) in the classroom. TA job duties may include taking attendance, grading homework, quizzes, and papers, preparing course materials, developing and holding study sessions, scheduling guest speakers, monitoring academic integrity, holding office hours and lecturing.

In addition to a salary, these assistantships provide the recipient with a waiver of out-of-state tuition, partial remission of in-state tuition, student health insurance, and a 10% discount at the UA bookstores. Students are responsible for university fees and College of Public Health program fees.

The Assistant Dean for Student and Alumni Affairs manages the TA assignment process, utilizing an equitable process that considers three important factors: 1) instructor and department preferences, 2) the placement priorities established by the College, and 3) information regarding students’ employment and scholarship status.

Graduate students will be considered for placement as teaching assistants in the following order of priority: 1) MEZCOPH doctoral students who are required, as part of the degree curriculum, to TA a course; 2) MEZCOPH doctoral students who have already met the TA requirement or do not have the requirement; 3) MEZCOPH master’s level concentration or program students who have taken the undergraduate or graduate course offered by their program that needs a TA; 4) students who have content area expertise in the course subject matter; 5) non concentration or program students who have taken the course. TAs are required
to complete two mandatory pieces of online training before they are eligible for employment: FERPA Training and TATO. International students who serve as TAs must take a speaking assessment test administered by the Graduate College. For detailed information, please see the Graduate College’s English Speaking Proficiency Evaluation webpage.

The course instructor serves as the TA’s supervisor, and it is the instructor’s responsibility to communicate job expectations to the TA. It is also the instructor's responsibility to hold the TA accountable for meeting these expectations. At the end of the semester, the instructor is expected to evaluate the TA through a university established process.

To be considered for a teaching assistantship, students must have completed the College’s Scholarship and Teaching Assistant Application, speak with the course instructor early in the semester prior to the course offering, and notify the Assistant Dean of Student and Alumni Affairs of their interest in a particular assistantship.

Because of the limited number of assistantships and the growing number of graduate students, the demand for teaching assistantships far outweighs the positions available within the College. Efforts to equitably distribute the TA positions to qualified students require a limit to the number of times a student may serve as a teaching assistant in the College. Presently, master’s students (MPH and MS) may only hold a maximum of 3 TA positions through the College of Public Health. This policy does not apply to MEZCOPH graduate students who obtain assistantships outside of the College of Public Health. Successful completion of duties as a TA does not guarantee future assignments. Students are encouraged to seek graduate research and teaching assistantships in other departments and units at the university. The salary and benefits available to graduate assistants are comparable throughout the university campus.

In addition to the requirements of assistantships through the College, all students should familiarize themselves with the Graduate Assistant Manual. It is the student’s responsibility to read the GA Manual and abide by all policies outlined through the Graduate College.

The Graduate College also offers resources designed to help students balance family, work and school including GA Parental Leave and Temporary Alternative Duty Assignments (TADA).

**STUDENT HONORS & AWARDS**

**Outstanding Senior Award**

This College award is awarded to a graduating senior who has demonstrated outstanding achievements in 1) academic performance, 2) internship performance, 3) commitment to the College of Public Health and/or 4) community service.

**Delta Omega Public Health Honorary Society**

The Alpha Nu Chapter of Delta Omega, the public health honorary society for graduate students, was established at MEZCOPH in 2002. Since then, 230 members have been inducted.
into the chapter. Graduating graduate students who are academically in the top 25% of their graduating class are eligible for nomination by college faculty.

**Graduate and Professional Student Council (GPSC) Achievement Awards**
Each year, during Graduate and Professional Student Appreciation Week, the GPSC recognizes graduate and professional students, staff, and faculty that have made outstanding contributions to the campus and, in particular, to graduate education. See the [GPSC website](#) for more information.

**MEZCOPH Poster Forum Prize**
Prizes for the best student posters presented at the Graduate Poster Forum are awarded at the conclusion of the Forum.

**Outstanding MPH Student Award**
The Outstanding MPH Student Award recognizes a graduating student from the MPH Program who exhibits 1) outstanding academic performance, 2) outstanding internship performance, 3) commitment to MEZCOPH, and/or 4) commitment to community service. Faculty and staff members may nominate students for this award.

**Student Life Award**
The College of Public Health Student Life Award was instituted by the Office of Student Services and Alumni Affairs to acknowledge and recognize a graduating student who has made significant contributions to initiating, promoting and facilitating student activities and events across the entire college. Faculty and staff may nominate students for this award.

**DEGREE COMPLETION INFORMATION**

**MEZCOPH Exit Survey**
The MEZCOPH Graduating Student Exit Survey provides a mechanism for obtaining anonymous, continuous student feedback which is used by MEZCOPH to refine and adjust its operations. The perceptions of our graduating students provide valuable feedback to MEZCOPH faculty and administration.

All students are required to complete the Exit Survey as part of their graduation requirements. Final degree paperwork will be processed after the student has responded to the survey. Student answers are one-way encrypted, meaning that, while the computer will recognize that a student has responded, the responses will no longer be linked to the student’s email address. The Exit Survey will be available on the Student Hub in the weeks leading up to graduation.

Please note that the MEZCOPH Graduating Student Exit Survey is in addition to and separate from the Graduate College Exit Survey that is requested of graduating students across the University.
Graduate Information Sheet
As part of the degree completion process, students are required to complete a Graduate Information Sheet, which provides the College with the student’s forwarding address and future plans, if known. This information is needed by the college to maintain its accreditation by the Council on Education for Public Health.

MEZCOPH Convocation
Traditional Semester (Fall and Spring) Completion
Students who finish all degree requirements in spring may participate in the May convocation ceremony. Students who finish all degree requirements in the fall semester may participate in the December convocation.

All students must notify the Office of Student Services and Alumni Affairs of their intent to participate in the MEZCOPH ceremony by April 1 for the May convocation or November 1 for the December convocation.

Non-Traditional Semester (Summer or Winter) Completion
Bachelor’s students who are planning to complete their degree requirements by the summer graduation deadline may participate in the May convocation ceremony if they have no more than 6 (total) outstanding credits of upper division units remaining in the following categories of instruction: internship, track, or public health elective coursework. If any other degree requirements are outstanding, bachelor students may participate in the following semester ceremony only. Students must be enrolled in these outstanding units for summer at the time of convocation.

Master’s students and doctoral level candidates who are planning to complete their degree requirements by the summer graduation deadline may participate in the May convocation ceremony if they have no more than 6 outstanding credits at the time of convocation. Students must be enrolled in these outstanding units for summer at the time of convocation.

Additionally, doctoral candidates with outstanding graduation requirements must secure their Chair’s approval to participate in Convocation and present documentation of approval to OSSAA by April 1 for the May ceremony or November 1 for December.

All students must notify the Office of Student Services and Alumni Affairs of their intent to participate in the MEZCOPH ceremony by April 1 for the May convocation or November 1 for the December convocation. Prior to these dates via the college listservs, the Office of Student Services and Alumni Affairs communicates with students outlining specific convocation information and the procedure for submitting their RSVP. It is the responsibility of the student to read these emails and follow any directions provided.
University of Arizona Commencement
The UA university-wide commencement ceremony happens only once each year in May. December graduates are welcome to attend the Commencement ceremony either before or after their graduation date. Note, however, that a student’s name will only appear in the commencement program after the student’s degree has conferred.

Per university rules (http://commencement.arizona.edu/eligibility-requirements), August graduates, on the other hand, are welcome to participate only in the preceding May commencement and will have their names listed in that commencement program.

To view the university-wide commencement ceremony schedule, please see the University of Arizona academic calendar page: http://catalog.arizona.edu/acacdals.html

UNIVERSITY OF ARIZONA POLICIES
Academic Policies
MEZCOPH students are expected to adhere to all registration, enrollment, grading and academic policies outlined in the University of Arizona General Catalog and Graduate College Website.

Residency Classification
Residency classification standards and procedures at The University of Arizona are based on the Arizona Board of Regents Policy on Tuition Classification. Each student must be classified as a resident student or a non-resident student for tuition purposes. It is the responsibility of each student to provide the information necessary to obtain a correct residency classification and raise the issue of a disputed classification in a timely manner. For more information, please see the UA Residency Classification Office website.

UA Smoking and Tobacco Policy:
The University's "Smoking and Tobacco Policy" is designed to promote the health and wellness of all members of the University community, including visitors to campus, and it prohibits the use of tobacco and nicotine-containing products on property owned or controlled by the UA. This includes the main campus, the Arizona Health Sciences Center, the Phoenix Biomedical Campus, UA South, all satellite campuses, University vehicles, and any property leased by the UA. Smoking cessation aids, such as nicotine gum, patches, and nasal sprays, will be permitted, but all other forms of tobacco or nicotine - including pipes, cigars, cigarettes and e-cigarettes, all types of smokeless tobacco, and water pipes - will be prohibited. The latest version of the policy is available here.

Weapons Policy
Arizona Board of Regents policies 5-303 and 5-308 prohibit the use, possession, display or storage of any Weapons, Dangerous Instruments, Explosive Devices, or Fireworks, among other things, on The University of Arizona campus and on all land and in all buildings owned or under the control of The University of Arizona on behalf of the Arizona Board of Regents, except as
provided in Section 12-781 of the Arizona Revised Statutes. No concealed carry permit exempts a person from these policies. These policies apply to all University of Arizona students, employees, visitors and guests.

UNIVERSITY POLICIES GOVERNING ACADEMIC INTEGRITY, CONDUCT & NON-DISCRIMINATION

Academic Integrity Code
Integrity and ethical behavior are expected of every University of Arizona student in all academic work. This academic integrity principle stands for honesty in all class work, and ethical conduct in all labs and clinical assignments. This principle is furthered by the student Code of Conduct and disciplinary procedures established by ABOR Policies 5-308 through 5-404, all provisions of which apply to all University of Arizona students.

The procedures for reviewing a suspected violation are found in the complete Code of Academic Integrity, administered through the UA Dean of Students Office.

MEZCOPH students are provided with a number of online resources to assist them in understanding the concept of plagiarism and tools to build citation skills and strategies for avoiding plagiarism. University sanctions may be imposed on a student following an academic integrity infraction. In addition, MEZCOPH financial support (scholarships and assistantships) will be withdrawn and future awards prohibited.

Student Code of Conduct
The University of Arizona Student Code of Conduct sets forth the standards of conduct expected of students who choose to join the university community. Students who violate these standards will be subject to disciplinary sanctions in order to promote their own personal development, to protect the university community, and to maintain order and stability on campus. The UA Student Code of Conduct outlines these standards and sanctions.

Disruptive Behavior in an Instructional Setting Policy
The University seeks to promote a teaching and learning environment free from material and substantial classroom disruptions. Faculty members and teaching staff have the authority and responsibility to effectively manage their classroom environments. Instructors may determine the time and manner for student questions and expression of points of view in the instructional setting. Accordingly, instructors should establish, communicate and enforce reasonable rules of classroom behavior and decorum via the syllabus and classroom discussion. This policy is not intended to discourage appropriate classroom expression, discussion or disagreement, but to promote respectful interactions. Please review the full description of the Disruptive Behavior in an Instructional Setting Policy.

Non-Discrimination and Anti-Harassment Policy
The University of Arizona is committed to creating and maintaining an environment free of discrimination. In support of this commitment, the University prohibits discrimination, including harassment and retaliation, based on a protected classification, including race, color, religion,
sex, national origin, age, disability, veteran status, sexual orientation, gender identity, or genetic information. The University encourages all who believe themselves to have been the subject of discrimination to report the matter immediately as described in the link below on Reporting Complaints to University Offices. All members of the University community are responsible for participating in creating a campus environment free from all forms of prohibited discrimination and for cooperating with University officials who investigate allegations of policy violations. Please review the full description of the UA Non-Discrimination and Anti-Harassment Policy.

**Threatening Behavior by Students Policy**

The University seeks to promote a safe environment where students and employees may participate in the educational process without compromising their health, safety or welfare. The Arizona Board of Regents’ Student Code of Conduct, ABOR Policy 5-308, prohibits threats of physical harm to any member of the University community, including to one’s self. Threatening behavior can harm and disrupt the University, its community and its families. Please review the full description of the UA Policy on Threatening Behavior.

**COLLEGE OF PUBLIC HEALTH MATRICULATION STANDARDS**

The College has developed matriculation standards to identify the skills and behaviors that are expected of students admitted to the MEZCOPH academic or certificate programs. During the period of enrollment, should the student’s performance in any of the areas outlined drop below the acceptable standards, the student may be dismissed from the program to which the student has been admitted. A student’s performance compared to these standards will be assessed during annual academic progress reporting or at any time during the student’s enrollment in the College should unsatisfactory performance be reported. Please review the full description of the College of Public Health Matriculation and Progress Standards, found on the MEZCOPH Student Hub and included in orientation packets.

**GRADUATE COLLEGE & MEZCOPH POLICIES**

**Academic Deficiencies Noted at Admission**

A deficiency is a lack of course work or knowledge in a basic area that may be critical to graduate and professional work. Deficiencies in a student’s past academic work may be identified by program faculty during the admissions process. The program faculty has the authority to require completion of additional coursework prior to entry into the program or at the onset of the student’s graduate study. The coursework required must be taken at the undergraduate level, can be transferred from another accredited institution, and must be graded “A”, “B”, or “C”. Students should take steps immediately to address any deficiencies noted in communications from the College of Public Health. No student with academic deficiencies may hold a Graduate College fellowship, or graduate teaching/research assistantship.
Academic Probation at the Graduate Level
Students who have a cumulative grade point average of less than 3.00 will be placed on academic probation. Graduate College policy requires students who are on probation to meet with their Faculty Mentor/Advisor, discuss the steps to be taken to remedy the circumstances that caused the probationary status, and devise a written plan of action. Per College of Public Health policy, students on Academic Probation must complete a Retention Plan. Graduate students who are on probation for two consecutive semesters will be disqualified by the Graduate College. Students can apply for readmission to a degree program as early as the semester after their disqualification if they achieve a cumulative grade point average of at least 3.0 through additional graduate coursework. A re-admission request must be supported by the head of the major department and approved by the Graduate College. There is no guarantee of re-admission. The program can request termination of graduate studies for a student on academic probation. No student on academic probation may hold a Graduate College scholarship, fellowship, or graduate teaching or research assistantship.

GradPath
GradPath is the Graduate College’s electronic degree audit process that makes tracking and monitoring student progress transparent to all involved. Students fill in and submit forms online through their UAccess Student Center. Forms have some automatic checking built in that will prevent common errors (e.g., typos in course numbers, illegible faculty names, etc.). There is also some built-in logic to notify students when there is a problem with their form, such as courses outside our time limit. Such messages include links to policy. The automated workflow engine then routes the electronic forms to the faculty and Graduate College for their approval.

It is the student’s responsibility to monitor the faculty members’ and Graduate College’s approval of all forms submitted through GradPath. Students can monitor the approvals by tracking the approval path at the bottom of any form in GradPath.

Incomplete Grades
The grade of I (for Incomplete) may be awarded with the instructor’s agreement only near the end of a term, when all but a minor portion of the coursework has been satisfactorily completed. The incomplete grade will not be awarded in place of a failing grade or when the student is expected to repeat the course; in such a case, a grade other than Incomplete must be assigned. Students must consult and reach agreement with the instructor to be granted an Incomplete grade before the end of the term and will not automatically receive an Incomplete simply because all course requirements were not met.

The course instructor will determine the conditions of the Incomplete grade and set a date for completion of all required assignments at any point within the year following the end of the course. Those conditions will be outlined on a Report of Incomplete Grade form, which serves as a contract between the student and the instructor. The Report of Incomplete Grade form will be kept on file in the Office of Student Services and Alumni Affairs until the conditions for completion have been met. When the instructor notifies the Office of Student Services and Alumni Affairs that the work has been completed, a Change of Grade form will be submitted for
the course. If assignments are not completed, Incomplete grades convert to “E” (Failure) on the last day of classes of the same semester, one year after the Incomplete grade was awarded. Students will not be permitted to graduate until all Incomplete grades are cleared.

**Lapse in Enrollment**
Students who have an interruption in their enrollment of one semester or more in the program and have not been approved for a Leave of Absence will be required to apply for readmission upon resumption of coursework. Students should contact their Graduate Coordinator and the Director of Admissions to determine a plan for readmission. At a minimum, a Graduate College Application must be completed online, and additional application materials may be required. When a student leaves their graduate program and does not take a leave of absence, readmission is not guaranteed.

**Leaves of Absence**

**Academic Leave of Absence**
Academic Leave of Absence (i.e., leaves to take coursework at another university, for research, field work, internships, professional development, etc.) are handled on a case-by-case basis by the student’s department and the Graduate College.

**Medical Leave of Absence**
Graduate students in degree programs may be granted a Medical Leave of Absence by the Dean of the Graduate College. Under extraordinary circumstances, LOAs may be granted retroactively for up to one year. Students will be readmitted without reapplying to the department and the Graduate College. Only when the LOA is approved prior to the beginning of the semester for which the LOA is being sought will students be exempted from fees for that semester. Only academic services or facilities available to the general public can be used during the LOA.

**Personal Leave of Absence**
Graduate students in degree programs may be granted a Leave of Absence for a maximum of one year throughout the course of their degree program by the Dean of the Graduate College. Under extraordinary circumstances, LOAs may be granted retroactively for up to one year. LOAs are granted on a case-by-case basis for compelling reasons including birth or adoption of a child, personal or family reasons, medical reasons, military duty, or financial hardship. Students will be readmitted without reapplying to the department and the Graduate College at the expiration of the LOA. Only when the LOA is approved prior to the beginning of the semester for which the LOA is being sought will students be exempted from fees for that semester. Only academic services or facilities available to the general public can be used during the LOA.

Leaves of Absence (LOAs) may affect the status of a graduate student’s financial aid. Students are responsible for determining the requirements of their funding agency.
and/or academic unit prior to applying for a Leave of Absence. A Leave of Absence does not pause or stop the clock on the allowed time to completion. Master’s students have 6 years to complete their degree program starting with the first course that is applied to their degree. Doctoral students have five years from the time they past the comprehensive exam to complete their degree. Some doctoral programs may have additional maximum time to completion requirements found in the program-specific information of the handbook.

Failure to obtain a Leave of Absence or remain in continuous enrollment will result in penalties, as described in the Continuous Enrollment policy requirements. The Leave of Absence form is found on the UAccess Student Center under the GradPath option, petition forms.

Graduate College Petitions
Students may petition the Graduate College if extenuating circumstances have prevented their compliance with any University or Graduate College policies and procedures or to request a leave of absence. The student must complete the Petition Form online through GradPath. The petition should explain all relevant facts. With some exception for leave of absence requests, petitions must be accompanied by supporting documents and a letter of support from the Faculty Mentor/Advisor and/or the Director of the Program. If medical expertise is needed, Campus Health will be consulted. Petitions related to a course issue must have the instructor’s approval as well.

Responsible Conduct of Research Statement
Every graduate student must complete the Graduate College’s Responsible Conduct of Research Statement. This statement verifies that the student agrees to follow responsible conduct of research compliance regulations and academic integrity requirements and will adhere to them in their research. This statement is electronically signed on the UAccess Student Center under the GradPath option. Students must sign the statement before they are able to access their Plan of Study and other Graduate College forms.

Exceptions to Policy and Grievance Processes
There are many different types of policies that govern your time with us. When a student experiences an unusual situation, typically outside of their own control, that the student believes merits an exception to a policy, it is important that the appropriate appeals process is followed. We highly encourage students to discuss and identify the appropriate process in consultation with their Graduate Coordinator. Some examples include:

- Program Specific policies should be addressed initially with the Faculty Mentor/Advisor. If necessary, the Program Director and/or the full Program Faculty may need to be consulted.
- Exceptions to MEZCOPH-specific policies include structured process and form designed for that process that must be completed. Th document allows the student to explain the reason for requesting an exception to a MEZCOPH-specific policy and requires the
student’s request to be reviewed by multiple College administrative channels. Graduate students, please see your Graduate Coordinator. Undergraduates, please see your Academic Advisor.

- **Grade Appeals** have specific timelines and processes.
- Graduate College policies have their own petition process.
- Issues related to the Registrar’s Office or the Bursar’s Office should be directed to those offices.
- For a listing of different grievance categories, please see the Graduate College’s **Summary of Grievance Types and Responsible Parties**.

All appeals require a clear explanation of relevant facts and are strengthened by supporting documentation. In some cases, a letter of support from key faculty or staff may also be requested. Again, your Graduate Coordinator is available to help you identify the most appropriate process for your particular situation.

**SATISFACTORY ACADEMIC PROGRESS**

To be considered as maintaining Satisfactory Academic Progress, a student must:

- Maintain continuous enrollment
- Maintain a GPA of 3.0 or greater
- Meet Program Milestones in a timely manner
- Complete and receive a satisfactory faculty review of Student Annual Progress Report
- Complete required courses satisfactorily – no grades of D, E or F

**Continuous Enrollment**

According to **Graduate College Policy**, graduate students must be continuously enrolled each fall and spring semesters in a minimum number of graduate units from original matriculation until all degree requirements are met. (See table below.)

Unless excused by an official Leave of Absence (which may not exceed one year throughout the student’s degree program), all graduate students are subject to the Continuous Enrollment Policy and must pay tuition and fees in order to remain in the program. If the student fails to maintain continuous enrollment or obtain a Leave of Absence, the student will be required to apply for re-admission (including submitting application materials as determined by the program), to pay the Graduate College application fee, and pay all overdue tuition and fees. Tuition or registration waivers cannot be applied retroactively.

See the table below for the minimum number of units required.

</tbody>
</table>

*International students need to work with the International Student Office to get special endorsement for this minimum number of units.

**Doctoral or master’s students who are making good progress toward their degrees and who are not hired as Graduate Assistants/Associates or on student wages may qualify to enroll for only one credit to maintain full-time status to defer/receive educational loans (federal/private), some institutional support (contact unit to verify), or to maintain F or J visa status. For the Office of the Registrar to determine qualification, the graduate student must complete the Application for Advanced Status each semester (for up to four semesters), be registered for the term requested and submit the form three weeks before the term to have full time status reported (the UA only reports enrollment status to the Clearinghouse beginning one week before a term begins).

Additionally, MPH students planning to complete degree requirements in the summer must register for a minimum of 1 unit of graduate credit in either Summer I or Summer II. If not graduating in the summer term, master’s students do not have to register for graduate units during summer sessions unless they plan to make use of faculty time. If they do plan to use faculty time, they must enroll for a minimum of 1 unit of graduate credit in the summer term(s) in which they are using faculty time. If the student is working at the internship site during the summer, the student must register for a minimum of 1 unit of 909 in Summer I or Summer II.
If an MPH student has completed all course requirements and is only finishing the internship, the student must be enrolled in at least 1 unit of 909, Master’s Report, during their final semester(s) in the program. Similarly, MS students who have completed all course requirements and are only completing the thesis requirement, must enroll in at least 1 unit of 910, Master’s Thesis, during their final semester(s).

For doctoral students, if the program degree requirements such as the comprehensive exams or final oral dissertation defense are to be completed in the summer, they do not have to register for graduate units during the summer session. However, they must contact the Doctoral Programs Coordinator so that the Graduate College can be notified that the milestones will be occurring.

Once a doctoral candidate has completed the minimum 18 dissertation units, they may consider enrolling in 1 unit of 920, Dissertation, during their final semester(s) in the program. See the table above for information on maintaining full time status.

Part-time students need to be aware that there are implications for financial assistance, loan repayment, and/or visa status. It is the responsibility of the student to verify this with the Office of Financial Aid and Scholarships before requesting/finalizing enrollment with their Graduate Coordinator.

**Deferment/Forbearance of Student Loans**
Please visit the [Federal Student Aid website](https://studentaid.ed.gov) to educate yourself on the federal requirements to defer or forebear your student loan payments. The “Continuous Enrollment” section of this handbook defines part-time and full-time status.

**Minimum GPA**
In accordance with Graduate College standards, all degree program students must take at least 3 credits or more per semester and maintain a B (3.00) grade point average (GPA). Failure to maintain a 3.0 GPA for two consecutive semesters will result in dismissal from the program, as outlined by the Graduate College’s Academic Probation policy. If a student is in danger of falling below a 3.0 GPA, the student should contact the MPH or Doctoral/MS Programs Coordinator to create a plan of action.

Students can earn a C in a course and still complete the graduate Program. However, to maintain a 3.0 GPA, the student would need to earn an A in another course to balance out the C. Additionally, all courses required for your program (i.e. those on your plan of study), must be passed with a grade of C or better.

**Grades of D, E or F**
Only courses in which the student has earned a grade of A, B, C, S or P may be counted on the Graduate Plan of Study. A course may be repeated for inclusion on the Plan of Study or to improve the GPA; however, the original grade will be included in the GPA calculation and remain on the student’s transcript. Please be aware that students must have a cumulative GPA...
of 3.0 to graduate. Students who fail required coursework are at risk for dismissal from the program.

Program Steps and Milestones to Completion
A student’s progress toward meeting the Program Steps and Milestones to Degree is assessed at the time of students’ Annual Progress Report in conjunction with their Faculty Mentor/Advisor and Program Faculty. When it is determined that a student is not making timely progress, the student and Faculty Mentor/Advisor will meet to create a Retention Plan using the MEZCOPH form, Graduate Student Retention Plan for Failing to Meet Satisfactory Academic Progress. Please see the Steps and Milestones for your degree in the second portion of this handbook below.

Continued Program Progress and Annual Progress Report
Of major importance to program faculty and to the College is the student’s successful progression toward fulfilling all degree requirements. The process of monitoring student progress is outlined below.

Students are required to complete an Annual Progress Report that describes their progress and accomplishments for the previous academic year. This report is completed early in the spring semester of each year; the Office of Student Services and Alumni Affairs notifies students of the process and deadlines related to the Annual Progress Report. In a timely manner, students are responsible for completing the report, printing a copy, and making an appointment to review the report with their Faculty Mentor/Advisor. After this meeting, the student should take the signed report to the Graduate Coordinator. The Graduate Coordinator forwards these reports to the appropriate Program Director. The student is also asked to attach a résumé and a copy of the current Plan of Study (either draft or final version). Students who do not comply with the requirement for filing the Annual Progress Reports will be notified in writing of their failure to document satisfactory progress with a copy also sent to their Faculty Mentor/Advisor. These students are at risk for potential dismissal from the program.

The program faculty will review the reports, completion of required coursework, course grades, and timeliness of progress. When academic progress issues are identified, the program faculty, in consultation with Student Services, will provide the student with a retention plan.

A copy of the Annual Progress Report with faculty recommendations will be kept in the student’s file in the Office of Student Services and Alumni Affairs. If issues were identified, the original Annual Progress Report, with official recommendations, will be returned to the student for review with the recommendation that the student consults with the Faculty Mentor/Advisor.

Failure to Meet Satisfactory Academic Progress – Retention Planning
When a student has been identified as not making progress due to the following bulleted conditions, the student will be notified in writing via the student’s official UA email account using the College’s Graduate Student Retention Plan Form.
The student’s Faculty Mentor/Advisor and the appropriate Graduate Coordinator should be copied on that communication, as well. According to Graduate College guidelines, students must be given an opportunity to appeal or rebut items of unsatisfactory progress. The Graduate Student Retention Plan Form will outline the means by which the student is not meeting satisfactory academic progress, provide the student with the opportunity to explain the situation, and allow the student and the Faculty Mentor/Advisor to determine an agreed upon retention plan and timeline of completion. Signatures of agreement from the student, Faculty Mentor/Advisor and Program Director are required.

Students who do not fulfill their retention plan requirements by the agreed upon timeline, may be dismissed from the program. In this eventuality, the program may send a formal request to the Associate Dean of the Graduate College requesting the student’s dismissal from the program and the Graduate career. The Graduate College then decides whether or not to dismiss the student.

REGISTRATION, ENROLLMENT, & CREDIT REQUIREMENTS

Only 500 level courses or higher will receive graduate credit, and only 500 level (or higher) courses count toward the minimum enrollment.

Registration and Payment Deadlines

Registration for UA courses can be accomplished using the UAccess Student Center. Please be aware that it is the student’s responsibility to be informed of the payment deadlines. The student must pay in advance of these deadlines to avoid late penalties. The Office of Student Services and Alumni Affairs cannot negotiate the removal of late fees. It is advisable that initially, a student should pay for the number of units that the student anticipates taking, even though the schedule may change later.

ENROLLMENT IN FIELDWORK

Many students undertake field work in support of independent study, internship, thesis or dissertation efforts. While in the field working on any class or research projects for course credit, the student must be registered for appropriate credit hours. When working in the field,
students may encounter risk. University of Arizona course enrollment ensures liability coverage by the University. Students may not travel to countries for which the U.S. State Department has issued a Travel Warning to complete academic requirements.

UNIVERSITY OF ARIZONA INTERNATIONAL TRAVEL PROCEDURES

All students planning an internship or research project or completing a course outside of the United States must register their itinerary and complete the Travel Description Questionnaire in the University International Travel Registry – http://ua-risk.terradotta.com, as soon as your travel is known. At least 30 days prior to travel students must complete the Travel Authorization (TA) and obtain necessary signatures. Submit all original paperwork to FCO-Operations Travel Office, USB 402, P.O. Box 210158. Submit a copy of the Travel Authorization to the MPH Coordinator or MS/Doctoral Coordinator with the Internship or Research paperwork.

CAMPUS HEALTH SERVICE AND STUDENT HEALTH INSURANCE

University of Arizona Campus Health is committed to promoting health, wellness and safety at the University of Arizona and in the surrounding community by providing quality medical and mental health care, outstanding health education, while assisting the institution in health-related policy development. Campus Health is fully accredited by the Accreditation Association for Ambulatory Health Care, Inc.

The University offers one major medical health insurance policy, which meets the Affordable Care Act requirements and is rated as a gold level plan. Coverage extends nationwide and has an emergency benefit worldwide. All three State of Arizona university health centers serve as primary care providers for the main subscriber and it is available to: UA Students, Graduate Assistant and Associates, Post-Doctoral Fellows, J1 Visiting Scholars and J1 Student Interns.

Campus Health Service sends out three “Open Enrollment” notices each major semester (fall & spring) through the student’s official University of Arizona email address. The Student Health Insurance is ordered, canceled, or changed through UAccess Student Center only during an “Open Enrollment” period, unless one qualifies for a prorate through a qualifying life event. When the insurance is ordered, you are ordering a specific amount of time.

ATTENTION INTERNATIONAL STUDENTS

The University of Arizona requires that all international students on non-immigrant visas, regardless of classification or number of units, carry the Student Health Insurance unless one qualifies for an exemption. Exemptions must be requested each semester. Enrollment for Post-Doctoral Fellows, J1 Visiting Scholars and J1 Student Interns are handled directly through the Campus Health Service Insurance Office.
READMISSION POLICY

Occasionally, students encounter life events that lead them to discontinue their graduate studies for a number of reasons. In the event that you discontinue your graduate program while in good academic standing and wish to return to complete your degree, you will need to comply with the College of Public Health readmission policy.

Any student who requests readmission to their graduate program must submit an internal application. The readmissions policy and application process are outlined at https://publichealth.arizona.edu/graduate-students/admissions/how-to-apply.
SECTION II – PROGRAM SPECIFIC INFORMATION AND POLICIES

INTRODUCTION TO THE DOCTORATE IN PUBLIC HEALTH (DrPH)

The Council on Education for Public Health articulates the DrPH as the professional doctoral degree in public health, designed to produce transformative academic and practice leaders with expertise in evidence-based public health practice and research. These individuals are able to convene diverse partners; communicate to effect change across a range of sectors and settings; synthesize and translate findings; and generate practice-based evidence that advances programs, policies, services and/or systems addressing population health.

How to Use the DrPH Student Handbook

The DrPH in MCH Student Handbook is available on the MEZCOPH Student Hub and is the source for MEZCOPH and DrPH in MCH policies. The Graduate College posts its policies on their website. The DrPH in MCH Student Handbook may replicate some Graduate College policies, but it is a policy manual for students and faculty created by MEZCOPH. The DrPH in MCH Student Handbook helps students and faculty navigate the DrPH program.

Please be aware the handbook’s operational processes and policies change, and students are subject to the most recent handbook requirements, regardless of the year the student matriculated. The opposite is true of the Academic Curriculum Guide which outlines degree requirements. Students follow the Academic Curriculum Guide that matches the year the student began their doctoral studies. A student entering the program in 2019 will follow the 2019 Academic Curriculum Guide found on the MEZCOPH Student Hub. The Academic Curriculum Guide remains the same throughout the time the student is in their program unless the student decides to select a more current Academic Curriculum Guide version and receives program approval to do so.

DrPH PROGRAM POLICIES AND INFORMATION

Student Commitment
During doctoral studies, students learn to work independently and with faculty and community partner guidance. A dedicated student:

1. Demonstrates enthusiasm and a passion for learning.
2. Is self-motivated, and has a written plan and timeline for degree completion.
3. Initiates contact and schedules appointments regularly with faculty advisors.
4. Clarifies needs and comes prepared to meet with their faculty advisor.
5. Listens to advice and feedback, and incorporates suggestions into action plans.
6. Shows respect to faculty, mentors, other students, and community members.
7. Thinks independently and takes responsibility for their learning experience.

Faculty Commitment
Faculty members help students develop into DrPH leaders over the course of their studies. Faculty responsibilities include: teaching, conducting research, serving on review committees, and providing service to MEZCOPH, the University of Arizona, the state, nationally and internationally.

An effective mentor:

1. Dedicates time for student mentoring.
2. Shows respect for the student.
3. Facilitates problem-solving without solving the student’s problem for them.
4. Provides opportunities for and assists with student career advancement.
5. Encourages students to identify their professional path.
6. Has excellent communication skills.
7. Advertises and disseminates student work with full attribution.
8. Helps students plan and manage their work-load.
9. Serves as a role model to advance public health.

Intellectual Independence
Independent research and practice require problem-solving skills, initiative and intellectual curiosity. Using available resources effectively, a student learns to ask and answer practice questions grounded in the literature and experience.

Advising in the DrPH Program
At admission, a Faculty Advisor is appointed for each student. An early task is to define a student’s Doctoral Plan of Study. Each student is encouraged to meet and communicate regularly with their Faculty Advisor, at least once a semester. A DrPH student is responsible for scheduling meetings with their Advisor. Students can contact the Program Director, found on the Family and Child Health Program website, if there is a mismatch between the student’s interest and career goals with those of the assigned Faculty Advisor. Students follow the process outlined in the MEZCOPH Notification of Advisor/Mentor Change form (found on the MEZCOPH Student Hub). Once the form is completed, students submit it to the Doctoral/MS
Programs Coordinator in the Office of Student Services and Alumni Affairs when changing advisors.

During the first DrPH semester, a student should meet with MEZCOPH faculty members to learn about their research and practice interests. This information can help a student select a faculty member appropriate for each graduate career stage. As a student advances, different faculty members can serve in various capacities such as Faculty Advisor, Dissertation Committee Chair or Dissertation Committee member. Students may also find course instructors align with their interest, and may initiate a meeting to explore the possibility of working together.

Faculty profiles are on the MEZCOPH website directory and updated regularly. There are a number of individuals students communicate during their time with MEZCOPH. The following serve in different advising capacities.

**Faculty Advisor:** Serves as the student’s initial academic advisor. The student and advisor plan the course work for the degree program. The Faculty Advisor assures that the student meets the UA and DrPH requirements. An advisor must be a faculty member whose primary appointment is within the Health Promotion Sciences Department.

**Doctoral Programs Coordinator:** The point of contact for doctoral students in the Office of Student Services is the Doctoral Programs Coordinator. This person knows the ins and outs of the DrPH program, MEZCOPH, and the Graduate College. They receive student paperwork (such as annual progress reports) for processing with the College and Graduate College, and coordinate MS and doctoral program activities with the Program Directors and the Assistant Dean of Student and Alumni Affairs.

**Mentor:** Any faculty member who provides advice or helps guide a student’s scientific or professional development can be a mentor. Students are responsible for seeking out and developing mentor relationships. Mentors may be within MEZCOPH or from other Colleges. Mentors do not hold an official title within the College like Faculty Advisors or Dissertation Committee Chairs do.

**Advanced Practice Mentor:** This is a required mentor affiliated with the organization where the student will complete their dissertation. The Advanced Practice Mentor may or may not be faculty at the University of Arizona or another institution. In most cases, the Advanced Practice Mentor will not be affiliated with a University. The individual must be a professional in the field of public health with the skills to evaluate performance at the doctoral level. For more information, see the Advance Practice Mentor and Mentee Agreement on The MEZCOPH Student Hub.

**Comprehensive Exam/Dissertation Committee Chair:** Is a primary Health Promotion Science faculty member who meets the Graduate College requirements as either tenured, tenure track or tenure-equivalent. This person’s responsibility is to assure that the student meets the requirements of the DrPH program as it relates to the
comprehensive exam and the dissertation. The Comprehensive Exam Committee Chair oversees the student’s written and oral comprehensive examination. A student may continue with the same Chair for the Dissertation Committee or select a different one. The Dissertation Committee Chair coaches the student throughout the dissertation process from the written dissertation proposal and proposal defense to the final oral defense. Some students select their Faculty Advisor as a Comprehensive Exam and/or Dissertation Committee Chair or other committee member, but it is not required.

**Supervisor:** Many students are employed by the College through graduate research assistantship, teaching assistantships or as staff members. In these capacities, a faculty member is in the role of employment supervisor.

While faculty and staff are available to assist, completion of degree requirements is ultimately the student’s responsibility.

**New Student Activities**
All new students participate in the Doctoral and MS Student Orientation scheduled in August prior to the start of fall coursework.

**Competencies**
A set of competencies specific to the DrPH degree have been developed which will allow students and the faculty to determine progress. A subset of these are listed here and tie directly to the course work required for the DrPH.

- Apply understanding of one’s own leadership style to assemble and promote cohesive well-functioning teams with diverse and complementary styles.
- Act as catalysts for discussion of ethical dilemmas and issues that affect MCH population groups.
- Use implementation science to analyze and translate research findings into MCH policies and programs.
- Demonstrate the ability to develop and present an advocacy plan about MCH populations, issues, and/or services.
- Create a plan to use community based participatory research (CBPR) to develop an MCH project.

**Program Steps and Milestones to Degree**

**Typical time to completion:** Students take three to eight years to complete the program. In general, it takes 3-5 years (2-3 years for coursework, 1-2 years for dissertation work) for full-time students and 5-8 years for part-time students.

**Average time to completion:** 4.50 years
**Program Steps to Completion** (based on a full-time schedule):

- Attend mandatory new student orientation in August of the first semester
- Each Fall, complete the Individualized Development Plan (IDP) with Faculty Advisor
- Each Spring, complete an Annual Progress Report with Faculty Advisor
- Students are expected to serve as a Teaching Assistant (TA) at least once during their time in the program. Students can talk with their Faculty Advisor if they have prior teaching experience that may lead to a waiver of the TA expectation.

**First year**

- Devoted to course work. Students entering without an MPH must complete the MPH core courses in addition to degree requirements, plus the Maternal and Child Health course.
- Work with Faculty Advisor to form an initial, tentative Plan of Study

**Second year**

- Devoted to course work
- Identify potential Comprehensive Exam Committee members (see Comprehensive Exam Committee section for details)
- Formalize Plan of Study by the end of the second year

**Second/Third year**

- Formalize Comprehensive Examination Committee
- Take and pass Comprehensive Exams (written and oral)
- Form and formalize Dissertation Committee

**Fourth/Fifth year**

- Develop a Dissertation Proposal working closely with Dissertation Committee Chair
- Defend and gain approval for Proposal before Dissertation Committee
- If necessary, begin process for Human Subjects approval for dissertation
- Implement dissertation project and write dissertation
- Successfully defend dissertation and finalize revisions

Progress of the Program Steps and Milestones to Degree is assessed at the time of students’ annual progress report in conjunction with their Faculty Advisor and Program Faculty. Each spring Health Promotion Sciences faculty review pre-comprehensive exam students’ progress. When it is determined that a student is not making timely progress, the student and Faculty Advisor will meet to create a Retention Plan using the MEZCOPH form, “Graduate Student Retention Plan for Failing to Make Satisfactory Academic Progress.”
Individualized Development Plan
To promote progress and mentorship, all HPS doctoral students who have not taken their comprehensive exam by fall of the current school year will participate in the development of an Individualized Development Plan (IDP). The IDP is a tool used to set goals for the school year. The student and their faculty advisor meet in August or September to complete and sign the plan. The completed IDP is then uploaded by September 30 to www.box.arizona.edu, to the student’s assigned folder within the HPS Individualized Development Plan folder. Please note, although you may be able to see your colleagues’ folders, access to each folder is restricted to the student, the Faculty Advisor, Program Director and Graduate Coordinator. From December to January, students complete the college-wide Annual Performance Report (APR). Please see “Continued Program Progress and Annual Progress Report” in Section I above for further details. In April, the faculty of the Health Promotion Sciences Department review the progress of each pre-comprehensive exam student. The advisor meets with the student to provide the feedback from the faculty using the Faculty Feedback Form. The student and advisor sign the form and return it to the Doctoral Programs Coordinator by June 30.

Degree Requirements
Students see the Academic Curriculum Guide for the year they were admitted to the program found on the MEZCOPH Student Hub. The Plan of Study is developed by the student with their Faculty Advisor, and approved by the student’s Academic Program Director. Some DrPH courses may have pre-requisites. A student should work with their Faculty Advisor to plan accordingly.

New doctoral students are required to enroll in the one-unit course, HPS 609, Evaluating Public Health Literature, during the first fall semester of the program. This course is team-taught and designed to enhance critical thinking skills related to public health research.

DrPH Admission Prerequisites – 5 Core MPH Courses (15 Units)
Five MPH core courses are prerequisites for admission to the DrPH program (EPI 573a, PHPM 574, EHS 575, BIOS 576a, and HPS 577, or their equivalents). For equivalent coursework to be considered as fulfilling a requirement, a student must obtain faculty approval (described below). The five core MPH courses are DrPH prerequisites and are not included in the Plan of Study, but must be completed during the student’s graduate career.

Doctoral Plan of Study
In collaboration with the student’s Faculty Advisor, each student drafts a Doctoral Plan of Study during the first year. Advisors and students should refer and modify the Plan of Study as an advising tool. During the second to last semester of coursework, the Plan of Study is formalized with the required electronic forms on UAccess Student Center, under the GradPath option.

The Plan of Study identifies (1) completed courses from other institutions the student wants to transfer and count toward the graduate degree; (2) completed UA courses the student intends to apply toward the graduate degree; and (3) course work to be completed to fulfill degree requirements, including 18 units of dissertation (HPS 920). The Faculty Advisor, the FCH Program Director, Minor Faculty Advisor, and Chair of the minor program or department must
all approve the Plan of Study (minor selection and advisors are discussed below). The Plan of Study is usually the basis for the initial Graduate Committee meeting. A copy of the Plan of Study, either in draft or final form depending on progress, should also be attached to each Annual Progress Report.

**Transfer of Credits from a Master’s Program to the Doctoral Plan of Study**

Graduate credit earned at accredited institutions may be counted toward the requirements of the DrPH degree, if approved by the student’s Faculty Advisor, the Instructor of course being substituted (see below) and the FCH Program Director.

Per Graduate College policy, transfer credit may be considered if the grade earned was A or B. Grades of transfer work will not be used in computing the student’s UA grade-point average. Per DrPH policy, the coursework being considered must be less than 10 years old. No more than 18 units can be transferred in and applied to DrPH degree requirements. (Note: The MPH 15-unit core prerequisites do not count toward the 18-unit maximum transfer limit.)

The student must apply to transfer course credit during the first semester of the DrPH program. The student’s first step is to make an appointment with their assigned Faculty Advisor to request that the course(s) be reviewed and considered for transfer. The student should bring a transcript highlighting the course(s) to be transferred and a syllabus for each class. The student gets approval from their Faculty Advisor, UA instructor of the course being proposed as a substitution and Program Director for course transfers using the MEZCOPH Course Substitution form (see below).

For approved transfer coursework taken at an accredited institution outside of UA, the student completes the Graduate College’s Transfer Credit form (found on the UAccess Student Center under the GradPath option). The purpose of the Graduate College evaluation is to verify that the requested transfer credit is graduate level and is from an approved and accredited institution. The Graduate College defers to the FCH Program to determine whether or not the courses are suitable for substitution or elective credit.

The final decision for transfer of credits for non-UA courses, whether used as a substitution for a required course or as an elective, is made when the Plan of Study is submitted to the Graduate College.

**Course Substitutions**

If a student has completed a course similar to a required course, the student can apply to substitute it for the required course. A course substitution can only be approved by the UA professor/instructor of the required course. The course professor/instructor will review documentation from the student (i.e., course syllabus) for comparability to the required course and the student’s grade. If approved, the course professor/instructor signs the Course Substitution Form that the student provides (found on the MEZCOPH Student Hub). The Faculty Advisor must concur, and sign on the appropriate line. The student then submits the form to the MS/Doctoral Programs Coordinator. The substituted course fulfills the content
requirement, but the student must take another course of equivalent credit-hours toward the degree requirement, unless the course is approved for transfer credits.

**Independent Study Registration Policy**
A student who wishes to enroll in independent study (HPS 599/699) must complete the Independent Study Registration form found on the MEZCOPH Student Hub before being registered for the units. The form serves to establish the scope and focus of the independent, provide a permanent record for the student’s academic file, and facilitate the assignment of final grades at the end of each semester. After the student has completed the form, and received approval from the faculty member serving as Instructor (person responsible for overseeing the student’s work and assigning credit) and Faculty Advisor, the student submits the signed document to the MS/Doctoral Programs Coordinator who registers the student for the units.

**Research and Dissertation Registration Policy**
A student who wishes to enroll in research units (HPS 900) or dissertation units (HPS 920) and has met all program requirements to do so (see the “Dissertation Unit Enrollment” section below), must complete the 900-Level Course Registration form found on the MEZCOPH Student Hub before being registered for the units. The form serves to establish the scope and focus of the work to be completed that term, provide a permanent record for the student’s academic file, and facilitate the assignment of final grades at the end of each semester. After the student has completed the form, and received approval from the faculty member serving as Research Instructor or Dissertation Director (person responsible for overseeing the student’s work and assigning credit), the student submits the signed document to the MS/Doctoral Programs Coordinator who registers the student for the units.

**Minors for the DrPH**
Graduate College policy requires doctoral students to choose at least one supporting minor subject, in addition to the major subject. The selection of a minor subject area is the responsibility of the student, in consultation with their Faculty Advisor and/or Graduate Committee. Typically, at least one faculty member from the minor serves on the student’s Graduate Committee, although this number may be modified by the graduate faculty responsible for the oversight of the minor and by the student’s Graduate Committee. Declaration of the minor(s) will be made on the Doctoral Plan of Study.

Although the Graduate College requires a minimum of nine units of course work for a doctoral minor, departments offering the minor determine specific requirements. Requirements vary significantly across departments and colleges. The student is responsible for knowing and meeting the requirements of the chosen minor area of study. A DrPH student may not minor in public health, but may select a minor from within the College, i.e., Biostatistics, Epidemiology, Environmental Health Sciences or Health Behavior and Health Promotion.

A student can customize a minor area (with Graduate Committee approval) when no formal minor exists. These “focus-area minors” will be listed on the Plan of Study as a
“Multidisciplinary Minor” and not with the specific focus area name. Students interested in this minor option should discuss it with the Faculty Advisor or Graduate Committee Chair before taking the courses that they hope to include. Focus area minors must meet the following criteria: the proposed minor is not available at UA through an official major program, the minor must contain at least 9 credits that would not be taken by the student as part of the major, courses must be from at least two disciplines and all course work must be outside the Health Promotion Sciences Department. In addition, the student needs to identify a Minor Faculty Advisor who has expertise in the focus area. The student may also need to pass or complete a culminating experience as identified by the Minor Faculty Advisor (i.e., examination, research project, or internship).

**Change of Program within the HPS Department**

Given the competitive nature of admission to our doctoral degree programs, students are expected to remain and graduate in the specific doctoral degree program into which they are admitted. The Health Promotion Sciences admissions committee and the faculty engage in substantial deliberation in evaluating faculty-advisee matches, and ultimately offering enrollment into our doctoral programs; students are expected to have a strong grasp of the expectations, goals and requirements of the doctoral degree they enroll in.

Students who pursue a potential switch from one doctoral degree to another after their admission and enrollment will be required to submit an application for admission to their desired doctoral degree program during the programs’ standard admission deadlines. They will be competing for program openings with the next cycle of doctoral applicants. The Department of Health Promotion Sciences will not review applications outside this period.

**Residence Requirement**

To meet the minimum Graduate College residence requirement, the student must complete a minimum of 12 units of regular grades (A, B or C) taken in residence at the University of Arizona. “In residence” is defined as taking credits offered by the University of Arizona, whether or not they are offered on campus.

**Required Teaching Experience**

Each DrPH student is highly encouraged to serve as a Graduate Teaching Assistant (GTA) for a Public Health course of at least three units OR assist with the instruction and coordination of one Service-Learning course. The student should discuss the GTA experience with the course instructor in collaboration with the Assistant Dean of Student and Alumni Affairs. GTA opportunities are generally paid and highly sought positions by doctoral and master students. They are limited; therefore, students should begin planning early in the program to fulfill this requirement. The student is also encouraged to seek other opportunities to gain teaching experience.

Students serving as GTAs are required to 1) complete the UA Graduate Teaching Assistant Orientation (TATO), and 2) participate in the MEZCOPH Graduate Teaching Assistant Orientation (GATO).
The UA Office of Instruction and Assessment offers a Certificate in College Teaching. DrPH students can take advantage of this program prior to or while completing the GTA assignment.

See the “Graduate Teaching Assistantship” section above for additional information about Teaching Assistantships.

**Graduate Committees**

Doctoral students will employ two important committees during the course of their studies:

1. The Comprehensive Examination Committee, and
2. The Dissertation Committee (See the “Dissertation Committee” section below for program specifications.)
   (Note: see the hyperlinks for Graduate College policy regarding committee composition.)

**Comprehensive Examination Committee**

The Comprehensive Exam Committee is formed by the student in conjunction with their Faculty Advisor. The student is responsible for inviting faculty members to serve on their Comprehensive Exam Committee. The student documents faculty members’ consent to serve on the committee by completing MEZCOPH’s Declaration of Committee Membership Form found on the MEZCOPH Student Hub.

The committee consists of at least three faculty members from the major field of study and at least one faculty member representing each of the minor fields. Three members must be primary tenured, tenure-eligible, or tenure-equivalent MEZCOPH faculty. The Committee Chair must be a primary Health Promotion Science faculty. The committee must be approved by the Program Director for Family and Child Health. Briefly:

**MCH DrPH Comp Committee**

- Minimum 3 members representing the major, 1 representing the minor (Grad College requirement)
- 3 of 4 members must be TE (Grad College requirement)
- Chair is primary HPS faculty, TE
- Total of 3 members must be primary MEZCOPH TE faculty

(TE = Tenured, tenure-track, tenure-equivalent, emeritus)

To keep the Graduate College notified about the comprehensive milestone, the student is also required to complete the university’s Comprehensive Exam Committee Appointment Form (found on the UAccess Student Center under the GradPath option) a minimum of four weeks prior to the exam date.
Dissertation Committee
After successful completion of all coursework, teaching requirements, and passing the written and oral comprehensive examination, the student must complete the Dissertation Committee Appointment Forms. The completion of these forms indicates the candidate has identified and gained consent for participation from all committee members for the next stage of their graduate career.

The final Dissertation Committee must be composed of at least three tenured, tenure-eligible, or tenure-equivalent University of Arizona faculty members. The Dissertation Chair must be faculty members whose primary faculty appointment is within HPS. The student may also include one faculty member from the minor or additional Special Members. The student should check with their Minor Advisor’s program to determine whether or not the Minor Advisor is required to be included on this committee. Briefly:

MCH DrPH Dissertation Committees
- Minimum 3 members representing the major (Grad College requirement)
- Minor Advisor may or may not serve depending upon policy of minor program
- 3 members must be TE (Grad College requirement)
- Chair is primary HPS faculty, TE
- 2 others are UA TE faculty

(TE = Tenured, tenure-track, tenure-equivalent, emeritus)

Comprehensive Written and Oral Examinations
Before admission to candidacy for the doctoral degree and before embarking on the dissertation process, the student must pass a written and an oral doctoral comprehensive examination. Once a student completes 85% of the DrPH MCH course requirements and all, or almost all, of the minor course work, the student submits a request to the MS/Doctoral Programs Coordinator to take the comprehensive written and oral exams a minimum of 4 weeks prior to the start of the fall or spring semesters. Students are advised to take the comprehensive examination within 3 years of admission to the DrPH program.

A student is required to file and obtain approval for a Doctoral Plan of Study with the Graduate College before scheduling their oral comprehensive exam. Students are responsible for making sure all forms have the required faculty and Graduate College approvals and are submitted through GradPath. Students can track the form’s approval progress to completion in GradPath, summarized at the bottom of the online forms.

The written and oral comprehensive exams assess the student’s knowledge of the major and minor subjects of study, both in breadth across the general field of study and in depth within the area of Public Health and Family and Child Health.
The Graduate College summarizes the goal of the comprehensive examination:

“Before admission to candidacy for the doctoral degree, the student must pass a written and an oral Doctoral Comprehensive Examination. This examination is intended to test the student's comprehensive knowledge of the major and minor subjects of study, both in breadth across the general field of study and in depth within the area of specialization... This is the occasion when faculty committee members have both the opportunity and obligation to require the student to display a broad knowledge of the chosen field of study and sufficient depth of understanding in areas of specialization. Discussion of proposed dissertation research may be included. The examining committee must attest that the student has demonstrated the professional level of knowledge expected of a junior academic colleague.”

Written Examination
The written examination is administered on-site over a two-day period during the second week of the fall and spring semesters. The student must provide written notice of their intent to sit for the examination to the Doctoral Programs Coordinator at least 4 weeks prior to the published examination date.

Day One: The first day consists of a proctored examination where the student answers specific questions prepared by the DrPH faculty. The student has up to 8 hours to complete their answers. These questions will assess the student’s mastery of the required core and MCH concentration coursework and minor content (if applicable). The minor program may elect to include a question in Day One or may have separate requirements. The purpose of this exam is to provide a written forum for a student to demonstrate their ability to integrate and synthesize DrPH concepts and knowledge. The student must complete the examination using a laptop/desktop computer; however, the student will not have internet access. The student may not receive assistance from peers or faculty.

Day Two: The second day consists of a take home examination where a student has a maximum of 8 hours to prepare a two-page policy memo addressing a public health problem specific to MCH. This portion of the examination evaluates the student’s ability to justify public health action to non-public health professionals. The student must complete the examination using a laptop/desktop computer; the student will have internet access. The student may not receive assistance from peers or faculty.

Example policy memo question: You are Arizona’s Commissioner of Public Health. The governor is concerned about the problem of alcohol use among adolescents. He feels this is an area needing the resources of the Governor’s Office to address this problem. He has asked you to define the nature of the problem in Arizona and how he could best use the limited resources of his office to address this problem. You should provide an overview of the extent of the problem and a justified recommendation for the allocation of resources.

Results of the written exam will be shared with the student within two weeks. The student must pass the written examination before being able to sit for the oral examination. A student
who does not pass the examination may retake it once. This reexamination must be completed within one calendar year of the failed examination and must occur during a regularly scheduled examination period. If the reexamination is not successfully passed, the student is dismissed from the program and notified of this decision in writing by the Associate Dean for Academic Affairs.

Oral Examination
The oral examination occurs during the fourth through seventh weeks of the same semester the written exam was given. The oral portion of the comprehensive examination, also known as “oral comps,” evaluates the student’s ability to integrate the core knowledge of their public health program to address real world problems and communicate ethical, evidence-based solutions. The oral comps should demonstrate the student’s presentation skills and verbal competency as a doctoral-trained public health professional. The examinations will be graded as a whole with the final decision based on overall performance across all elements of the examination. The student may retake the oral portion of the Comprehensive Examination once. The reexamination must occur within one calendar year of the failed examination and must be scheduled during a regularly scheduled examination period. If the student fails the reexamination, the student is dismissed from the program and notified of this decision in writing by the Associate Dean for Academic Affairs.

The oral examination consists of: 1) a 20-minute prepared student presentation summarizing the policy position developed during Day 2 of the written comprehensive examination; 2) 30 minutes for questions on the presentation and 3) general questions to test whether the student has “a broad knowledge of the chosen field of study.” The student should expect the third part of the oral exam to last at least an hour. The exam must be completed within three hours.

The student will be evaluated based on their ability to:

Integrate multiple sources of information to describe a specific public health problem.
- Synthesize previous work/information that describes the problem.
- Summarize the relevant contextual factors relevant to the development of an intervention or policy related to the problem.

Propose a comprehensive strategy to address the problem.
- Describe and justify the major components of the strategy including interventions, policies, and services.
- Address issues related to costs, the ethical and legal framework, health and/or socioeconomic disparities, and relevant cultural issues.
- Identify strengths and weaknesses of the strategy.
- Identify metrics to evaluate process and/or outcomes of the proposed strategy.

Communicate effectively to public (e.g., “lay”) officials.
- Write clearly and logically using correct spelling, grammar and punctuation.
• Use language that is appropriate for the audience and sensitive to their unique perspective.

The oral presentation should effectively summarize the above points in a clear, concise, and compelling manner relevant to a policymaker.

Presence of a senior faculty member who is not on the committee to observe the exam as a neutral third party may be requested by the student or faculty. This faculty member is not to ask the student questions or to participate in the discussion with the Committee Members during the exam. If requested by the student or Graduate Committee, the Associate Dean for Academic Affairs will make the assignment of a faculty member, who is not part of the student’s Graduate Committee, to serve as an outside program representative at the oral examination and will ensure the person is present at the examination.

**Student and Chair Responsibilities**

The student is responsible for scheduling the oral comprehensive examination with the members of the Comprehensive Examination Committee and must inform the MCH Program Director and the Associate Dean for Academic Affairs. Committee members’ schedules must accommodate the entire scheduled exam period. The student also needs to notify the MS/Doctoral Programs Coordinator. If needed, the MS/Doctoral Programs Coordinator will assist the student in scheduling a room for the examination.

The student is responsible for completing Announcement of Doctoral Comprehensive Exam form found on the [UAccess Student Center](https://uaccessstudentcenter) under the GradPath option. This form completion notifies the Graduate College of the date and time of the exam and should be submitted a minimum of two weeks prior to the exam date.

The Comprehensive Examination Committee Chair (aka Graduate Committee Chair) is responsible for submitting the results of the exam to the Graduate College, via the GradPath form, Results of Comprehensive Exam.

Once the student has successfully passed the written and oral portions of the comprehensive exam as well as all courses listed on the approved plan of study, the student transitions from a doctoral ‘student’ designation to a doctoral ‘candidate’ designation. In light of this status change, a charge will be added to the student’s Bursar’s account for degree candidacy. A copyrighting fee is optional. Check the Graduate College website prior to your anticipated completion to determine the charge amount.

**Time Limitation**

Per Graduate College policy, all Doctorate of Public Health requirements must be completed within five years of passing the comprehensive exam. Should a student not finish within that time period, the student may be required to re-take the comprehensive exam and some coursework before proceeding to complete the dissertation and degree.
**Dissertation Unit Enrollment**
A DrPH student may enroll in dissertation units (HPS 920) the same semester they plan to take the comprehensive exams, if approved by their Faculty Advisor.

All students who wish to enroll in dissertation units must complete a 900-Level Course Registration Form found on the MEZCOPH Student Hub before they can be registered for the units. The form serves to establish the scope and focus of the work to be completed, provides a permanent record for the student’s academic file, and facilitates the assignment of final grades at the end of each semester. After the student has completed the form, and received approval from the Dissertation Director who serves as the “Instructor”, the student turns it in to the Doctoral Programs Coordinator who registers the student for the units.

**Dissertation Committee**
Please see the description for “Dissertation Committee” under the “Graduate Committee” section above.

**Dissertation Proposal, Previous**

*Attention students: The following sections are related to the former dissertation process but continue to be an option for students who entered the DrPH program prior to Fall 2018 and have passed Comprehensive Exams by the beginning of the Fall 2020 term. Students who matriculated in Fall 2018 and later must follow the directions below for an “current” dissertation process. Any DrPH student may follow the current option, regardless of date of matriculation.*

The purpose of the dissertation for both the Academic/Research option and the Professional/Practice option (see below) is to produce original scholarship that will advance the major area of specialty. A student must complete 18 dissertation credit hours to ensure that they are dedicating time and making progress on this substantial project.

The student is responsible for developing an abstract describing the proposed dissertation research. The student should first invite a faculty member (see requirements of Dissertation Committee Chair on page 30) to serve as Dissertation Chair and if the invitation is accepted, to discuss the proposed work, review the abstract and discuss other committee members. The student is then responsible for connecting with each proposed committee member to invite the selected faculty members to serve by sharing the abstract.

Once all proposed Dissertation Committee Members have agreed to serve, the student should complete the MEZCOPH Declaration of Committee Membership form (found on the MEZCOPH Student Hub). The student must secure all committee members’ signatures, and file the form with the Doctoral Programs Coordinator. After filing the paper form, the student must also file the GradPath Dissertation Committee Appointment Form. The GradPath form is found on the UAccess Student Center under the GradPath option. The Dissertation Committee Chair reviews and approves the electronic form on behalf of the Committee. In addition, the Associate Dean of Academic Affairs reviews and approves the form on behalf of the DrPH faculty.
Once the Declaration of Committee Membership is filed with the College, the student is responsible for developing a 12-page dissertation proposal to share with all Dissertation Committee Members electronically. Please contact the MCH Program Director for proposal specifics.

At that point, the Dissertation Committee members will have two weeks to inform the Dissertation Chair if they agree the proposal is ready to defend or if the proposal needs additional work. If even one committee member indicates additional work is needed, that committee member must provide written feedback to the student and the student must consider the recommendations. The student can make modifications or explain why specific recommendations were not followed. The Dissertation Chair notifies the Dissertation Committee when the student is ready to defend the proposal.

**Dissertation Proposal Defense, Previous**
The student is responsible for scheduling a two-hour, face-to-face meeting to present their proposal and gain feedback before the research begins. At the meeting, the student presents a brief overview of the study as outlined in the proposal. Dissertation Committee Members will then ask questions and engage in discussion with the student. Once discussion has finished, the student is asked to step out of the room. The Committee makes a decision that results in: 1) need for more proposal development and another defense of the proposal; 2) agreement that the student can move forward with the proposal; or 3) agreement that the student can move forward with the proposal, pending approval of minor revisions. If revisions are required, the committee will provide appropriate guidance, a deadline and identify whether full committee approval is necessary or simply the Chair’s. The student is invited back into the room where the Chair announces the decision.

The dissertation proposal defense must occur within one year of the date the student passed the oral comprehensive exam. This keeps students making steady progress. In cases where the student has not presented their dissertation proposal within the year, the student provides a written explanation for the delay to the Doctoral Program Coordinator. The explanation is reviewed by the Program Director. To continue in the program, the student, must have approval for an extension. If not, they can be dismissed from the program.

Once the dissertation proposal is approved, the student should develop and receive approval for a communications plan and time table for the Dissertation Committee Members to review progress continuously throughout the dissertation phase.

Per Graduate College policy, after Dissertation Committee approval, the student sends an email (copying the Graduate Committee) to the MS/Doctoral Programs Coordinator with an electronic attachment of the proposal and signed abstract. The Doctoral Programs Coordinator notifies the Graduate College that this requirement was met.
Written Dissertation Options, Previous
Actual preparation of the written dissertation follows the Graduate College rules. See the ‘Dissertation Formatting Guides’ on the Graduate College website.

Students can choose from two approved dissertation formats. One is a contiguous document with chapters. Two is a three-paper published/publishable format with an introductory and concluding section that provide an integration of three manuscripts. The student requests a specific format during the Dissertation Proposal Defense. The student’s Dissertation Committee approves the format prior to the initiation of the work.

Students decide from two options for the focus of the dissertation: advanced practice or research. In some cases, the foci can overlap.

Professional Practice option: A student may choose to conduct DrPH dissertation work within the context of a public health agency, referred to as the sponsoring organization and with the goal of developing a resource for the agency. The student should discuss dissertations in their workplace with their Dissertation Committee Chair and if needed, the Program Director. The sponsoring organization can be the student’s current or previous place of employment; however, the proposed project and professional activities must be different than their usual job duties. The advanced practice-based dissertation must investigate a significant public health problem in maternal and child health. While this dissertation option does not require the collection of new data, the candidate must demonstrate sophisticated independent analysis.

Research option: A student can decide to conduct innovative research and demonstrate a sophisticated command of public health practice. Suitable proposals may take a variety of forms. For example, the student may propose to test a theory or hypothesis; propose, pilot and evaluate an innovative intervention; or work with a secondary data set to inform public health practice and policy.

A DrPH candidate is expected to spend at least one year and no more than five years conducting the dissertation project and writing the dissertation document.

Written Dissertation, Current
Attention students: The following sections are related to an Advanced Practice Dissertation and are requirements for students entering the DrPH program in Fall 2018 and later. Students who matriculated prior to Fall 2018 who have not passed Comprehensive Exams by the beginning of the Fall 2020 term, must also follow these requirements. All other DrPH students may follow these guidelines or those found above for the “previous” dissertation process.

The purpose of the dissertation is to produce a project with deliverables and scholarship that directly benefit an organization and will advance the major area of specialty. A student must complete 18 dissertation credit hours to ensure that they are dedicating time and making
progress on this substantial project. This equates to approximately 40 hours of work a week for 20 weeks.

Dissertation Proposal and Approval Process, Current
Upon completion of the comprehensive exam, the student writes a dissertation proposal (ranging from 6 to 10 double spaced pages exclusive of references and title page) outlining the proposed dissertation project, and submits it to their Dissertation Committee.

It is the student’s responsibility to identify the project(s), an organization and an Advanced Practice Mentor (See Advanced Practice Mentor and Mentee Agreement Form in the MEZCOPH Student Hub) within the organization willing to support the student in the student’s dissertation process. Once the Mentor is identified, the student and Mentor complete the Applied Practice Mentor-Mentee Agreement found on the MEZCOPH Student Hub under Student Forms. A copy of the completed form is submitted to the Doctoral Programs Coordinator and kept on file.

The student should first invite a faculty member to serve as their Dissertation Chair with whom they should discuss the proposed work, review the topic and discuss other committee members. The student is then responsible for connecting with each proposed committee member to invite the selected faculty members to serve by providing a short draft (1-3 pages) of the proposal.

Once all proposed Dissertation Committee Members have agreed to serve, the student should complete the MEZCOPH Declaration of Committee Membership form (found on the MEZCOPH Student Hub). The student must secure all committee members’ signatures, the Program Coordinator’s signature and then file the form with the Doctoral Programs Coordinator.

After filing the paper form, the student must also file the GradPath Dissertation Committee Appointment Form. The GradPath form is found on the UAccess Student Center under the GradPath option. The Dissertation Committee Chair reviews and approves the electronic form on behalf of the Committee. In addition, the Associate Dean of Academic Affairs reviews and approves the form on behalf of the DrPH faculty.

Once the Declaration of Committee Membership is filed with the College, the student is responsible for finalizing a proposal while working with their Chair. The proposal should include:

1. Title Page: On a title page, present the formal title of the dissertation and clearly state the public health question that you are addressing in this dissertation.

2. In 1 page or less describe the background and context of the problem being studied.

3. Most importantly, the proposal should address two questions:
a. How will your dissertation improve the public’s health in a practical way by contributing to the solution of a current public health problem while providing some generalizable lessons practitioners can use; and

b. How will the project be carried out? You should provide an outline of the methods to be used. It is particularly important that this portion of the proposal be written as specifically as possible. The more explicit you can be about your methods, the greater the likelihood for approval. This is because your Committee can follow your proposed plan and assesses its feasibility.

4. Describe five competencies you predict mastering as a result of this project. Competencies are listed on the Advanced Practice Mentor and Mentee Agreement as well as available at the Family and Child Health web page.

5. Identify potential field-based deliverables you anticipate creating that directly benefit your partnering organization or another organization.

The student works with their Dissertation Chair while developing the proposal. When the Chair considers the proposal sufficiently developed, the Chair sends the proposal to the full Dissertation Committee. The Dissertation Committee reviews this proposal and may offer suggestions for improvement.

The Dissertation Committee members will have two weeks to inform the Dissertation Chair if they agree the proposal is ready to defend or if the proposal needs additional work. If even one committee member indicates additional work is needed, that committee member must provide written feedback to the student and the student must consider the recommendations. The student can make modifications or explain why specific recommendations were not followed. The Dissertation Chair notifies the Dissertation Committee when the student is ready to defend the proposal.

Any subsequent changes to the proposal must be presented to and approved by the Dissertation Committee.

**Dissertation Proposal Defense, Current**

The student is responsible for scheduling a two-hour, face-to-face meeting to present his/her proposal and gain feedback before the research begins. At the meeting, the student presents a brief overview of the study as outlined in the proposal. Dissertation Committee Members will then ask questions and engaged in discussion with the student. Once discussion has finished, the student is asked to step out of the room. The Committee makes a decision that results in: 1) need for more proposal development and another defense of the proposal; or 2) agreement that the student can move forward with the project/research; or 3) agreement that the student can move forward with the project/research, pending approval of minor revisions to the proposal. If revisions are required, the committee will provide appropriate guidance, a deadline
and will identify whether full committee approval is necessary or simply the Chair’s. The student is invited back into the room where the Chair announces the decision.

The dissertation proposal defense must occur within one year of the date the student passed the oral comprehensive exam. Failure to successfully defend the proposal within that time limit may result in dismissal from the program. This determination will be based on the student’s written explanation for the delay between comprehensive exam completion and dissertation proposal defense.

Once the dissertation proposal is approved, the student should develop and receive approval for a communications plan and time table for the Dissertation Committee Members to review progress continuously throughout the research phase.

Per Graduate College policy, after Dissertation Committee approval, the student sends an email (copying the Graduate Committee) to the MS/Doctoral Programs Coordinator with an electronic attachment of the proposal and signed abstract. The Doctoral Programs Coordinator notifies the Graduate College that this requirement was met.

Dissertation Content, Current
The DrPH dissertation will be conducted within the context of a public health agency with the goal of developing a resource for the agency or general public. The practice-based dissertation must investigate a significant public health problem in the student’s major area of study. While the collection of new data is not required, the candidate must demonstrate sophisticated independent analysis.

The final DrPH dissertation will be a single, unifying document that demonstrates the following requirements set down by the Council on Education in Public Health (CEPH):

D6. DrPH Applied Practice Experience

Regardless of the amount or level of prior experience, all DrPH students engage in one or more applied practice experiences in which students are responsible for completion of at least one project that is meaningful for an organization and to advanced public health practice. The work product may be a single project or a set of related projects that demonstrate a depth of competence. It may be completed as a discrete experience (such as a practicum or internship) or integrated into program coursework. In either case, the deliverable must contain a reflective component that includes the student’s expression of personal and/or professional reactions to the applied practice experience. This may take the form of a journal or other written product, a professional portfolio or another deliverable as appropriate for the program.

Relevant organizations may include governmental, non-governmental, non-profit, industrial and for-profit settings. The school or program identifies sites in a manner that is sensitive to the needs of the agencies or organizations involved. Sites should benefit
from students’ experiences. The intention of this criterion is that the applied practice experience should take place within an organization external to the student’s school or program so that it is not merely an academic exercise, but application of learning to a “real world” setting. The applied practice experience may be completed within a student’s own work setting.

DrPH programs ensure that graduates have significant advanced-level practical experiences collaborating with practitioners, allowing opportunities to develop leadership competencies and contribute to the field.

The (student) identifies a minimum of five foundational and/or concentration-specific competencies (as defined in Criteria D3 and D4) that are reinforced and/or assessed through application. The (student) may either choose at least one competency from the leadership, management and governance domain in Criterion D3 or choose a concentration-specific competency identified in Criterion D4 if it relates to leadership skills.

D8. DrPH Integrative Learning Experience

As part of an integrative learning experience, DrPH candidates generate field-based products consistent with advanced practice designed to influence programs, policies or systems addressing public health. The products demonstrate synthesis of foundational and concentration-specific competencies.

The integrative learning experience is completed at or near the end of the program of study. It may take many forms consistent with advanced, doctoral-level studies and university policies but must require, at a minimum, production of a high-quality written product.

The student will follow the Graduate College’s formatting guide for a contiguous document with chapters. At a minimum, the following components must be incorporated:

- Introduction of the topic area
- Project description
- Needs assessment
- Policy and Program Implications
- Reflection on how DrPH competencies were demonstrated
- 360-degree performance review
- Literature review?
- Evidence of a minimum of five foundational and/or concentration-specific competencies were met or exceed within the experience
- Other deliverables created by the candidate that demonstrate the CEPH criteria above
The candidate needs to work closely with all Dissertation Committee members and in particular the Dissertation Director to develop the final draft. The student should develop, propose and receive approval for a communication plan and timetable from the Dissertation Committee for reviewing dissertation progress. The student needs to give the Committee Members at least five weeks to read the final draft.

A DrPH candidate is expected to spend at least one year and no more than two years conducting research and writing to complete the dissertation requirement.

Assessment of the Dissertation
Besides the formal presentation of the dissertation in a public forum and the subsequent closed-door examination described below, the student’s dissertation experience will be evaluated by the following means:

- Feedback from the sponsoring agency in the form of a 360-degree performance review.
- The student’s mastery of at least five competencies as demonstrated by the student within the content of the dissertation and measured by the DrPH Competency Matrix.
- Overall relevance and meaningfulness of the dissertation experience to the sponsoring agency as demonstrated by the student.

Human Subjects Protection Program Information
The Human Subjects Protection Program (HSPP), as the administrative and regulatory support program to the University of Arizona’s Institutional Review Board (IRB), works in collaboration with the research community to maintain an ethical and compliant research program. The IRB committees are the independent review committees charged with the protection of human research subjects. An IRB must review all research and related activities involving human subjects conducted at the University of Arizona (UA) or by in which the University is a responsible participant.

The purpose of IRB review is to assure that appropriate steps are taken to ensure that the rights and welfare of humans participating in the research are protected, that risks to the participants are minimized and are reasonable in relation to anticipated benefits, and that the PI is qualified to conduct the study. IRBs review research protocols and related materials (e.g., informed consent documents). In accordance with federal regulations, an IRB has the authority to approve, require modifications in, or disapprove research. The IRB must review the research at least once a year to make sure that it is going as planned.

All studies involving human subjects or creation or use of Protected Health Information (PHI) must be reviewed and approved in advance by the UA HSPP/IRB Office, in the Office of Research, Discovery and Innovation (ORDI), to determine if the research adheres to federal regulations. It is against Federal regulations to conduct research involving human subjects without prior IRB approval.

As of February 1, 2018, all IRB forms have been transformed into an electronic PDF “smart-form” form-fillable format. It’s imperative to work with your Dissertation Director and site
preceptor (if applicable) upon answering the questions in the form, because your answers will
determine the supplemental questions that “pop up” as you work through the form. All IRB
form submissions must be in this form-fillable or “smart form” format.

The form-fillable PDF requires the most recent version of Adobe Reader. You can access and
save the form by downloading the document to your computer and then opening it up from
your computer’s hard drive.

Save the completed PDF form-fillable version of the document (with your responses) to your
computer. If you don’t save the form to your computer, you will lose your completed work.

If you are having trouble opening or accessing the forms, you can contact the IRB office or you
can consult Suzanna Trejo-Robinson in the Research Office or your Dissertation Director.

The IRB form instructions say to email/send the completed application directly to the UA VPR-
IRB Office (via their listserv), but MEZCOPH students must initially submit their IRB applications
to their Dissertation Director (“Advisor” on the IRB form), to allow them to review and approve
of the application and supplemental materials (if needed). Then, once approval is obtained by
the Dissertation Director (Advisor), then the completed materials and approval email are
submitted to the MEZCOPH Research Office/ (Suzanna Trejo-Robinson) for internal pre-review
prior to submitting to the VPR-IRB Office. Suzanna Trejo-Robinson will look over the submitted
documents for completeness and once complete, she will obtain the Departmental Review
Approval signature and then Suzanna will submit your application materials for you once
internal pre-review and approvals are completed.

If clarification is needed on whether the project constitutes human research, Dissertation
Directors and/or students should contact the MEZCOPH Research Office/Suzanna Trejo-
Robinson (suzanna@email.arizona.edu) early in their planning process. Students and Advisors
can feel free to contact the UA VPR-IRB office directly with their questions, should they choose
to do so. In this case, they should email the VPR-IRB listserv at: vpr-irb@email.arizona.edu.
Questions should be related to the project activities though, not the submission process. The
IRB office expects application submissions to come directly from the MEZCOPH Research Office
in order to ensure that the proper channels and approvals are completed. Application
submissions which do not follow the proper internal protocol can be rejected by the IRB office.

Human Subjects Approval Process for Dissertation/Thesis Projects

Human Subjects Training and Certification
All doctoral students must obtain Human Subjects training and certification, (via the CITI
Program), before beginning their dissertation project, regardless of whether they are
completing human research.

This training may be obtained through the UA Research Gateway/ HSPP/ Institutional Review
Board (IRB) website: http://rgw.arizona.edu/compliance/human-subjects-protection-
program/training-requirements.
There are several courses to choose from, but the two “main” courses are: Social & Behavioral Research or Biomedical Research. Each student should choose the most appropriate course for their internship project in consultation with the Committee Chair. Choose the course based on the type of activities you plan to conduct. (Note that other supplemental courses may be required depending on the project activities.)

**HSPP-IRB Forms**

Each dissertation project must be reviewed by the Dissertation Director to establish whether the project will require HSPP/IRB review or not, and if so, determine which IRB form to submit for approval. If the project will require a full review by one of the IRB Review Committees, additional time must be built into the dissertation project timeline. There are a couple of form options for seeking IRB approval of the doctoral research project and these forms are described below.

**When you KNOW the project is Human Subjects Research:**

**A. Complete the appropriate IRB Application Document**

- *Application for Human Research* – this form is used when the student is starting a new human subject’s project, is reviewing identifiable data, **OR** is being added to a non-UA IRB approved project (i.e. an agency outside of a UA department – in other words Ceding IRB review to another institution).
- *Amendment to Approved Human Research* – used when a student is being added to an already UA-IRB approved project. (This form is to be completed by the PI of the project the student is being added to.) Copy of the acknowledgement from the IRB, that the student has been added, MUST be included in the final paperwork submitted to the Doctoral/MS Programs Coordinator.

Students must work closely with their Dissertation Director and Suzanna Trejo-Robinson in the MEZCOPH Research Office to ensure the correct IRB forms are completed and submitted in order to begin the project by the intended start date.

UA IRB application documents can be found here: [https://rgw.arizona.edu/compliance/human-subjects-protection-program/HSPP-form/forms-index](https://rgw.arizona.edu/compliance/human-subjects-protection-program/HSPP-form/forms-index)

**B. Submit a copy of the IRB Approval with project paperwork**

A copy of the final approval notice from the UA IRB **must** be submitted to the Doctoral/MS Programs Coordinator as part of the final paperwork packet. If the Doctoral/MS Programs Coordinator does not have proof of UA IRB approval, the student may not start their project.
When you are **UNSURE** if the project is Human Subjects Research:

**A. Complete the Determination of Human Research (DOHR) Form**

Students should complete the Determination of Human Research (DOHR) form, with the assistance of their Dissertation Director, based on the specifics of the (student’s) project activities and projected outcomes. Completing the DOHR form should help assess and clarify whether or not the (student’s) project activities will be considered “human research” or not and if the project will require additional review through the UA IRB. The DOHR Form can be found at the following link: [https://rgw.arizona.edu/compliance/human-subjects-protection-program/HSPP-form/forms-index](https://rgw.arizona.edu/compliance/human-subjects-protection-program/HSPP-form/forms-index)

**Approvals – Email the completed IRB form to your Dissertation Director for review and approval**

Obtain approval from your Dissertation Director via email response. A physical signature is no longer required on the forms, but rather a confirmation email of approval is required. The email should state that your advisor has read over your IRB paperwork and approves of your form/application. Note that the Dissertation Director can approve as both “Advisor” and “Scientific Reviewer” on the IRB form.

**Once you receive e-mail approval from your Dissertation Director, submit your completed application form (in the form-fillable format) and supplemental documents (as required) AND the approval email from your Dissertation Director to Suzanna Trejo-Robinson in the MEZCOPH Research Office: suzanna@email.arizona.edu.**

- This e-mail to Suzanna must have both items in the same message. Do not send the PDF document and the e-mail response from your Dissertation Director in two separate messages.
- You may include the approval e-mail from your Internship Chair as an attachment, or you may cut and paste the entire message from your Chair into the body of the e-mail sent to Suzanna.
- Students MUST copy their Dissertation Director and the Doctoral/MS Programs Coordinator on this e-mail.

**Form submission**

As previously stated, while the form instructions might say to email/send it directly to the UA VPR-IRB Office (via their listserv), the MEZCOPH student only submits this form to the Dissertation Director, ("Advisor" on the IRB form), and the MEZCOPH Research Office for initial (internal) pre-review. If the form needs to be submitted to the VPR-IRB office, do not send it directly, but rather Suzanna Trejo-Robinson will submit your application for you once internal pre-review is completed. The student will be copied on the submission email to the VPR-IRB office so that they (IRB) can correspond with you after it’s been submitted.

Please submit the form-fillable PDF version of your IRB forms to the Research Office for pre-review and submission to IRB. Forms that are not in this format will automatically be sent back
to the student because all necessary information for pre-review cannot be accessed in any other format.

**Notification of Approval**
If IRB determines that your project is NOT human research, and/or they give a final approval email that your human subject’s application has been approved, you must send this confirmation email from the UA IRB to (1) Your Dissertation Director, (2) your Doctoral/MS Programs Coordinator, and (3) Suzanna Trejo-Robinson. (Sometimes the IRB office will do this on their approval emails, but not always.) Include a printed copy of this confirmation with your final project paperwork.

**NOTES ABOUT COMMON TYPES OF PROJECTS:**

- Program evaluations and/or quality improvement projects generally are not considered to be Human Subjects’ Research and usually do NOT require a full IRB application, so long as the final outcome is not intended to be generalizable. The student must still complete and submit the Determination of Human Research (DOHR) form to the Research Office in order to assess and evaluate the student’s activities.
- De-identified data for a secondary data analysis research project, where the PI does not nor will not have access to the original identifiers, usually will NOT be considered human subjects’ research and an additional IRB application generally will NOT be required. The student must still submit the completed DOHR form to the Research Office in order to assess the student’s activities.
- In general, activities involving quality improvement/program evaluations, case reports and oral histories, to name a few, usually do NOT constitute Human Research (only so long as the intent is not to generalize). The student will have to complete the DOHR form in consultation with the Dissertation Director in order to make that assessment. More information and **IRB Guidance** on these types of activities and procedures can be found at the following link: [https://rgw.arizona.edu/compliance/human-subjects-protection-program/guidance-and-procedures](https://rgw.arizona.edu/compliance/human-subjects-protection-program/guidance-and-procedures).

For clarification or questions, contact the MEZCOPH Research Office/Suzanna Trejo-Robinson via email at: (suzanna@email.arizona.edu) early in the planning process. You can also contact the IRB office directly using their listserv email address at: vpr-irb@email.arizona.edu. As previously stated, questions should be limited to project activities, not the submission process. Submission questions should be directed to the MEZCOPH Research Office.

**MEZCOPH Review & Approval and Submission Process:**
For all IRB applications, the student should work with their Advisor (Dissertation Director) (and research PI and/or preceptor as indicated), to complete the IRB documents (regarding the student’s activities in the project) and then get the advisor’s approval email. The Dissertation Director can approve as both Advisor and as Scientific Reviewer of the project.
MEZCOPH review and approval process proceeds as follows:

1. The IRB application (and supplemental documentation as needed) is forwarded electronically in the form-fillable format to the MEZCOPH Research Office/Suzanna Trejo-Robinson for a preliminary review. (**Do not pay attention to the HSPP submission instructions, which say the PI should submit directly to the IRB Office!) Suzanna Trejo-Robinson will conduct a pre-review of the application and if complete, the application will be routed to the
2. MEZCOPH Scientific Review Committee (as needed) for review and approval (unless approved by the advisor). **Please note that these two steps can take 2-3 weeks, depending on projects already in the queue. Once approval is received by the Scientific Review Committee, it is then sent back to the Research Office for
3. Review and approval by the Associate Dean for Research (ADR) for Departmental Review and approval. Finally, Suzanna Trejo-Robinson will submit the MEZCOPH-approved IRB application to
4. The HSPP-IRB Office, who will provide the final review. The IRB Office will send official approval notification directly to the PI to activate the research.

Planning Ahead for Proper Approval
It is the student’s responsibility to plan ahead, seek the necessary IRB paperwork approvals, and complete the associated documents. The student must plan far enough in advance to complete the IRB approval process prior to the desired research start date. Although there is no set timeframe for IRB approval, the student should plan approximately 2-3 weeks at the MEZCOPH level and an additional 2-4 weeks once received by the UA Human Subjects Protection Program (HSPP/IRB/VPR Office). Questions about the MEZCOPH process should be discussed with Suzanna Trejo-Robinson in the MEZCOPH Research Office at: suzanna@email.arizona.edu or via phone: 626-8315. You can also send HSPP-IRB inquiries (about project activities) directly to the IRB listserv at: VPR-IRB@email.arizona.edu.

Research Project Closure Forms
Research projects that require full IRB packet submission and approvals MUST be closed at the completion of the student’s dissertation. This process is the responsibility of the individual graduate student.

- **IRB Closure/Renewal Form**: Investigators are responsible for concluding human research activities as soon as possible after a project is completed and/or no longer involves human subjects. Projects not concluded after the expiration date of the project are considered administratively closed by HSPP. Use the IRB Closure/Renewal form to inform HSPP when your study is completed or a decision has been made not to conduct the study. If you need to renew your study for another year, then you need to complete the Closure/Renewal form. These forms can be found at the following link under “renewals”: https://rgw.arizona.edu/compliance/human-subjects-protection-program/HSPP-form/forms-index
**Student Services Requirements**
Students should turn in the following documents to the Doctoral/MS Programs Coordinator in the Office of Student Services and Alumni Affairs:

**All students:**

1. CITI Training Completion report
2. Forwarded electronic copy of the approved **Determination** form

**Select students engaged in Human Subjects’ research:**

1. Forwarded electronic copy of the approved **Application for Human Research** form approval letter OR
2. Forwarded electronic copy of the approved **Amendment to Human Research**

**Completion of Doctoral Requirements**
Following successful completion of the Final Oral Dissertation Defense Examination and completion of revisions required by the Dissertation Committee, the final dissertation must be submitted via the electronic submission site at the Graduate College website and meet all Graduate College requirements. The Graduate College publishes deadlines for the completion of all degree requirements on their website. Because of instances of self-plagiarization, it is highly recommended that the student embargoes the dissertation for an extended period of time or permanently at the time of submission

The student must provide bound or electronic copies of the dissertation to the Academic Program Director, Chair and the Dissertation Director. If requested, copies are also provided to the other Dissertation Committee members. Additionally, if the candidate chooses to embargo the dissertation, the Office of Student Services would appreciate a bound copy.

The UA Dean of the Graduate College then certifies that the candidate has fulfilled all requirements for the Doctorate of Public Health and recommends conferral of the doctoral degree by the Arizona Board of Regents. The Graduate College posts the degree completion date on the transcript and mails the diploma to the student.
THE PhD MINOR IN PUBLIC HEALTH

Minor Requirements
The PhD minor in Public Health (for majors outside of the DrPH program) is administered by the DrPH programs in MEZCOPH. A total of 15 course credits are required, as well as the successful completion of questions during the PhD comprehensive exam (they may be included in the written component and are required in the oral component). See the MEZCOPH Academic Curriculum Guide found on the MEZCOPH Student Hub for further details of the specific course requirements and schedule.

Declaration of Minor
Any core faculty in the College of Public Health can serve as a Public Health Minor Faculty Advisor. After identifying a Public Health Minor Faculty Advisor willing to serve in this role for the doctoral student and receiving guidance regarding minor coursework, the student needs to complete the MEZCOPH Declaration of PhD Minor Form (found on the MEZCOPH Student Hub or by contacting the Doctoral/MS Programs Coordinator to request the form). The form is reviewed and approved by the Minor Advisor and the Associate Dean of Academic Affairs. The completed form must be filed with the MEZCOPH Doctoral/MS Programs Coordinator in the Office of Student Services and Alumni Affairs (Drachman Hall Room A302). The Minor Faculty Advisor will serve as the Chair of the Minor for the student’s Graduate Comprehensive Exam Committee and may or may not serve on the Dissertation Committee.

Composition of Committee
The composition of the Public Health Minor portion of the student's graduate committee shall consist of at least one primary faculty member from the College of Public Health. Public Health Minor Advisor/Committee Members will formulate questions for the comprehensive examinations.

Transfer of Credits
Graduate credit earned at other approved institutions may be counted towards fulfilling the requirements of the PhD minor in Public Health, if approved by the Minor Faculty Advisor. Two forms must be completed in addition to the ultimate incorporation on the Plan of Study: The MEZCOPH Course Substitution form is used to evaluate the course for content and appropriateness within the Plan of Study. For transfer coursework taken at an accredited institution outside of the University of Arizona, the student must also complete the Graduate College's Transfer Credit form.
