IMPORTANT GUIDELINES

Bolded courses in first fall semester indicate essential courses for the student to take that semester.

* MPH required core courses are offered fall & spring semesters, allowing flexibility. The modality and number of offerings may vary by semester and are subject to change. All five 3-unit Core Courses must be complete prior to the student’s final term in the program when writing your Internship Report.

** **Prerequisites for EPID 909 – Master’s Report “Internship”**: At least 3 MPH core courses and EPID 596D before starting internship. EPID 909 typically is taken in multiple semesters with the credit hours split across semesters. *Note*: The final internship report may not be completed until the semester following the completion of all five MPH core courses

¹ This course is offered both fall and spring semesters

² This course only offered in this specific semester; **not** in both fall and spring semesters.

³ Students planning an infectious disease related MPH Internship are encouraged to take EPID 660 spring year 1. *Note*: EPID 660 and HPS 577 are offered during the same time slot in spring, so plan accordingly.
