IMPORTANT GUIDELINES			
* MPH required core courses are offered fall & spring semesters, allowing flexibility. The modality and number of offerings may vary by semester and are subject to change. All five 3-unit Core Courses must be complete prior to the student's final term in the program.			
**This course is offered both fall and spring semesters			
*** This course only offered in this specific semester; not in both fall and spring semesters.			
§ Prerequisites for EPID 909 – Master's Report "Internship": At least 3 MPH core courses, EPID 573B, and BIOS 576B before starting internship. EPID 909 typically is taken in multiple semesters with the credit hours split across semesters.			
Note: The final internship report may not be completed until the semester following the completion of all five MPH core courses.			
+ NOTE: Students planning an infectious disease related MPH Internship are encouraged to take EPID 660 spring year 1. EPID 660 and HPS 577 are offered during the same time slot during the spring semester; plan accordingly.			
# Students who require full time graduate status for loan/scholarship disbursement may need to take more units than the sequencing recommends.			
Bolded courses in first fall semester indicate essential courses for the student to take that semester.
