Tips for a Safe Flight during COVID-19:

**Student Guide**

1. **Do You Need to Fly?**

   - Is it possible to drive? Car travel is much lower risk.
   - If possible, book short flights.
   - Check your airlines safety practices.

2. **If You Choose to Fly:**

   - Try to keep a 6 ft. bubble between you & others.
   - Pick a window seat to secure your bubble.
   - Turn your air ventilator on high for clean air.

3. **Remember to:**

   - Bring a fitted mask.
   - Wash your hands frequently.
   - Use plastic bags for items that others may handle.
