

PREFIX LISTING REFERENCE FORM:

With the Fall 2017 semester, the College of Public Health has adopted a new prefix system for its available courses.

The number of each individual course will remain the same, but the three/four-letter prefix will no longer be CPH, but will instead be mapped to the specific department offering the course. For example, CPH 376: Introduction to Biostatistics will now be BIOS 376: Introduction to Biostatistics.

Please use the following form to determine the new prefix for the course you may be looking for!
