		EHS 909 #	Master's Report "Internship" (1-5)
IMPORTANT GUIDELINES			
* MPH required core courses are offered fall & spring semesters, allowing flexibility. The modality and number of offerings may vary by semester and are subject to change. All five 3-unit Core Courses must be complete prior to the student's final term in the program.			
** This course offered only in this semester.			
§ Make sure you consider course delivery by year (some courses only have even or odd year offerings).			
# Prerequisites for EHS 909 – Master's Report "Internship": May not be initiated until a minimum of 3 core classes have been completed (which must include BIOS 576A), EHS 502 and EHS 584.			
Note: The final internship report may not be completed until the semester following the completion of all five MPH core courses.			
Bolded courses in first fall semester indicate essential courses for the student to take that semester.
